gend quarrels of the nations of the eld world require us to be continually refreshing our historical knowledge. In its mechanical execution the book reflects great credit upon its publishers. It is a auperb volume of 1260 large double-column pages, printed on paper of the very best quality. The book contains over 650 of the finest and most beautiful engravings ever published in this country. They are new, having been made expressly for this work, and embrace battles and other historical scenes; portraits of the great men of ancient and modern times; and views of the principal cities of the world. These engravings are genuine works of art, and were made at a cost of over \$25,000. The great number and high character of these engravings make this the most valuable art publication of the century. The work contains a comlete History of the late War between Russia and Turkey, which is the only history of

this struggle in print. It is for sale by subscription only, and agents will find that this book will sell readily when all others fail, from the fact that it is a work that the people really want. See the publishers' advertisement for agents in another column.
