RUSSIA.

Hark thee, Russia, was it only
That thy kindred might be free
From the Crescent's deep oppression?
Was it only charity?
Thou hast gathered 'neath thy banners,
Far and near, thy stalwart sons,
'Midst the wail of conquered thousands,
Swells the thunder of thy guns.
Was it only that thy brethren
Might be free to worship God,
That the scores on scores of corpses
Strew the earth, where thou hast trod?
Does the many thou hast slaughtered
But avenge Bulgaria's dead,
And sad Montenegro's martyrs,
That this sea of blood is shed?
Will the famished hordes of Plevna
Haunt thee! those brave heroes tell
Conquered starving, the grim story
Russia, thou shalt blush to tell.
Only may the state of heaven,
Hanging o'er that battle plain,
Tell the dismal, ghastly story
Of the still unbaried slain.
As the wild in their wanderings,
Sweeping o'er the restless sea,
Tell us of the famished women,
Homeless, age, and infancy;
Thro' the Balkans to Bosphorus,
On the mountains by the sea;
Floating on their sluggish pinions,
Clouds of vultures follow thee.
Was it not the grasping spirit
That struck Poland's sceptre down?
Not to win Constantinople
Ah a jewel for thy crown,
Ah! the many dark aggressions
Draped in robes of charity!
Ah! that true, unselfish friendship
Is an earthly rarity.
Only when the prophet's banners
Lowly trail, while hoarsely swell
From thy hosts their cheers of triumph
As they cross the Danube'les.
Only when the Sultan's millions
Kneel to thee—a motly throng—
Will be closed thy holy mission,
Will be seored thy churchmen's wrong.

UNEMPLOYED WORKINGMEN.

(*Globe.*)

The pressing question with many workingmen in our city at present is that of employment, which has nowhere been scarcer this last winter than in Ottawa. A large number, for the place, of industrious labouring men are yet idle, and likely to remain so for a considerable time if compelled to stay in this city, where the timber trade, saw mills and manufactures of various kinds furnished work for a much larger number of skilled and unskilled hands a few years ago. Ministers have frequently had occasion to express sympathy with these men, and the Premier has not been slow to offer them some assistance and good counsel. About a fortnight ago a meeting of the unemployed was held for the purpose of obtaining occupation here or elsewhere by means of Government action of some kind, free passages to Manitoba being a prominent feature of the scheme. Mr. Trow and other benevolent gentlemen appeared at the meeting, talked with the men—many of whom have large families to support—offered them good advice, and promised their interest any feasible scheme of relief. The Premier of the Dominion, when approached on the subject, stated that he could not take the responsibility of giving free passes, not to speak of subsequent aid, to men entering upon farming, and as the matter rested till to-day, when Mr. Trow brought it before Mr. Mowat, urging the poverty of the idle men, many of the industrious and well-behaved having families depending upon them, and therefore, in every sense, fit objects for liberal and systematic aid. He recommended the free carriage of a number of them to Muskoka or other free grant districts for the purpose of establishing one or more colonies, showing how beneficial this action would prove, not only to the individuals themselves, but to the public. Many would make good farmers who would be able ers long to repay any moneys spent upon or advanced them in their present straits. Some forty or fifty families to begin with are, as Mr. Trow informed the Ontario Premier, anxious to proceed to Muskoka without delay. This gentleman introduced their deputation to Mr. Mowat, who stated that he could not then see his way to granting their request, but he recognized the force of some of the reasons for it, and would consult his colleagues on the subject. The Dominion Government have stated that it is not their policy to remove citizens of Canada from one Province to another. It appears that these men ask, besides free passes, $50 for each family to carry it along till a crop be gathered in, or other means of support, and that a second colony of fifty families are anxious to go to Manitoba for settlement. Mr. Trow has done the best for these poor people, his efforts including an appeal to the Ottawa City Council for assistance of the colonization scheme and the opening of a subscription in which all are asked to take part.

The Anchorage of the British Fleet.

Mudania Bay, into which the ships of the Mediterranean Squadron, under the immediate command of Admiral Hornby, have retired from Prince's Islands, is situated on the Asiatic shore of the Sea of Marmora, thirty-five miles due south of Constantinople. The bay or gulf is about twenty miles long from west to east, and has an average width of from six to eight miles from north to south. But although capacious, the bay affords little shelter and bad anchorage for ships. The depth of water along its shores is great, there being from twenty to thirty fathoms close to the land. Westerly winds throw in a heavy swell, while northerly winds raise a short breaking sea. The mountain on the promontory which, jutting out into the Sea of Marmora, forms the northern coast of the bay rise to the height of over 1,000 feet; and when the wind is from the northward, furious puffs or gusts blow down the valleys of the range, rendering an anchorage along the north coast dangerous. The town of Mudania stands on the south shore of the bay, and is fifteen miles to the northwest of Brussa, of which, during the finer part of the year, it may be considered the port. It is built close to the water, and consists of about a thousand houses, inhabited principally by Turks and Greeks. The town is surrounded on the land side by high hills, the slopes of which are well cultivated, and planted for the most part with vines and olive trees. Gemlik, at Gumeblieh, off which is the only good anchorage in the bay, lies at the head of the gulf in a fertile and well cultivated valley, which produces large quantities of good wine and wheat. The town contains about nine hundred houses, and the population is almost entirely Greek. More than a hundred years ago the Turkish Government proposed to establish a ship building yard at Gemlik; and it is stated by Laurie that frigates of eighty guns were actually constructed there for the Turkish navy with timber obtained from the oak forests in the neighbourhood of Brussa, but the project failed, and at the present time no traces of any dockyard or building slips remain.—*Pall Mall Gazette.*

THE GENEVA AWARD.

HOW IT IS PROPOSED TO DISTRIBUTE THE BALANCE OF THE MONEY.

Washington, D. C., April 2.—The House Committee on Judiciary have agreed on a Bill for the payment of the unexpended balance of the Geneva award. It proposes to refer to the Court of Claims for adjudication the claims of those parties who are actual sufferers by Confederate cruisers, but without reference to any exclusion by the law of 1874, or the decision of the late Court of Commissioners of the Alabama Claims. The claims are to be determined under the Treaty and award, according to the principles of equity, justice and the law of nations. The above was agreed to by one majority. A minority of five members agree to pay—first, exculpated cruisers; second, extra interest of 2 per cent. on all previous judgments, and 10 per cent. additional to whalers in line of freight; and third, war premiums. It is not supposed by some members of the Committee that the Bill in its present shape can pass the House.

An Astonishing Fact.

A large proportion of the American people are to-day dying from the effects of Dyspepsia, or disordered liver. The results of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existance of enjoyment and usefulness, as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by Heath & Gun, or Henry Wade. And sold by all Druggists on the Western Continent.

SETTLERS IN MANITOBA.—The *Gazette* this morning says: "The summer rates of freight on the Grand Trunk Railway went into operation on the 1st instant. Through tickets for emigrants are issued from Montreal to Fisher's Landing which is about 300 miles from Winnipeg, by an all-rail route, the distance being some 2,000 miles. Household goods are carried at the rate of $1.75 per hundred pounds, car loads at $200, and live stock at $200 per car load per passage for one man. Special attention is being paid by the Grand Trunk Railway Company to the carriage of immigrants from Europe Quebec and Ontario, to the Northwest territories. River navigation is now open from Sarnia to Duluth, goods being carried from Montreal to Sarnia by the Grand Trunk from the Beatty line of steamers.

CONTROVERSY among the first-class hotels of New York shows that the service is constantly changing from one first-class hotel to the other, and the bills of fare show the same variety of dishes. The important fact, to travellers, is that the Grand Central offers the same accommodations for one and two dollars per day less than the others.

LIGHT, airy, and cheerful, centrally located, and carefully managed, the Colonnade Hotel offers unequalled inducements to Philadelphia visitors.

BE WISE.—Too often a cold or slight cough is considered a very ordinary, trifling affair, just as well left to go as it came, and hence systematically neglected until a simple curable affection is converted into a serious pulmonary disease. The more prudent, aware that a cough or cold should never be trifled with, promptly use Bryan's Pulmonic Wafers which have sustained their reputation for over 30 years. They are always efficacious, and exert a most beneficial influence on all the bronchial and pulmonary organs. Sold by all medicine dealers at 25c per box.

Cure Your Horses.—It is to the interest of all who own horses to keep them in a healthy and sound condition: experience has proved that Darley's Condition Powders and Arabian Heave Remedy is the most efficacious and has been used by thousands who will cheerfully confirm this statement. For heaves, coughs, colds and all diseases which affect the wind of horses it has no equal, nor is it equalled as a condition or regulating medicine; it purifies the blood, corrects and improves the appetite and softens the skin; in fact, so great is the improvement in the condition and appearance of the animal as to have led many to doubt if it could be the same horse. Remember the name and see that the signature of Hurd & Co. is on each package. Sold by all medicine dealers.

ELECTRICITY! THOMAS' ECLECTRIC OIL!—WORTH TEN TIMES ITS WEIGHT IN GOLD—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents worth has cured brick in the back, and the same quantity lame back of eight years standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most sceptical: J. Collard, of Sparta, Ont., writes, "Send me six dozen Dr. Thomas' Eclectric Oil, have sold all I had from you and want more now; its cures are truly wonderful. Wm. McGuire, of Franklin, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward 6 dozen Thomas Eclectric Oil. I am nearly out, nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes, "Send at once a further supply of Eclectric Oil. I have only one bottle left. I never saw anything sell so well and give such general satisfaction." S. Thompson, Woodford, writes, "Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reid, Riverton, P.Q., writes, "The Eclectric Oil is getting a great reputation here and is daily called for. Send us a further supply without delay." BEWARE OF IMITATIONS—Ask for Dr. Thomas' Eclectric Oil. See that the signature of S. N. Thomas is on the wrapper, and the names of Northrop & Lyman are blown on the bottle and TAKE NO OTHER. Sold by all medicine dealers. Price, 25 cents. NORTHROP & LYMAN, Toronto, Ont., proprietors for the Dominion.

NOTE—Eclectric—Selected and Electrized.
