Chills, Shakes, FEVER and AGUE.

H. R. Stevens;

Dear Sir—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by in forming you of the wonderful cure of my son, and also to let you know that Vegetine is the heat medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sack with measles in 1873, which left him with him joint disease. My son suffered a great dealer pain all of the time; the pain was so great he did all of the time: the pain was so great he nothing but cry. The doctors did not hhim a particle, he could not lift his foot fr

the floor, he could not move without crutches. I read your advertisement in the "Louisville Courier Journal" that Vegetine was a great benefit. He kept on with the medicine gradually gaining He has taken eighteen bottle sin all, and he is completely restored to health, walks without crutches or cane. He is twenty walks without crutches or case. He is twenty years of age. I have a young sen, fifteen years of age, who is subjected to chills. Whenever he feels one comming on, he comes in, takes a dose of Vogetine and that is the last of the chill. Vogetine leaves no had effects upon the system like most of the medicines recommended for Chills. I cheerfully recommend Vogetine for such complaints. I think it is the greatest medicine in the world.

Respectfully, MRS, J.W. LLOYD.

RETURNED HOME.

Mr. J. L. Morrison, President of the Kingston Street Railway Company, has returned home after his nearly three months' tour in England, Ireland, Scotland and France. He was at the great meeting in Hyde Park, London, at which the great riot occurred. He stood at the outskirts of the moving mass, and saw the movements but heard not a word that was said. It was at this meeting, called in the interest of peace, that the war party triumphed, that Bradlaugh was cudgelled and escaped in a cab, and other exciting scenes occurred. Tais event Mr. Merrison would not have missed for a good deal. He visited several places of amusement, and here the public feeling was indexed by the kind of programmes presented night after night. In every place the tocsin of war was sounded. In concert halls patriotic songs were very popular. At one place

particularly the the lines. "We've got the men, we've got the ships, And we've got the money, too," were loudly cheered and applauded. Mr. Morrison says he also visited Paris and the new exhibition buildings, which he believes to be much finer than those of the United States Centennial. He reports that the Canadians appear to be farther advanced than any others in the way of readiness for the opening. Altogether Mr. Morrison has enjoyed his trip very much, and seems to have been benefited in health as well as in other

respects by it. LAW FOR HENS. - The Gananoque Reporter has been looking into the law for hens. It says: There are two classes of people at this time of year very much interested in the law relating to hens. The acting Magistrate, is almost daily asked by one class, "Have people a right to keep hens to scratch up other people's gardens?" And by the other class, "Have people a right to kill other people's hens?" The reply to both queries is, that there is no special law concerning hens; if a garden is damaged by hens, the owner of the hens is liable for the damage; and if a man kills another man's hens, he will be liable for damage, to the value the fowls killed. Going to law in this matter leads to two suits, and the owner of the fowls will be likely to get the worst of it. So the Magistrate's advice is, keep the fewls at home !

HOME AGAIN. - The Beaver says Mr. McCoppell, of Clarksville, has recovered the horse stolen from his stable on Tuesday night of last week. On the bration of the coming "Twelfth July," a evening of the day after it was stolen, it came into the premises of Mr. Perry Williams, from towards Kingston, reeking with sweat. Upon the animal were strapped two horse blankets and a table sary Kay. Accordingly a petition was spread. It is supposed that the thief, for the better concealment of his booty, had tied it to a tree in the woods and blanketed it to protect it properly, and that the pony, becoming restless, broke his tether and came bemeward.
