Presidential possibility.

Ever and anon our Conservative contemporaries relieve the cunui of Opposition leisure by counting over the number of changes that have occurred in the present Cabinet. In reply it has frequently been pointed out that changes in the Cabinet were quite as much a characteristic of the last Tory Government. The Mail of Thursday, in its English news column, furnishes an even more distinguished precedent for Cabinet changes, no fewer than fourteen being specified as resulting from the retirement of Lords Derby and Carnaryon from the British Ministry-We suppose Canadian Tory organs will hardly venture to say that this extensive remodelling of the Imperial Cabinet is an indication of weakness or of its impending dissolution, since the British Government at this moment is almost omnipotently strong. Let our Tory confreres, therefore, cease to say that Canadian Cabinet changes portend the doom of the present Government. No changes have taken place except in the public interest. The Cabinet is as strong as ever in the public confidence, as the ensuing elections will be sure to show.

of success on an ardently wished for give us a gross loss sustained was not the regular candidate of the Liin his lot with the Tory party. This, much principle to think of doing. Though not elected by the straight vote of his own party, he has loyally supported the present Liberal Ministry throughout the whole term of the present Parliament. Under these circumstances the Liberal convention at Ingersoll has done the right thing in acknowledging the Colonel's services by tendering him the candidature of the party. Mr. Noxon, an extensive manufacturer of the County seems to have been the rival candidate, and he has retired in Col. Skinner's fayour. Thus the hopes of the South Oxford Tories came to grief. At the same convention Hon. Adam Crooks was ten-House.

SELECTION OF CANDIDATES. Col. Gzowski's name is being mentioned as a probable candidate for parliamentary honours in West Toronto. An effort is being made by those interested in his eandidature to make it appear that the gallant Colonel's party colours are of neutral tint, or, at least, that this a mat ter of secondary consequence, and that he should be supported by men of al! parties in consideration of the public spirit which he has displayed in all matters affecting the interests of Toronto. Doubtless Col. Gzowski in railway, municipal, musicaj and military matters has established very strong claims to the gratitude of the people of Toronto. In political matters, however, it will be found that, once elected, no matter how neutral may be the protestations either of himself or o those who are bringing him forward, he will be a straight supporter of a Tory Government should he be returned to parliament. Although public services should be gratefully recognized, yet men should be sent to Parliament, not so much for what they have done in other spheres as for what they are reasonably expected to do when they get there. the people of West Toronto, or any other place, think the public interest will be best subserved by the establishment of Tory Government, the true way, or course, to give effect to this opinion is to send Tories to Parliament, and in such a case - other things being equal - the man who has done the most for his country and locality is entitled to the preference from his party. On this principle the gentleman above named would make a very eligible Tory nominee. To smuggle a man into Parliament, however, on the entirely different ground of giving him much merit and desert, is hardly the propositions. the true theory of Parliamentary selection in times like these. A REVERTIBLE ARCUMENT.

A western Tory journal has been engaged in bringing home a most damaging charge against the Government. We refer to it for the purpose of showing the facility with which an ordinarily ingenious Opposition journal can manufacture grievances against a Liberal Administration. The Government has indeed been An American exchange thinks Blaine too "liberal," as the organ proceeds to show. Here is the argument in its own

What surprises us immoderately, how ever, is the moderation of the organ's estimate, not of the value individually upon the wayward immigrants, for we admit \$1,000 per head to be quite s sufficiently liberal valuation, but we suggest that be must surely have underestimated the number who have escaped Canadian vigilance and are now at safe laughing distance beyond the limits Surely the number given, 310, is ridiculously low. Why not have rounded the figures up to respectable proportions and then the sum total at \$1,000 each would have made a financial bomb shell well worth firing into the camp of the Government. It will show our Western friend what we mean by an illustration drawn from the region, not of mere fancy but of actual fact. It is a fact, that during Sir John's tenure of office the number of 400,000 Canadians left their native land to add to "the wealth and strength and power of the adjoining country,

To compass this desirable consummation each bar is to be furnished by Government with a punch somewhat tors, every drink sold over the bar is to each glass consumed and thus checked ordinary municipal expenses of the city. It is argued in favour of this curious measure that its successful operation would vastly and speedily discourage the centagious habits of bar tippling and treating, and that, until this desirable result was reached, the frequenters of these places would largely relieve their sober fellow citizens of the burdens of civic Government. On the other side it is contended, even by the friends of restriction, that' the whole thing even if tried, would prove ridiculously impracticable, that the har-tending frater nity would be sure to forget the injuncto "punch with care-to punch in the presence of the passengaire," that a thouand means could be devised to evade compliance with the last, and to render it perfectly imperative. There can be little doubt that a coach and four could easily be driven through such an "Act of Congress," but there is precious little likelihood of its ever being dignified by such a title. A Lunatic Commits Suicide.

(By Telegraph To-day.) Cernwall, April 27 .- A man named Donald H. MacLennan committed suicide by hanging himself in his cell in the jail here during the night. The unfortunate man was of a very respectable Glengarry family and was confined on account of insanity. The authorities were in daily anticipation of receiving an order for his removal to an Asylum. The deceased dreaded this very much, and no doubt a merbid dread of it was the cause which moved him to suicide.

Surely the volunteering. high toned gentleman's party, as they delight to call themselves, are not depending upon the charity of the county. The public should not allow their courts of law to be used in this way. The address of the gentleman nominated as the Tory candidate is only a rehash of the utterances of Plumb and others. He charged the present government with reckless extravagance. By comparing the expenses of the two governments he presented to his hearers a great array of figures, which it would puzzle himself to explain. He should have shown the items that had caused the difference. One of them would have been the repairing of the Government works around Kingston, which the Chieftain's Government had allowed to go to ruin. The expenditure

of the said money had been benefit to his constituents. He might also have mentioned the erection of the college and also of the money required to keep the establishment. He might also displayed by the reserves by the very have mentioned the increased extendia satisfactory manner in which they resture, caused by the silly and long debates of his friends in the House at Ottawa. The Recent Papal Encyclical

The hopes of Italy and the world rest upon the beneficent influence of the Holy See, and on the intimate union of all the faithful with the Roman Pontiff. It therefore stands to resson that we should with all diligence do all in our rower to preserve intact the dignity of the Roman Cathedra, in order before all things to guard the rights and liberty of the Holy See. We shall never cease to insist that our authority be respected. that our ministry and our power be left fully free and independent, and that the position be restored to us in which Divine wisdom long ago placed us. It is no vain desire of dominion which moves us to demand the re-establishment of our civil power. We demand it because our duties and solemn oaths exact it, and because it is not only necessary to conserve tully the liberty of spiritual power, but also because it is evident that when it is a question of the temporal dominion of the Apostolic See, it involves the wellbeing and safety of the whole human fa-

EPPS 8 COCOA - GRATEFUL AND COMFORTING

-"By a thorough knowledge of the natural

laws which govern the operations of digestion

and nutrition, and by a careful application or

the fine properties of well selected Cocoa, Mr.

Epps has provided our breakfast tables with

a delicately flavoured beverage which may save

us many heavy doctors' bills. It is by the ju

dicious use of such articles of diet that a consti

tution may be gradually built up until strong

nough to resist every tendency to disease

around us ready to attack wherever there is a

weak point. We may escape many a fatal

pure blood and a properly nourished frame."-
