WEDNESDAY EV'NG, MAY 1, 1878. A PHYSICIAN'S TESTIMONY

30 Years a Physician. 12 Years a Sufferer. Tried Regular Remedies. Tried Patent Medicines, Permanently cured by

SANFORD'S RADICAL CURE. MESSES. WEEKS & POTTER, — Sirs; I have practised medicine for thirty years, and have been a sufferer myself for twelve years with Catarrh in the pasal passages, fauces and laryng. I have used everything in the materia medical without any permanent relief, until finally I was induced to try a patent medicine (something that we allopathists are very both to do). I tried —— and divers others until I got hold of yours. I followed the directions to the letter, and am happy to say have had a permanent cure. Your RADICAL CURE is certainly a happy combination for the cure of that most unpleasant and dangerous of diseases.

Yours, respectfully,
D. W. GRAY, M. D.,
Of Dr. D. W. Gray & Son, Physicians and
Druggists, Muscatine, Iowa.
Muscature, Iowa, March 27, 1877.

The value of this remedy must not be overlooked in the cure of those

SYMPATHETIC DISEASES Affections of the Eye, Ear. Throat, Lungs and Bronchial Tubes which in many cases accompany a severe case of Catarrh. The inflamed and diseased condition of the mucous membrane is the cause of all these troubles; and until the system has been brought properly under the inflaence of the RADICAL CURE, perfect freedom from them cannot be measurably expected. cannot be reasonably expected.

It is but three years since SANFORD'S RADICAL CURE was placed before the public, but in
that short time it has found its way from Maine to
California, and is everywhere acknowledged by druggists and physicians to be the most successful preparation for the thorough treatment of Catarrh ever compounded. The fact will be deemed of more importance when it is coupled with the statement that within five years over 250 different remedies for Catarrh have been placed on sale, and to-day, with one or two exceptions, their names cannot be recalled by the best-informed druggist. Advertising may succeed in forcing a few sales, but, unless the remedy possess undoubted specific medical properties, it is absolutely certain to fall into merited obscurity.

Each package of SANFORD'S RADICAL CURE contains Dr. Banford's Improved Inhaling Tube, with full directions for its use in all cases. Price \$1.00. (Mining Journal) SIR, -Owing to a protracted absence frem town and a rress of business I am My chief motive in drawing the attention of the British public to mining in Newfoundland is the hope of enabling my country to emerge from the mists and haze that have for so long a time surrounded her, and show to the world that in this long neglected colony a field exists for the prefitable employment of millions Few of our readers are, perhaps, aware that in this country, with an extent of territory about equal to that of England, Miss Marris was a solicitor, practicing in there is not a house, a farm, a mining the neighborhood. country. The two companies located in Southwest Arm have displayed during the past season a lack of energy most aurprising, considering the prospects they have for developing paying mines. True it is one of the companies last year sunk three shafts, one of them to the depth of ten fathoms, which yielded them about 80 tons of 10 per cent, ore. At this depth they had a seam of pure of ore 3 feet 3 inches wide, with several smaller veins of from one to three inches in width throughout the shaft. The only reason that can be assigned for this inac-tivity is the rumour that one of the com-panies, or perhaps both, are in treaty with parties in Swansea for the working of the mines on a royalty. It is to be hoped that some arrangements will soon be made, so that this valuable district will also resound with the busy thud of the miner's hammer. My letter has already assumed too lengthy dimensions to proceed further with notes on Mining in Newfoundlaud, so I will for the present conclude by stating that our legislature in on the eve of opening its annual session, when I trust some healthy legislation will have the attention of our law makers, resulting in some lasting good to our "Island Home."

St. John's, Newfoundland, Feb. 5. BREACH OF PROMISE.

WOMAN SURD BY A MAN-A REMARK-ABLE CONTRACT.

According to the London News the latest

case in England of breach of promise of

marrage, that of Heap against Marris, does not add much glory to a sort of action which, if a bill now pending in the House of Commons becomes a law, is doomed soon to disappear. In this affair the ordinary relations of the parties were reversed, it was the man who sued the woman for her breach of contract. There could be no sort of doubt as to the fact of the contract. An agreement was signed by the parties whereby the defendent agreed to become the lawful wife of the plaintiff on or about the first of January 1876. In default the defendent was to pay a third share of the property which might be left to her under the will of her parents. She was to pay more than this if she did not espouse her business-like weer.
