of Governor Letellier. By their course on the resolution which led to the famous all-night session, the Dominion Tories made the Quebec quarrel their own and virtually linked their fortunes with their co-partizans in Quebec. Astounded at 1 finding their party routed in the recent, election, the organs are now very industriously endeavouring to make it appear that the event in question had not the slightest connection with and can have no influence whatever on Dominion politics. Had the Tories won in the Quebec, campaign the result would have been heralded from Dan to Beersheba as proof demonstrative of the Conservative reaction, and unhesitatingly declared to have had a Dominion significance. The handwriting, of which we have heard so much but which none but Tory visionaries phered on the wall, sealing the doon of the Dominion Covernment, and Mr. Machis fate. As it has turned out, however, the whole affair is of no consequence, and cannot possibly affect the Dominion elections. Truly such shuffling is a pretty cool piece of presumption upon the anquestioning credulity of public opinion. It is conduct, however, which will only result in exciting the public ridicule and contempt

..... A SELF-CONFESSED BETRAYER.

The local organ of the Toronto Knight wishes to convey the impression that Sir John Macdonald did do something towards getting the seat of Government facts by the people. They have all too good or at least too much reason to remember their member's apathy and perfidy in this to them important matter. Who doubts but that if John A. had done his duty by his constituency upon this point, that to-day Kingston would have been, as Lord Dufferin declared it should have been, the Capital of the whole Dominion! The Kingston Dady News affects to doubt this fact. Well, although the people of Kingston have precious little reason to attach much importance to the utterances of the Chieftain, yet his word, we dare say, passes current as yet with our confiding contemporary. If anything will be convincing in that quarter, it will surely be the word | again shortly. of "Sir John."
