VEGETINE

## FOR DROPSY.

I never shall forget the first dose I took

MR. H. R. STEVENS :-Dear Sir, -I have been a great sufferer from dropsy. I was confined to my house more than year. Six months of the time I was entire inches larger than my natural size around my waist. I suffered all a man could and live. I tried all remedies for Dropsy. I had three different doctors. My friends all expected l would die many nights I was expected to die before morning. At last Vegetine was sent me by a friend I never shall forget the fir t dose. I could realize its good effects from day to day ; I was getting b tter. After I had taken some 5 or 6 bottles I could sleep quite well nights. I began to gain now quite fast. After taking some 10 bottles, I could walk from one part of my room to the other. My appetite was good; the dropsy at this time disappeared. I kept taking the Vegetine until I regained my usual health. I heard of a great many cures by using Vegetine after I got out and was able to attend to my work am a carpenter and builder. I will also say it has cured an auut of my wife's of Neuralgia, who had suffered for more than '0 years. She says she has not had any neuralgia for eight large. months. I have given it to one of my children for tanker Bonner. I have no doubt in my u.in lit will cure any humor; it is a great cleanser of the blood; it is safe to give a child. I will recommend it to the world. My father is 80 years old, and he says there is nothing like it to give strength and life to an aged

person. I cannot be too thankful for the use Very gratefully yours, JOHN 8 NOTTAGE ALL DISEASES OF THE BLOOD -If VEGE-TIME will relieve pain : cleanse, purify, and cure such diseases, restoring the patient to perfect health after trying different phy sicians, many remedies and suffering for years, is it not conclusive proof. if you are a sufferer, you can be cored ! Why is this toed! eine performing such great cures? It works in the blood, in the circulating fluid. It can truly be called the Great Blood Purifier. The great source of disease or giuates to the blood; and no medicine that does not not directly upon it to parify and renovate, has any just claim upon public attention.

## I Owe my Mealth to Your Valuable

Newport, Ky., Apr. 29, 1877. MR. H. R. STEVENS :-Dear Sir,-Having suffered from a break-

ing out of Cankerous Sores for more than five years, caused by an accident of a fractured bone, which fracture ran into a running sore. and having used every thing I could think of and nothing helped me, until I had taken six ottles of your valuable medicine which Mr. Miller the apothecary recommended very highly. The sixth bottle cured me, and all can say, is that I owe my health to your vai to prosper. nable Vegetine. Your most obedient servant.

ALBERT VON ROEDER. "It is unnecessary for me to enumerate the diseases for which the Vegetine should be used. I know of no disease which will not admit of its use, with good results. Almost innumerable complaints are caused by poison ecretions in the blood, which can be entirely expelled from the system by the use of the VEGETIES. When the blood is perfectly eleansed, the disease rapidly yields; all pains cease; healthy action is promptly restored, and the patient cured.

#### Garden Island.

From private communications we learn that the barque "Garden Island," now loading at Montreal, has proved to be one of the finest ships which sails the ocean. Although often exposed to heavy winter gales on the Atlantic, where both hull and rigging have been tested to the ut most, she never failed in nobly pressing ouward through the contending elements not exhibiting the least indication feebleness in any part. As a fast sailer ren of Montreal in the coming emergen lished by T. J. Griffiths, of Utica, N.Y. cannot be given. The owners of the them. vessel may te congratulated on being so fortunate as to have secured the services of a thorough, competent seaman as master, who, no doubt, will show a furt's er good record of many other voyages.

#### Rowing Matches.

The Mail's special correspondent tele graphs; A challenge has, it is understood been sent to Alexander Elliot of Torontos who rowed in the recent regatta at Brockville, to test his skill over a four mile course with Delos Hinckley, of Wolfe Island, the local champion, at an early day for \$200 a side. Hinckley, who it will be remembered took a few lessons from Hanlan at the Island a month or so ago, is a strong man, thirty-six years of age, and, considering he was so recent ly initiated into the mysteries of navigat ing a shell, he rows in capital style Staying, however, is his great forte. No amount of work seems to tire him. When in Toronto he purchased a shell built nine years ago by Bob Rennardson, and which at different times has carried Bob Berry Mr. Scholes, and others in practice, and in racing. There was also some talk at Cape Vincent of a match for \$500 a side between William McKen and M. F Davis of Portland, Me., but nothing de finite has yet been decided upon.

## Unwholesome Neighbours.

On Friday night last a family living i an uptown ward, upon a street with a classical name, received a trio of gentle men (?) visitors. The latter were flush of funds, and finally one induced the others to go out in quest of liquor. On the return of the liquor hunters they did not seem pleased with the attention which the | the 12th of July to preserve the peace. possessed them, and they caused a row which annoved the neighbourhood. Dethings, but even he failed to overcome the mixture which affairs had got into and finally he ordered all parties to look fective service if called upon. around for some other locality in which to spread themselves. Those are the cire cumstances which, on Saturday, by the

assistance of the gossips, were magnified into a murder. All's well that ends well, SUDDEN DEATH . - On Saturday an old woman, named Mrs. O'Rourke, was found dead, at her home, head of Johnson Street. She had long been a widow. and lived with her son and cared for his little children since the death of his wife. Drink sent him to gaol several days ago. and the women and children were left in straightened circumstances. On Satur day morning some kind people residing near the old lady, carried food to her, but on reaching the house could not get get in. A little girl led the way, how ever, and when an entrance was gained the poor creature was found seated against the wall dead. A coroner was summoned but he did not think an inquest was necessary, death having occurred naturally though suddenly, and under the most lamentable circumstances.

THE ORANGEMEN. -On the first page of this issue will be found an article from the Witness detailing what the Grangemen of Montreal propose doing on July 12th. They propose not only to work, but to test the constitutional right of Mayor Beaudry to issue the proclamation which he has done, if it is intended to effect them. Altogether a crisis seems to be at hand We hope the statement of later day prophets may not be fealized.

VESSEL PROPERTY. - A man in search of vessel property can purchase very cheaply. Not only in this harbour can bargains be obtained, but in the west, where men, who are not seamen, are very anxious to dispose of the craft, of which they are possessed, at any price. THEIR COURSE.

The Kingston Orangemen go to Montreal. Such was the result of the meet ing held on Saturday evening -the meet ing of the District Lodge, which is composed of delegates representing the various lodges within certain limits. The District Master occupied the chair, and we are informed that the feeling of those present was pretty unanimous, and that the views of the Conference, as given, were unanimously expressed. The lodge did not continue long in session. A great many had collected outside the door, auxiously awaiting the announcement of what had been done in the meeting, and once the information was imparted travelled quickly, and during yesterday had become generally known over the

#### THOSE STEEL RAILS.

The Guzette pokes fun at the News upon became whispered around, that one of the contracting firm of Cooper, Fairman & Co., was closely related to the proprietor of the Point, the whole thing became clear as mud. The intention was to make this place the Canadian terminus of the Pacific Railway, three tubular bridges be. tween Howe Island, Wolfe Island and Clayton were to connect with the Rome and Watertown and Unca and Black River Railways, and the imports from India, China and Japan would be there transhipped. You cannot look at a bit of swamp within five miles of the Point, under \$4,000 an acre, and every young man in the neighbouring townships . in love to the danghters of the fortunate farmer who lives in that favored vicinity.

The rails are to be seen from the decks f passing steamers and excite no little curiosity. The steamer Pierrepout stopat the Point on Saturday evening with its large weekly excurs on party, and they saw a mass of old fashioned in rails which a presumably respectable farmer of supposed brains and a n. wspsper of some pretence to honesty essayed to palm off as a steel rails scandal against Mr. Mackenzie. The iron, which was sold by the G. W. Railway Company for about \$6 per ton, is being shipped upon a barge for delivery at Montreal.
