Who wouldn't be a Princel There more than a name in it in England. Fift, thousand a year is not so slow an allow sace on which to practice the mysterie of domestic economy. No outlay, either for life insurance, since, in the event a prior departure of the lord and master. an annuity of thirty thousand is sattled upon the surviving better half. It must go far to lighten the anxieties of mar ried life thus to have all its substantial contingencies provided for. The Britis Parliament, in rejecting Dilke's adverse motion, was just ten to one in favour the endowment of the Duke of Con naught and his fair young Prussian bride. Canadians who remember the visit Prince Arthur to this country will wish him all possible happiness, and a long They will do this none the les readily because the British taxpayer has to foot the bill of maintenance.

What utter rubbish it is to talk Cartwright and his friends, because they very properly treat with contempt the operations of the Wandering Refugee in the County of Lennox. It would be a degradation to any public man, in either political party, to accept a challenge and to measure swords in the public arena with that "abandoned man" known as W. Macdougall. He has repeatedly box ed the political compass. He has de nounced as treasonable, imbecile and incapable, the very men he is now supporting; he has in fact alternately condemned the leaders of both parties; and Yet, fursooth, he presumes to be the people's guide to good government! The only proper treatment of such a political nondescript, is to let him severely alone; and it is much to Hon. Mr. Cartwright's credit that he resolved to adopt this

Under the pressure of necessity. however, he has now and again been in manner compelled to abandon his glitter ing generalities and to actually give some fitful indication of the extent to which he intended to protect the "interests" and to tax the people. But no two announcements have been alike. At one time, as for example at the Cobourg demonstration of last year, an increase of 24 per cent. was declared sufficient, and from this slight advance with the facility of reckless purchaser at an auction sale he has been bidding for popular support all the way up to a retaliatory tariff-any price for the prize of power! His latest bid is intended, no doubt, to be a happy mean between the two extremes. He has for the present placed his tariff at 35 per cent. for all comers. This is precisely a doubling of the taxation now imposed upon the country. His opponents must make haste to fight him on this line or they will find he has deserted it and struck out another. Let not the monopolists imagine that because Sir John has named a tigure, he is likely to stick to it. In this matter, again, we say he is all things by turns and nothing long. DEAR SIR .- In your columns, some weeks since, an account was given of an exhibition held in School Section No. 2. at which Mr. Chas. Ferris, one of the Trustees of the above School expressed himself highly pleased with the manner in which the pupils acquitted themselves, and showed his interest in the School by offering two prizes for general efficiency. one to senior and one to junior classes. The merits of the pupils have been tested by a thorough examination, the junior pupil at the school and the senior in Kingston, where they appeared as candidates for entrance to the Collegiate Institute, and the result shows the successful candidates for the prizes to be Miss Lizzie Gould, in the junior class, and Mr. George Gould in the sector. for competition in schools is good, and the pupils desire to thank Mr. Ferris through your column, for the interest shewn by him in their behalf.

Dominion Premier and Harbor Commissioners, Aldermen of the city, Mayor and members of the Press, etc., to the number of about one hundred persons, on a tour of inspection of the river channel, was very pleasant. The object was to consider the deepening of the channel between Cape Charles and Cape Larocke to 22 feet at low water and 25 feet at high tide. The Mayor did not feel very happy in board. The party returned about 10 o'clock last night. Premier Joly came up the river to the city with the party, but immediately set out on his WANTED

It is reported that the City Band has
