

A. & S. NORDHEIMER'S MUSIC STORE. WE REG TO INFORM THE PUBLIC OF Kingston and the surrounding country that we have opened.

In the Golden Lion Block. Where we will keep an assortment of MUSIC, BOOKS, GAMES, &c. MUSICAL MERCHANDISE. Also.

PIANO-FORTES, especially those of the famous manufacturers: Metinway, Chickering, Dunham and Haines.

ORGANS of different makes, but especially those of GIBB, A. PHIBBS & CO., which are acknowledged first among the better makers.

A. & S. NORDHEIMER, OF TORONTO. Branches at Ottawa, Hamilton, St. Catharines and London. A. & S. N. 1878.

VEGETINE I will Try Vegetine. HE DID, AND WAS CURED.

DELAWARE, O. Feb. 16, 1877. Dear Sir, I wish to give you my testimony that I have been cured of my blood disease by using Vegetine.

VEGETINE Is Better than any Medicine. Henderson, Ky. Dec. 1877. I have used H. R. Stevens' Vegetine, and like it better than any medicine I have used for curing the blood.

VEGETINE Recommended by M.D's. Dear Sir, I have sold Vegetine for a long time and find it gives most excellent satisfaction.

VEGETINE Prepared by H. R. STEVENS, Boston, MASS. And by N. C. POLSON & CO., Druggists, Kingston.

Springless Truss and Supporters. G. W. HOTCHKIN will visit the following places: NAPANE—Campbell House, August 11th and 12th.

NOTICE. The conscientious Physician. He is entirely void of selfishness and prejudice and is a conscientious physician.

WATER. A. L. HERBERT'S mineral water should get the Well-to-do a good chance. Any information respecting it will be given on application.

The Daily British Whig. WEDNESDAY EVENING, AUG. 14, 1878. CITY AND VICINITY. GOLD in New York at 3 o'clock 100 1/2.

PROBABILITIES.—Fresh authority to southwesterly winds, clear to partly cloudy weather, with thunder storms in some localities.

THREE PASSED.—We notice that three of the St. John's High School pupils have secured second class certificates, but not knowing whom the numbers represent we cannot give the names.

IN MEMORIAM.—Yesterday, after a brief illness, Patience, fourth daughter of Mr. Joseph Dix, of Garden Island, passed from earth.

A LITTLE ADVICE.—Brockville Recorder: "If he (Sir John) has any personal influence left, we advise him to remain in the Legislature City until about the first of October, if he wishes to have a seat at the Council Board of the Dominion."

POLICE.—Margaret Oakley and P. Farrell, drunk, were detained. The case of George W. McDonald was set off. Edward Quigley was summoned for abusing Mrs. McMaster, but the case was dismissed, Edward paying the costs and making an apology.

BAND CONCERT.—The band of "A" Battery played with the usual acceptability in the City Park last evening. The small boys were as annoying as usual.

SHARLOT LAKE.—The hotel at Sharlot Lake is full, and the visitors appear to be enjoying themselves hugely. The bathing is grand, and the lake affords first class sport.

TORONTO REGATTA.—The Hamilton Club has decided that the champion shall not row in the Hamilton Regatta on the 21st. If a match between him and Courtney is not speedily arranged the Club will get up a race on Toronto Bay early next month for such a prize as to induce English rowers and Tackett, of Australia, to enter.

GRAND TRUCK EXCURSION.—A monster excursion is being arranged to take place on the Grand Truck on the 26th. Excursions from Toronto and way stations to Montreal and back will be issued at one rate, and will hold good for ten days, and the passenger has the option of going down by the Royal Mail steamer and return by rail.

OUR GREETINGS.—Yesterday Rev. W. Jackson, assisted by the brother of the groom, united in marriage, Rev. A. B. Chambers, of Morven, with Miss Elizabeth J. Baker, of Kingston. The young couple have the hearty congratulations of a large circle of friends in Kingston whose wishes for their future happiness are both numerous and ardent.

CAMPING OUT.—The Syracuse 51st Regiment, which has been recently camping on Round Island, has returned home, the drill and the pleasure combined being such as all enjoyed. The "departure" is one which commends itself to our military authorities and Government. The School of Gunnery should try an island when the members thereof go camping out.

THE YOUNG DUKE.—Henderson adds to our collection of the stories issued by the Harper Bros., and known as "The Franklin Square Library." The last edition bears the name of "The Young Duke," a moral tale though gay, written some years ago by Benjamin Disraeli, now Earl Beaconsfield. It is a good work, possessing many pleasing features and prominent points.

THE VOTERS' LIST.—The gain by the late revision of the Voters' List has been fifty for the Reformers, and the latter have no desire to falsify the record. The old women of the Tory party and the "maulroom politician" who acted as their counsel, need not deceive themselves about this result; it is there in black and white, and to them it is an unpleasant thing to gaze upon.

THE NATIONAL POLICY.—Two param. bulking politicians are announced to speak at a meeting in Belleville on Friday evening on the National Policy, and singular to relate, it is stated to be under the auspices of the workingmen. This, of course, a dodge to catch the votes of the labouring classes. The workingmen have as much to do with the National Policy as we have to do with the government of Turkey.

THE TOURNAMENT.—By eight persons Captain Horsey was promised a sum \$100 for the women's tournament, while another gentleman enclosed \$5, and indicated that he would give more if need be, and Mr. Wilson gave the use of the Driving Park for two days, free. Thus encouraged the affair will assuredly be a success. Capt. Horsey expects the tournament to be self-sustaining, in which event he will return donations to the citizens.

THE PUBLIC PARK.—Latterly it was announced by the Committee that the City Park would be open to those who desired to drive around it on occasions of concerts by the band of "A" Battery, and at other times. Last evening several persons were refused admittance by the captain, while others pushed the old man aside and forced their way in. Now the citizens don't want to be humbugged. There appears to be some antagonism between the Committee and the caretaker, and one of the other must be acting in an irregular manner. Which is which? Let the public know at the earliest possible moment.

WIND WAFTS.—Steam yachts from the Islands and Alexandria Bay, arrive here daily. The laying of the corner stone of the M.E. Church takes place to-morrow.

DETECTIVE'S WORK.—A RECENT INCIDENT.—Detective O'Neil has returned to Ottawa. He was here for some days engaged in working up the case of the "steamer yacht" and if he has not been successful it must be attributed to the delay which occurred before he commenced his investigations. We really cannot say what he was the means of discovering. We made an appointment with him for last evening, in order to prepare and publish a narrative of the case, but he was called to the capital, and the information which we were in pursuit of the men who recently escaped from the King's police more than once, but failed in his mission. On one occasion—last Tuesday—Detective O'Neil and Macaulay and a couple of other officers went out on the road beyond Odessa to watch for the offenders. While there they saw a beggy approaching. The detectives stretched a rope across the highway, for the purpose of stopping the vehicle, but the driver, as he neared them and apprehended their motives, whipped up his horse, and succeeded in dodging arrest. Macaulay made a bold dash, and sought to catch the horse's bridle, but missed, and narrowly escaped being run over. The officers saw only one person in the buggy, but when it reached Odessa it had two occupants. One of these, it is supposed, was Kelly the butcher, in whose house the counterfeit money was found, and who is supposed to have hidden under the seat of the carriage when it passed the officers. Singular to say, also, when the same rig reached Catorago the horse was fed. While thus engaged a wagon was heard coming towards them, and the men jumped the fence and remained behind it until the latter passed by. Two references are drawn—either that the men were the counterfeiters, or the thieves who stole the horse from Brighton. Which were they? Since so much has now been written about the counterfeit case we are sorry that we did not see O'Neil to learn the last of the matter.

THE NEWBURY REPORTER man wants us to look at a blackberry bush. What for? Not to see the fruit upon it surely! That would be too much to expect when he of the Reporter has been teasing his fished stomach upon the same bush.

OUR CONSISTENT FRIEND.—The Belleville Ontario very truthfully remarks: "The Kingston News wants to be consistent. Some time ago it predicted the election of Mr. Cartwright in Lennox by a large majority, but as this opinion does not tally with what its political confederates are saying, the News is trying to work round some way without injuring its consistency. Just how to do this is the question that bothers the News. But, if Mr. Cartwright is elected it will be with a greatly reduced majority, says the News, and then, adds—"What a falling off will that be for the hero of the 'double-sided shield'! Indeed! Sir John Macdonald, the Tory idol, "Canada's greatest statesman," and "the most popular man in the country" has had his majority reduced in Kingston, where the News exercises its powerful influence, from 500 to 17! What a falling off is that for the hero of the Pacific scandal!"

SOLDIERS' REVISION.—On Monday the Veterans' Reunion took place at Thorntons Island Park. The Watertown Times says the veterans began to arrive at 11 a.m., and continued to arrive until there were about 800 there. Four bands were there: the Watertown City Band of 15 members; the Carthage Cornet Band of 12; Martinsburgh Band of 12; Adams Band of 12, making 52 in all. Between 500 and 600 people were fed on Sunday noon, and Monday between 700 and 800. The amount of food consumed was simply enormous, and was made up of the following: 116 pounds beef and veal, 12 quarters of lamb, 150 pounds of fish, 100 loaves of bread, 55 pies, 5 large puddings, one-half tub of butter, 30 gallons milk, 3 barrels flour, 22 cans sweet corn, 2 crates tomatoes, 1 barrel potatoes, 160 gallons tea.

HARPER'S MAGAZINE.—Harper's Magazine for September, with the two serial stories by Black and Hardy, three short stories by Mrs. E. W. Latimer, Rebecca Harding Davis, and Rose Terry Cooke; a dramatic sketch by T. B. Aldrich, with three admirable illustrations by Abbey; a humorous sketch by Charles D. Dozier, entitled "Ab'm: A Glimpse of Modern Dixie," illustrated by Fyle; an illustrated poem, of pathetic interest, "The Foreclosure of the Mortgage," by Mrs. E. T. Corbett; other poems by Ruth Dana and Harriet Preston Spford; several illustrated articles, covering a variety of subjects; timely articles of great and immediate interest to all readers, and the five admirably sustained editorial departments, makes it an exceedingly rich and entertaining number.

WATERTOWN ODDFELLOWS visit here to-morrow evening about 5 o'clock. They are to be received by the local lodges—Catarago and Kingston—and in the evening they are to be entertained at the Albion Hotel. The Order will thus fraternize in a most agreeable manner. The High de Payan Preceptory will have on hand the entertainment of the Knights Templar of Auburn. They will take care en route to the Camp ground. The stay here will be long enough to permit of a parade through the city, headed by a band, and afterwards the Military College will be visited by the Templars and their wives and friends.

BEHIND THE ABOVE the Salem Commandery will visit the city briefly, also a party from Prescott. Altogether we shall have quite an influx of strangers with whom to mingle.

M. T. Co.—The sch. F. D. Barker arrived from Chicago with 18,700 bush corn; stambridge Clinton, 10,000 bush wheat. The departures were, tug (slide and barges Toledo, 22,300 bush corn and wheat; Alexandria, 18,000 bush corn; Oswego, 627 tons coal; Caruga, 539 tons.

SWIFT'S STEAMERS passing—Spartan from Montreal; Corinthian from Hamilton; port Armenia, from Toronto; Ruby from Prescott; Persia from St. Catharines; and Granite State from Ogdensburg.

TESTIMONIAL.—The Newbury Reporter says: Last week a number of the friends and admirers of the Rev. Father McCann, (brother of the Rev. A. McCann, of Newburgh), waited upon him at St. Michael's, Whiteby, and presented him with an address, executed in lithographic style, by one of the nuns of Loretto Abbey, and a well-filled purse. The reverend gentleman expressed his most grateful thanks for the handsome donation.

HORSE THEIVING.—The police have received a circular, informing them of the theft of a horse from Brighton on the 2nd of August. The lapse of time between the larceny and the issue of the circular was sufficient to enable the thief to make good his escape. Detective Macaulay thinks the stolen horse passed here, a suspicious looking character having passed here recently, and under circumstances which make his inferences plausible enough.

TEACHERS' CERTIFICATES.—The Mail of 12th prints the list of candidates who have been successful in obtaining second class Provincial certificates. Of the papers, Nos. 257, 259, 273 and 1547 are given as the lucky figures, and these, we find, are Messrs. James Downing, Joseph Greenfield, and Misses Anna Davidson and Jane Hayward.

THE C. UNIFORMS.—A DETECTIVE'S WORK.—A RECENT INCIDENT.—Detective O'Neil has returned to Ottawa. He was here for some days engaged in working up the case of the "steamer yacht" and if he has not been successful it must be attributed to the delay which occurred before he commenced his investigations. THE PROSPECTIVE YIELD.—THE LATE STORM.—Seldom has the farmer's mind been agitated by such alternate fears and hopes respecting his crop thus during the present season. The spring was so far propitious, that the work was got over with wonderful facility, and at an earlier period than usual, and while the hay crop was expected to be a comparative failure, it was confidently expected that the immense harvest of grain would amply compensate for its short-comings. A few seasonable showers, followed by warm weather, however, brought the former on to an unexpected manner, and the general yield is fully one-half superior to that of the last two seasons. Although thus agreeably disappointed with his hay, the farmer could not view, without serious apprehension, the unprecedented hot terms which we lately experienced, and which threatened to dry up the grain before the heads were properly filled; and many sage prophecies were handed that threatening times would ensue, and that the crops would be a comparative failure, it was confidently expected that the immense harvest of grain would amply compensate for its short-comings. A few seasonable showers, followed by warm weather, however, brought the former on to an unexpected manner, and the general yield is fully one-half superior to that of the last two seasons.
