"The Kingston News tries to make o that Mr. Gunn, Reform candidate for Kingston, is as unfit to be member of Parliament as Mr. Robinson, Mr. Hay, or Mr. Platt, of Toronto, but it fails. THE PROTECTED PARADISE.

Sir John still persists in the misreprecentation that the workingman is much better off in the United States than Canada. American journals are teeming with proof to the contrary, and Canadian visitors across the line add their refutations of the Chieftain hiction, which indeed is left without a leg of evidence to stand on. Thus a Brantford Conservative wrote lately to the Conrier, the Tory organ of that town, his personal impressions of the industrial situation in Sir John Macdonald's model paradise of pro-

In conversation with one of the leading merchants of this place a faw evenings since, he stated to me that the United States was the most ruined country on the face of this earth-these were his very words, and you will probably

The organs will make but little capital out of their miserable and treasonable attempt to fan the embers of sectarian strife.

DESPERATION

The Tories of Canada are being humiliated in the person of their Chieftain. They deserve that humiliation for clinging to their leader after he had so signally demonstrated his unfitness for power. Such devotion to the bad leader of a rotten cause was not loyalty, but perver, sity, and the party is likely for many long day to pay the price of exclusion from office for its adherence to the fallen fortunes of its former Chief. To what abject depths is he at the present moment reduced in his personal beggary from the people of Kingston of their seat in Parliament ! THE COLLIERY DISASTER

A Sad Tale-Great Suffering. (By Telegraph 20-day.)

London, Sept. 13,-The worst apprehensions concerning the Abercorn colliers disaster likely to be realized; in fact all hope of saving the lives of the imprisongramme. He spoke very highly of the ed miners seems to have been already kindness of discosition and the brilliancy abandoned. The cause of the accident of intellect that characterized the French is still a mystery, as the safety required by law were in use, and the All he said of them is true, and much rules were rigidly enforced. The first more, but the people of Ontario are too estimate of the loss will, it is now almost much prejudiced in many respects against certain, be not in excess of the truth our French Canadians to discover their though it is just possible some few survivors may be rescued as the exploration
