Readjustment of the Tariff.

Not one of the Tory leaders from Sir John A. Macdonald to Hon. Mr. Tilley, who was the last of the leaders to speek on this subject, has had the honesty and manliness to tell the people what they mean by readjustment of the tariff, about which they all talk so glibly. They contradict one another on many points, because they find it necessary to say something which will allay the apprehensions of those they happen to address, but take what they have all said at different times, and there is left no room to doubt that—

A readjustment of the tariff, such as the Tory chiefs contemplate, mean.

A tax upon wheat and flour.
A tax upon corn and meal.
A tax upon live animals and meat.
A tax upon coal of all kinds.
A tax upon salt.

Increased duties upon agricultural implements, such as ploughs, harrows, winnowing machines, mowing machines, reapers, rakes, etc., etc.

Increased duties upon furniture.

Increased duties upon woollen and cotton cloths and clothing of all descriptions.

Increased duties on boots and shoes and leather goods.

Increased duties upon all articles manufactured to any extent in the Dominion.

Increased duties on cordage, and the articles used in the building of ships, which can be produced or manufactured in Canada and especially.

A heavy duty on iron and steel, which are now produced at the Londonderry mines, Nova Scotia, where, practically, the production is limited only by the demand.

All who vote for the Government candidates vote against these taxes and increase of duties.

All who vote for the candidates opposed to the Government, or who call themselves independent, but who are known to be ready to join the Opposition, vote for those onerous taxes on food, and fuel, and clothing, and furniture and agricultural implements.

Betting on Elections.

It is not generally known that one of the most stringent laws in our country is intended to repress the evil custom of betting on elections, and whose effects are likely to be felt not only in regard to public morality but to the freer use of the ballot. This act provides that in case any person uses or knowingly allows any part of his premises to be used for the purpose of recording or registering any bet or wager, or selling any pool; or keeps, exhibits, or employs, or knowingly allows to be kept, exhibits, or employed in any part of any premises under his control, any device or apparatus for the purpose of recording or registering any bet or wager, or selling any pool; or becomes the custodian or repository of any money, property or valuable thing staked, waged or pledged, or records or registers any bet or wager or sells any pools, upon the result of any political or municipal election, such person is guilty of a misdemeanor, and shall be liable to be imprisoned in any common jail for any term less than one year, with or without hard labor, and to a fine not exceeding one thousand dollars. This is the letter of the law, and it must have no little influence in putting an end to the evil practice of betting on the elections, which has often been made one means of bribing voters. The influence of this law may not be very great directly, but indirectly it will be most powerful. When it is illegal to bet it is illegal to pay bets made against the law, and the fear of law-breaking is likely to have deterrent effect upon the loser, even if the gainer is willing to take the risk. Betting, whether at races or at elections, or on any other pretence, should be abolished in every legitimate manner, and the discredit cast over it by a standing law, even if that law can never be directly enforced, must have a great effect in reducing the evil to the lowest condition.

Don't be Humbugged.

PROTECTION NEVER YET CREATED A MARKET BUT IT HAS DESTROYED MANY A ONE. DON'T FORGET IT.

PROTECTION MEANS WEALTH FOR A FEW, BUT POVERTY FOR THE MANY.

PROTECTION IS A MONOPOLY ORGANIZED AT THE EXPENSE OF THE MANY, FOR THE BENEFIT OF THE FEW.

PATENTS obtained for mechanical devices, medical or other compounds, ornamental designs trade marks, and labels. Caveats, Assignments, Interferences, Appeals, Suits for Infringements, and all cases arising under the PATENT LAWS, promptly attended to.

INVENTIONS THAT HAVE BEEN **REJECTED** by the Patent Office may still, in most cases, be patented by us. Being opposite the Patent Office, we can make closer searches and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS send us a model or sketch of your device; we make examinations *free of charge*, and advise as to patentability. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer to officials in the Patent Office, to our clients in every State of the Union, and to your Senator and Representative in Congress. Special references given when desired.
