Thus in both the representative chambers to mitigate the oppression; and that, in in which the city is interested she is represented by fairly chosen and triumphantly elected members of the Liberal party. How has this, to Tory minds, incredible miracle been brought about? Simply by the steady and natural growth of Canada. The general returns are not all in, but enough has transpired to indicate that the double shuffling of the Opposition on the so-called "protection" question has duped many formerly Ministerial consti tuencies into electing taxationist candidates. The arch-hypocrite who yesterday was driven from Kingston by an indignant people has thus again repeated, though in another form, the "no party" trickery by which he entrapped so many Reformers in 1867. At that time none were to be for a party but all for the State, and with this specious cry he seduced the Liberal fly into the Tory parlour and managed to retain his hold on power. So now by a similar species of false pretences he has attempted to make the people of this country subservient to the purposes of his personal ambition and party greed. Thus many of the electors o Ontario were gulled with the deception that he would give them increased protection and consequently enhanced prosperity, while, by the Free Trade seaboard, Mr. Tupper the Great Stretcher, and the other Tory Lieutenants with the most unblushing hypocrisy conveyed the impression that readjustment not only meant no increase but an actual lessening of the tariff. To a considerable and dethis dishonesty plorable extent has succeeded. The Government has had to fight this battle against tremendous odds. The hard times, for which no reflecting mind could blame the Government, set in soon after their accession to power, and although the cloud has lately been lifting, yet the discontent, which must find some cause for its grievance, almost invariably throws the found himself in a lane outside the pre- now and then a person is born with a reblame, right or wrong, upon the powers that be.
