Right well does the party which has duped the country know that the depression has given unmistakable signs of abating and prosperity reliable indications of returning. Till this is accomplished by the will the Tories play the game of inquiry and delay, and then when commercial prosperity is restored without their poliey, in fact in spite of it, they will appropriate all the honour and glory of the change. The dodge of delay is just what might have been expected from the double-shuffler for power.
