A story, quite too stilly for anything, was floated out of some American telegraph office the other day, to the effect way out by Fenian pirates. The Hamilton Times thinks "there is more ground now to give colour to the yarn than has hitherto existed," the 'more ground' in the question being the fact that President Hayes has granted a revenue cutter to American Fenians, to enable them to meet and escort to the United States some Fenian prisoners recently released from British Bastiles." Really we don't think the latter fact-if it be one-at all increases the plaquibility of the kidnap-

which are too rich to be true.

Our position has been slightly mis understood in reference to the Hon. Senator Campbell. We certainly did give currency to the rumour that he was to be punished for his apathy during the Kingston contest by exclusion from the New Cabinet. So far from approving we drew largely upon the hon. gentle- speeches, just as it was that of the woman's record to show, both as a champion man who wanted her son to become a bursar of Tory bribes in Kungston, and, above all by that timely absence from court which saved the Tory Chieftain's political neck, he had laid the Tory party and especially its leader-whose saviour he thus andoubtedly was -- mader insolvent obligations to himself. This was the gist of our recent "plea for Campbell, and we repeat that for his open handed services in the Tory cause here, when election funds were being generously distributed, he should still be gratefully re- | House, by talking, that change comes
