Teachers' Associations.

A meeting of city teachers was held last evening in the Model School, Wellington Street, for the re-organization of the City Teachers' Association. The city here, some of whom are secured fully .body was formerly held in connection with county one, but as the regulations of the Education Department require that an Association shall be formed in each Inspectorate, it was incumbent on the teachers of the city to have an Associa tion of their own. A separation from the county was therefore effected at the spring session of the united Association, and yesterday's meeting was called in consequence. The Department orders that the Inspector shall call the first meeting, as well as state the number of days each session is to last, and the number of hours each day, as well as fixing the number of officers in the Association, only leaving to that body the naming of the particular days the meeting is to be

held. The officers elected were: President ..... A.P. Knight, M.A. Vice do...... Miss McIntyre. Sec.-Tress ..... W.J. Summerby. Committee- Messrs. Metcalfe and Wood, and Misses Livingston, Beaty and

Owing to the lateuess of the season, and the County Association having their meeting on November 1st and 2nd, it was decided that for this fall the meeting should be held in connection with the County Association.

AN OSWEGO MEDICAL CASE.

To the Editor of the British Whig. Sir;-I noticed an article in our daily Palladium, copied from your paper, under the heading, "Dr. Knight, formerly of Napanee, in trouble in Oswego," etc., and being an old friend of the doctor, I take liberty of writing to you to say that while for a time reports were in circulation to injure the doctor in his profession, there is not in all the reports circulated anything that can in any way injure him in the minds of honorable candid, thinking men. Had the medicine been given the pa-

Beecher's New Lecture. THE REIGN OF THE COMMON PROPLE New York, Oct. 32. - Rev. Henry Ward Beecher lectured in Association Hall last night on "The Reign of the Common People." He said the education of the race is the great feature of the time in which we live. He then went on to explain why the dynasties of Europe were seeking to educate the people, and one of the reasons, he said, was that they had learned that it was easier to manage intel ligence than ignorance. He coneluded with remarks against the greenback party, saying the eminent statesman in Massachusetts, Butler, had said our government went through a terrible struggle with mere notes, without any gold and silver, and if they could do that through
