LECTURE by Father Stafford in aid poor in the City Hall. Although all the members of the new

Ministry have so far been elected by acclamation, it by no means follows that similar good fortune awaits Mr. Langevin. He has no right to expect it. Discarded or positively rejected in three constituencies, it is nardly to be expected that the people of Three Rivers will permit the \$32,000 here to foist himself upon themselves without protest. Even some of the Conservatives of the place are said to be decidedly inclined to resent the indignity. He will hardly be althe course. If opposed no one would be surprised to hear that another defeat had been inflicted upon the Pacific Scandal refugee.

CHALMERS' CHURCH .- Last night the people of Chalmers' Church held a social of welcome to Mr. McQuaig, on the occasion of his moving into the new house just completed by the congregation. We noticed among those present the Rev. Prof. Mowat and lady, Mrs. T. G. Smith (her husband being absent, being out of town.) During the evening Mr. Mowat made a short speech, giving an account of his trips on missionary work when he was minister of Niagara. The choir of the church furnished five pieces of music very acceptably, and Mr. Mc-Quaig made a very neat, pithy and acceptable speech, when Mr. Macalister, who had charge of the meeting, called on Mr. McQuaig to close it with prayer Their was a large attendance and every one seemed to enjoy the meeting.

The latest jok; at the Capital is the rumoured deposition of Lieut.-Governor Cauchon and the appointment of Wan dering Willie Macdougall in his room and stead. There would certainly be a poetic justice about his reappointment to a position which, although once all but within his grasp, he was not permitted to seize and to enjoy. What a satisfying revenge it would be, and what a glorious vindication of the practical politician from the odium of a long-rankling disappointment and disgrace. We have no doubt that were the distinguished Refugee actually elevated to the North-West Governorship he would celebrate the event by a bonfire whose flames might be appropriately fed by the collected copies of the pamphlet in which he denounced his present masters as being guilty of incapacity and

"These ideas that the Government is a great magician and can create unlimited paper wealth by a simple wave of its wand, without having actual material wealth to fall back on, are not healthy ideas, and should be studiously rejected by a young and growing country like Canada, having a great future before it." -Toronto Telegram.

A similar argument may be nrged against the absurdity of supposing that prosperity may be created by an act of Parliament giving effect to a policy so-called protection. To make a people wealthy by taking from one class and giving it to another is about as sensible a plan of general enrichment as a greenback inflation of the currency, and in our opinion not a whit more so. Both these fallacies "should be rejected by a young and growing country like Canada, having a great future before it."

If at the instance of Sir John Macdonald the people declared for a national policy, and, like Joseph in Egypt, placed him in power to give effect to his own policy, we cannot see the impropriety of ceive the new Governor-General in silver urging that that policy should be carried | buckles or badges with resettes. Some of our contemporaries are busy looking up the law and determining the probable time when the Ontario elections will transpire. It appears the Confederation Act states that the House shall exist four years from the date of the return of | Berlin the write, which in the present instance will reach to the 2nd of February next. If the Legislature is not convened till after the holidays the session will necessarily be a brief one as the existence of the House will expire by effluxion of time on the date above named. We do not suppose that this fact will necessarily determine the time of the election. That will be a matter for the Government to decide upon in the interest of the public convenience. The Mail would seem to be of a similiar opinion for in a recent issue it announced on 'good authority' that the Ontario elections would probably not take place till next May or June. Whenever they take place the people will ! be sure to defeat Tory expectations based upon their Dominion success, by expressing renewed confidence in the agencies where practicable.

Mowat administration. Why should Mr. Gibbs be thought too great a man for Leader of the Tory Opposition in the Ontario Legislature? If, as our Tory friends tondly expect, their late success is going to be repeated in the flames Ontario elections, why, then, the now to be chosen leader would become the Premier of the Premier Province of the performances at Government House, or Dominion. The mania for regicide is epidemic in Europe. The double and almost successful attempt on the Emperor of Germany, the subsequent attack on the life of the King of Spain, and now on the King of Italy all go to indicate the personal risk of being an old world ruler. Wilhelm. Alfonzo and Humbert have all been fortunate to escape with their lives from these several attacks of the would-be assassins. Socialism is without doubt at the bottom of all the trouble. To the minds of these misled political fanatics Kings and Emperors personify the tyran. ny of monarchy and are made personally responsible for the wrongs, real or imagi. nary, under which the people groan. Hence the animosity which smoulders

against Royal rulers and which now and anon breaks out in some mad attempt at life-taking. Such a course is sure to defeat its own purpose, Kings and their lowed under such circumstances to walk governments will be supported by the masses of their people in taking such measures as will not only punish the particular offenders in each case, but stamp out the socialistic conspiracy even in its more legitimate and harmless developments. Where the people have real grievances these attempts at King murder can only have one result, the faster riveting of the popular fetters and the postponement of the emancipation of the people from political disabilities. Happily with our monarchical system the freest of Democratic liberty has been made so compatible as to place all popu lar grievances in the hands of the people British Constitution every man is the general liberty, and none but a madman scope of the motion. would attempt to obtain by violent Mr. Tapping thought the introduction

We note that temperance men at the Capital, or some of them, intend to imitate the example of a similar class in St. John, and beslaver the Hon. Mr. Tilley with a congratulatory address. Why they should take this course is rather puzzling. Had the government, of which Mr. Tilley was last a member, done anything to promote the cause these men | salary of the Clerk at \$300. profess to have at heart, then might they with consistency and propriety hail his return to power, in company with his old colleagues, with congratulations. Not single stride, however, did the old Tory Government make in temperance legislas tion, and the new one gives promise of equal immobility. How different it was with the Mackenzie administration the permissive act of last session is alone sufficient proof. It was partly because Mr. Mackenzie's Ministry grappled with the evil of intemperance, and instituted means to restrict its ravages, that the liquor interest assisted in defeating them and in restoring the present government to power. To 'address' and 'demonstrate' Mr. Tilley, and to felicitate themselves under such circumstances, is a farce that sober men might well be ashamed of

An account of \$16 from Mr. J. Agnew was read, being for drawing up the by-law for consolidating the county debt. Mr. Joyner moved that the account be paid, and Mr. Watson, sr., moved that it be referred to the proper Committee. Mr. Joyner allowed his motion to read, "that it be paid, and that it be considered as in full of all demands," in which shape the motion passed.

ARREARS IN COUNTY RATES. Moved by Mr. Vanluven, seconded by Mr. Ruttan, that the County Treasurer be instructed to take steps to collect all county rates from all municipalities in arrears forthwith, and that it shall be a gross violation of duty if he shall allow the county rate to be six months in ar-

rears by any municipality, as the statute provides him with all necessary power for that purpose. Mr. Vanluven spoke at some length in favour of his resolution.

Mr. J. R. Dawson deprecated the passing of the resolution, because, as a matter of fact, the county suffered nothing by hese rates being in arrear. He suggested that it should be altered to read "one year" in arrears. He thought, however, that it should not pass. Mr. Vanluven made the suggested al

teration. Mr. Williams, whose township was in arrear, explained how this was so, showing that this was through the neglect of his Clerk. He was endeavouring to clear off his account in this respect. He did not think it right that the resolution

should pass. Mr. Flynn also deprecated the passing themselves for correction. Under the of the resolution. He suggested that the motion be made to read that those townships which had large tracts of non-resicustodian, not only of his own, but of the dent lands should be excepted from the

SALARY BY-LAW. Mr. J.R. Dawson introduced a by-law to repeal By-law No. 170, fixing the On motion of Mr. Dawson the Conneil went into Committee of the whole on the by-law; Mr. Sexton in the chair. The first clause, repealing the original

by-law, was carried on a division, the mays being Messrs. Calvin, Joyner, Mc-Grath, Strachan and Walker. In a discussion which arose, Mr. Dawson advocated having the Clerk in

his office every day. Mr. Strachan said that when they had clerk at \$300 a year they had one who attended to his duty, but since they gave the Clerk \$500 he had not done his duty. When the counties were united the Clerk had only to attend one day, each week, and the business was well done. He could get a clerk for \$300 a year.

Mr. Anglin, while voting for the bylaw reducing the salary, thought that they had efficient officers, and they should pay them a sufficient salary. Mr. McGrath was of the opinion that two days in the week was amply sufficient for the County business.

The second clause in the by-law being read it was struck out and the by-law No. 101 revived as to the Clerk's salary. The vote being taken the same persons voted "nay" as on the first clause.
