It is not at all improbable that the Ashantee war will be revived. Dahomey, the barbarian chief, has not only declined to pay the indemnity exacted of him at the cessation of hostilities by Sir Garnet Wolseley, but he has not suppressed the cannibalistic practices which hold sway in his territory. The English forces will have to attend to Dahomey, and double his miseries by a renewal and multiplication of punishment.

It is announced that Lord Dufferin has been designated by general consent Whitehall as successor of Lord Lytton in the Governorship of India. That will be glad news to Canadians. Few have distinguished themselves like him in the administration of Colonial affairs. No man was more popular in Canada, and in Canada he merited that eminence which is now seen to have paved the way for greater elevation and consequent responsibility.

Already does Lord Dufferin's action justify the expectation that in him the country he lately so successfully ruled | Prentice Boys and the 1.C.B.U has a warm friend and advocate. The Roman Pontiff is endeavouring to extract good out of evil by simultaneously suggesting the suppression of Socialism and the restoration of the prerogative of the Church. There is no doubt a pretty wide-spread scare among the monarchies of Europe as to recent communistic developements, particularly in regard to that phase of it which has prompted the level lers to so many attempts at King murder. Notwithstanding the feeling of panic of which we see some rights. Socialism will be put down, if at all, by the civil power and without any spiritual inter.

The National (Montreal) states that the number of Ministers of the Quebec Government is to be diminished by abolishing the office of Solicitor General, and that the Hon. Mr. Chauveau, the present occupant of that office, will be made Commissioner of Crown Lands, and the Hon. Mr. Langelier, now Commissioner of Crewn Lands, to be the successor of the late Hon. Mr. Bachand as Provincial Treasurer. Thus an able and experienced head for the Treasury Department will be provided, while the salary of a Minister and the expenses of a department will be dispensed with. This arrangement is virtually a return to the system in vogue before the year 1870, when the Solicitor General was not dignified with the position of a member of the Cabinet. _____

Not content with traducing and vilifying Mr. Deroche they have now began to circulate all sorts of stories about him in regard to the drowned lands in the rear of Portland and Hinchinbrooke, trying to make the people believe that it was he that caused them to suffer by these drawned lands, and also many other things too frivolcus to notice. There are a great many societies in Kingston. For instance there are the National Societies of St. George, St. Patrick and St. Andrew, the Young Irishmen and Orange Young Britons, the A.F.A.M. and LO.O.F., the Rine Club, and Licensed Victuallers Association, Woman's Temperance Union, nated, and se the question of precedence will naturally arise we may suggest the following, the wisdom of which will be acknowledged by all concerned: The Mayor and Aldermen should head the body, the Mayor to present the address. Each member will be required to appear in full dress, and the only distinction made between the representatives of th different wards will be that these will berrowed coats must stand in 'rear. give them an air of distinction the members of the City Council and all other delegates in attendance are requested to decorate their breasts with Masonic, Oddfellows', Knights Templar, Orange and Temperance badges, which will give the bearers an appearance of having seen

much service. THE QUESTION OF PRECEDENCE becomes very difficult. St. Androw's Society men claim that as the Marquis is a Scotchman they should be first bidding a brither Scot welcome. This argument, although a strong one, is met by St. George's Society men, who say that their claim to precedence is founded upon the fact that the Queen of England lives in England, and that Princess Louise is her daughter and an Englishwoman, that as higher honors are accorded her the representatives of Englishmen in Canada have undoubted claims to precedence. St. Patrick's Society men, imbued with their national characteristics, will be found combating the claims of both the sister societies as to precedence, claiming that if it is impossible to have Home Rule in Ireland they are bound to have their say in Canada, and that they will not give way in this question of privilege, especially as their patron saint was enrolled upon history at a more ancient date than that of either St. Andrew or St. George. The precedence of the other societies will have to be decided by some competent to them by the rival merchants for selection, the question has been

left to the judgment of the Marquis himself. We have no doubt that if the claims of the respective associations were laid before him he would give agreeable decisions in the matter.
