SMITH BROTHERS,

345 King Street, N.B. - Watches and Clocks skillfully repaired and warranted. Dec 18th.

KINGSTON ACADEMY

School of Modern Languages.

TEACHING STAFF: English, Latin and Mathematics - A. W. HAY; Modern Languages - M. R. ROBERTSON; Advanced German - FRED. TELLEMAN, M.D.

The instructions are thorough, and in French and German, and the other modern languages the pupil is taught, practical conversation, as well as the theory of language.

Private lessons taught by the Masters. For particulars apply to ANDREW HAY, Principal, Dec 20th.

PHYSICIANS KNOW THAT

medicinal derangement of large organs, as the stomach, liver, heart, &c. will induce sleepless nights, and is attended with many serious complications, and while it may in many instances be but a symptom, among others, of an irritable and exhausted nervous system if not assisted, and nutrition increased, it may prove the forerunner of serious changes in the brain or spinal cord.

PHOSFOZONE!

PHOSFOZONE, judiciously used, will allay the perturbation of the nerves, assist their normal currents, and improve their nutrition, thus insuring the generation of sufficient nervous force for the exigencies of life.

"PHOSFOZONE" can be had from every Chemist and Druggist throughout the Dominion. Price \$1 per Bottle or six for \$5.

FURS

CLARK WRIGHT'S. BUFFALO ROBES, lined and unlined, at bottom prices.

H. R. WOLFE and JAPANESE ROBES. LADIES S.S. Seal and Astracan Jackets. Mink Seal and Dyed Otter Sets. Squirrel-Tail Bows. Children's Fancy Sets in great variety.

GENTLEMEN'S Raccoon and Buffalo Coats. Fine Buckskin Gloves, Mitts, &c. Kid Gloves and Gauntlets. S.S. Seal, Mink and other Caps. Persian and Russian Lamb Caps. Repairing and Remodelling Old FURS. CLARK WRIGHT, Wellington Street, Nov 9th.

The Daily British Whig.

SATURDAY EVENING, DEC. 21, 1878. CITY AND VICINITY. 20 lbs. new prunes for one dollar at J. Halligan & Co's.

Some of the best Pembroke potatoes - general favorites - can be obtained from Mr. Thos. Nugent, Johnson Street.

This is the longest day of the year. It was most assuredly the darkest morning.

SOCIAL AND CONCERT. - We understand the Synagogue Street Methodist choir contemplate giving a social and concert on the evening of January 2nd.

PROBABILITIES. - Falling barometer; brisk to high winds and snowy weather, likely to-morrow by rising barometer, northerly winds and colder weather.

POLICE COURT. - Thomas Summers, drunk, \$2 or ten days. An insane woman was handed over to her husband, she having escaped. A case of forestalling, \$2 and costs.

HOLIDAYS. - The students of both the Medical and Arts Colleges are now having their Christmas holidays. Most of the young men have left the city to spend the season with their friends.

A GOOD FOLLOWING. - Mr. Wm. Vanhorn, of Pittsburgh, is at the head of a numerous family. His fourteen children have presented him with fifty-four grandchildren and one great-grandchild.

REV. T. W. JOLLIFFE will preach his third sermon on the "Prodigal Son" to-morrow evening. Subject: "The young man returning home." Young men and young women are cordially invited to attend.

DR. BULLER, Oculist and Aurist to the Montreal General Hospital, formerly of the Royal London Ophthalmic Hospital can be consulted at Dr. K. N. Fougere's office, William Street, on Monday next, December 23rd.

KINGSTON POST OFFICE. - Mr. John G. Strachan, who has been a faithful employee of Kingston Post Office for several years, has been promoted to the position of Delivery Clerk, a well deserved compliment.

MODEL SCHOOL. - On Monday next the Third Class teachers who have been in training at the Model School, will go through the final examination at the Court House, commencing at 7.30 a.m. Their success at this examination will decide their titles to certificates.

LANE OPERA. - Mr. Frank Forrester, business manager of the Lane Opera House Company, was in the city to-day, making arrangements for the appearance of the organization which he represents in Kingston on the 26th and 27th. Look out for advertisement.

DECORATIONS. - A good many of our citizens have commenced to decorate their houses with evergreen, etc., as is the usual custom at this time of the year. There is nothing that makes home more cheerful for the family reunions than to have it decorated. If more in the city would attend to this matter it would be productive of more happiness.

SCHOOL TRUSTEE ELECTION. - Elections will no longer go by acclamation for school trustee. The City Solicitor declares that nominations are not necessary, but polls must be kept open from 9 a.m. till 5 p.m. in each of the seventeen subdivisions in the city, so that any resident may go forward and vote for whomsoever he pleases.

OPERA HOUSE. - The Opera House is now nearly finished. A good many of the scenes are painted and in position, the opera stars have been put down they are very beautiful. The private boxes are in readiness for their friends, which have not arrived yet. The furnaces will be put in this week, and it is hoped to be ready to open out New Year's. It is not definitely decided who will open it.

EXAMINATIONS. - The intermediate examinations closed yesterday, and last evening the papers of the candidates were forwarded to the Education Department. Some time must elapse before the result will be known. The entrance examinations are over, too, and the probability is that the majority of the young people who tried for promotion will get through. Mr. Kidd has been exceedingly busy in his grading of the public schools.

PRESENTATIONS. - Beside the presentation made to Mrs. Campbell, Depot School (mentioned elsewhere) we believe several of the teachers in other schools were recipients of gifts from the pupils. All the names and circumstances have not been reported. We know, however, that at the Model School Mr. J. S. Wood was given a writing desk, Miss Crawford, a pair of vases, Miss Sutherland, an ink stand, and Miss Cornack, a scent bottle.

A GOOD WALKER. - A Cape Vincent correspondent of the Watertown Dispatch says: "Thomas Hunter, of Dexter, a gentleman nearly 70 years old, returning from a business trip to Kingston, on Monday last, missed the train at Cape Vincent, and desiring to get home as soon as possible, walked from the Cape to his home, a distance of about twenty miles, in five hours. That the pedestrian rags he was in when Mr. Hunter was a young man we doubt whether he could have found an equal."

A WORD IN THIS WEEK. - About these days read carefully the advertisements in the BARRIEN WAZO. Every man, woman and child in Kingston will find in this something of personal interest. The holiday season is at hand. Our enterprising shopkeepers are exerting themselves to meet your wants. Their advertisements which they have filled their stores with new and desirable goods and wares; they advertise because they want to sell them; they advertise because they are in active competition, and because they are in competition they sell at the lowest possible prices. No part of the BARRIEN WAZO will be so interesting for the next week as the advertising columns.

CITY COUNCIL.

SPECIAL MEETING YESTERDAY AFTERNOON. At the special meeting yesterday afternoon there were present: The Mayor; Aldermen Allen, Amelino, Carson, Gaskin, Fox, McCrossin, Metcalfe, Duggan, Wilson, Moore, Anglin, Gilderlove, Dupuis, Clements and Pense.

CHANGE OF PLACE. The by-law to change the place of polling from A.C. Grant's shop to Crawford DeArmitage's shop in subdivision No. 10, Frontenac Ward, were passed through all the stages.

SALE OF MARKET STALLS. A by-law was also introduced by Alderman Gaskin, to appoint the 27th of December, annually, for the sale of market stalls. It was passed through all the stages, also.

Ald. Allen presented the petition of the steamboat and vessel owners, asking for a reduction of assessment, similar to that accorded to them in the past two years. Referred to Court of Revision.

MARKET BY-LAW. Ald. Gaskin presented a by-law to empower the Clerk of the Market to examine and have weighed or measured any produce offered in the market, and if he finds the weight or measure short, to have the person offering the short allowance summoned. Hitherto he has had to await a complaint from some buyer before acting. Buyers do not wish to complain and appear in court, and consequently the legal efforts to secure full weights are of no effect. The by-law was calculated to remedy this weakness in the regulations.

Under the by-law marks of weight are made evidence of false pretences if not correct. Several Aldermen supported the by-law, giving good reasons for their action in experiencing of deceptions thus sustained.

The by-law was read once, and considered in Committee. An amendment of Ald. Pense's motion to strike out clause 20 of the original by-law, by an addition to the new by-law, and also to add clauses for confiscation of produce of improper weight or measure, was carried. Consequently the Committee asked to leave to sit again at next meeting of the Council. Meanwhile the amendments will be prepared.

ADJOURNED. Paper kiosks have been invented. - The St. Andrew's Bazaar has netted a nice sum. - Good sleighing is in prospect for Christmas. - The crossing at Belleville is pronounced safe for horses. - Mr. Alex. Cuthbert, the well known yacht builder, is in the city. - The Lane Opera Company will be here next week. The dates are up. - Nearly \$9,000 were paid in the Village of Smith's Falls last week for poultry.

- That man or woman is happiest who contributes to the happiness of others. Try it on Christmas. - Anybody can catch a cold now. The trouble is to let go again, like the man who caught the bear. - They intend to have the annual Christmas dinners at all the public institutions. - The Oswego banks have refused to take Canada money on deposit except at a discount. - The merchants did an excellent business to-day. For these hard times it is wonderful what money was made to-day. - A new arrival at the "free boarding house." Richardson, who assaulted a man in (Ulph) was sentenced for seven years. - Teams were bowling down Princess street as early as 7 o'clock this morning - daylight - to get good positions on the market. - The Professor of Logic in Queen's College has written "his last word" on the school question, the excitement attending which has almost died away. - There is a dispute going on in the west, as to whether a Municipal Council has the power to compel a man to clear the snow from the front of his premises. At present the year has been.

The Toronto Presbytery met on Thursday, and decided that the Rev. J. G. Robb, D.D., should accept the call to Galway, and that Cook's Church should be dedicated open after the first Sunday in February. Good bye.

Portsmouth. Now that the year is drawing to a close, and the elections are approaching, it is a matter of pleasure to be able to record the fact that during the past year a spirit of economy and retrenchment seems to have animated both the County and Municipal Councils, and notably that of Portsmouth village, where, thanks to the care and attention bestowed by the Councillors and Councilmen to the affairs of the Corporation, as well as to their economical management, the rate of taxation for local government has been reduced to the extremely low figure of one mill on the dollar, a rate considerably lower than for years past, and one that which even the most unreasonable could hardly find fault with. This, too, is the more creditable as the reduction has been effected in the face of considerable and much needed outlay for improvements, such as the erection of the lamps on the streets, &c. It would seem, too, that this desire to lighten the burden of taxation has not been confined to the Council, but extended to the local School Board, which, while keeping in view the proper efficiency of their school, as reduced their expenditure that the almost minimum rate of eight mills on the dollar suffices for their needs. The whole rate of taxation in the village is 15 mills, being 8 mills for County rate, one mill for local purposes and eight mills for schools. A Council that effects such retrenchment deserves to be commended.

ADVERTISEMENTS. - Our columns are to-day so fully occupied that we have to hold over the continuation of our Christmas notices of the patrons of this journal. We shall resume and probably conclude our remarks on the festive season on Monday.

4 The Japan tea for one dollar at John Halligan & Co's. 3 The fine Japan tea for one dollar at J. Halligan & Co's.

THE TORY CAUCUS.

A REPERCUSSION OF OUR STATEMENTS. Our Princess contemporary is "on his toes" about our report of the recent Tory caucus. So far as we can apprehend the situation the writer in the News of last evening is not so much annoyed about the representations we made, as he is about the fact that we obtained a little insight into the doings of the Association, and the speaking members are thus lectured: "While the Conservative Association has nothing to fear from a publication of its proceedings, its business, like that of the Reform Association, is supposed to be conducted privately. Therefore, we say that, knowing this to be the rule, for any member of the Association or Conservative present to carry information of what transpired to the opposite party is to commit a gross breach of confidence, which should not be allowed to pass unnoticed." This does not alarm us a bit. We presume we are at liberty to publish what information we like, and we are not going to hesitate about using the members of the Liberal Conservative Association if it so pleases Us. The capacious organ of the Kingston Tories has ever been ready to give its readers the benefit of gossip about the Reform Association, obtained as a rule from less authentic sources than the Wazo is happy to have had for its service recently. We are not going to waste time in replying to the several senseless exceptions which our contemporary has taken to our report, about the number present, etc. The language to which we take offence is contained in the subjoined extract, which was truly satisfactory to the Executive Committee, that if he did not receive the nomination he would cheerfully make way for the gentleman who might be nominated and that he would do all in his power to assist in securing his return. This statement Mr. Metcalfe reiterated, in unequivocal language, at the meeting on Wednesday evening.

By way of rejoinder we have to say that we do not care what Mr. Metcalfe told the Association six weeks ago in this office, and in the presence of several gentlemen, he stated more than once that he would run no matter whether it was the pleasure of L.C.A. or not - that nothing would shut him out of the track. Knowing this fact our contemporary should not be so fast in giving the lie. When Mr. Metcalfe said he would abide by the decision of the Association they were fixed in his favour beyond a doubt.

EQUALIZATION. ORDER MADE BY THE COUNTY JUDGE. After the meeting of the County Council in June last, an appeal was made against the equalization by three municipalities. The hearing of the case occupied some time, and was adjourned from time to time, and when the evidence was all in, his Honor Judge Price took the matter into deliberation. This morning he made an order to the following effect: In the matter of appeal of the Corporation of the Township of Kingston, the Township of Pittsburgh, the Township of Wolfe Island, and the Village of Portsmouth, against the equalization made by the Council of the Corporation of the County of Frontenac, of the Assessment Rolls of the townships and villages of the said County, for the year A.D. 1878.

On reading the petitions and notices of appeal herein, and on hearing the said parties by their counsel, and also the evidence adduced by them, I do order that the equalization of the townships and villages be varied by fixing the same at the several sums hereinafter set opposite the names of the respective municipalities: Barrie, \$1,604; Bedford, 299,138; Clarendon and Miller, 55,139; Garden Island (village), 65,909; Hinchinbrook, 292,283; Howland, 101,524; Kennebec, 69,225; Kingston, 1,398,665; Loughborough, 514,618; Olden, 138,974; Palmerston and Canotona, 62,711; Port Arthur, 746,729; Pittsburgh, 1,039,706; Storrington, 890,415; Wolfe Island, 54,981; Portsmouth (village), 125,899.

I do order that the said equalization, made by said County Council, be amended so as to conform to this order, and I do amend and vary the same accordingly.

The effect of the above table will not be understood without the following explanation, the figures of equalization being extracted from the amended report carried in the Council, and from which the appeal was made: Equalization Advance. Barrie, \$22,377; Bedford, 2,227; Clarendon and Miller, 18,559; Garden Island, 16,589; Hinchinbrook, 157,907; Howland, 103,797; Kingston, 1,382,818; Loughborough, 448,772; Olden, 97,778; Palmerston and Canotona, 63,125; Port Arthur, 56,328; Pittsburgh, 1,069,729; Storrington, 829,914; Wolfe Island, 674,924; Portsmouth, 119,419; Kennebec, 70,529.

The Market. To-day the market was a literal jam of waggons and people. About half past nine over fifty hundred waggons were there in abundance. There could not have been less than five or six thousand of them. Beef was also very low, realizing quantities, but was very low, realizing only from \$3.00 to \$4.50 per hundred. Turkeys were selling from 60c to \$1.25, those at the latter figure being especially fine. Geese ranged from 45c. to 60c.; apples from 85c. to \$1.25 per bushel. Potatoes were scarce and brought from 85c. to \$1.00. Butter from 15c. to 18c. Stiff bargains were made, and we doubt not that many things were sold far below their value.

3 The extra fine young Hyson Tea for \$1.00 at J. Halligan & Co's. We guarantee to give as much for \$1 as any one in central Canada. J. Halligan & Co.

QUEEN'S UNIVERSITY.

THE NEW EDUCATIONAL BUILDING. RELEASED PLAN. In last evening's issue of the Whig we intimated an important fact - that at a meeting of Queen's College Trustees on Thursday evening Messrs. Gordon & Helliwell, of Toronto, had been successful in the competition of plans for the new educational building, in the erection of which all of our citizens are specially interested, particularly so since the cost of it has been subscribed by the resident friends of the College, in connection with the third endowment scheme so happily and fortunately floated by Rev. Principal Grant. On account of this peculiar identification of our citizens with the proposed structure we have thought it of sufficient importance to inspect the drawings and give our impressions of them. To begin we may say that the sketch is that of a very imposing edifice, substantial, handsome, and possessing all the modern improvements and facilities. It is intended to locate it in line with the professors' residences, running east and west, and facing the water, from which an admirable view may be obtained of it. It will add very much to the appearance of that section of the city in which it will stand, being equally as notable in its way as the Royal Military College, whose situation and stately attitude is the subject of so much favourable comment. It will be 176 feet long, and 48 feet wide, rising to a height of 60 feet, with an elegant tower. It will have two stories, a basement and an attic, the latter of which will not be occupied except for storage purposes. Here it may be remarked that the walls below the ground will be of rough rubble, the walls above the ground to be of random coursed work, of hammer dressed Kingston stone, backed with the best rubble. The

will be unlike anything in the city. The chief entrance (wide) will be, of course, in the middle, beneath the tower, and at each end there are projections, but they are not deep, and do not materially affect the internal economy. To the eye they are very attractive. The west end is rounded, after the manner of the City Hall, but the east end is squared, capable of indefinite extension, and the rear is so designed that extensions may be made to it in the future if that be necessary. In the rounded end, on the ground floor, the museum will be placed, occupying a space 40x70 feet, thus affording the desirable space for the exhibition of the numerous curiosities, relics, &c., which have been huddled together and almost hidden in the recesses now devoted to them. A spacious corridor extends from the museum to the other end of the building, a door leading from it at the east end. On the south side of this corridor, on the right of the main vestibule, are two large class rooms, and to the left of the entrance three class rooms. On the north (and back) side of the corridor there are three professors' rooms and a specialized clock room, while in a projection to the rear there are two more professors' rooms and a covered way for the Convocation Hall for the professors or for convocations on special occasions, thereby avoiding the necessity of passing through the audiences that may be assembled for any public purpose. Then ON THE FIRST FLOOR in the rounded end will be the library, same size as the museum, 40x70 feet. Off this the librarian will have his room, and there will be a room where students may consult books (which are too valuable to be taken out) and a general reading room. In this flat also there will be a corridor corresponding to the one on the ground floor. On the south side of it will be the Senate Chamber, a private room, the Principal's office, and two class rooms, on the north side there will be the stairways, a class room, a professor's room and a clock room. Convocation Hall may be easily described. It will be constituted of the same material, and the Hall proper takes up the whole upper floor. On the ground floor it is intended to have the Physics and Chemistry rooms, with the instruments and laboratories in the rear, the latter being detached as far as possible from the main building. The attic need not be dwelt upon. The basement will contain, among other things, comfortable rooms for the janitor, convenient to the boiler and heating apparatus. It is likely steam or hot water will be used.

SPECIAL ADVANTAGES. The architects have briefly set forth the advantages of the structure contemplated by them in these brief terms. 1. The ease with which additions may be made to the building on the right flank. 2. The well lighted corridors and stairways. 3. The Library is so arranged that every portion of it may be seen by the Librarian when seated at his desk; also, that the titles of the books will be under the direct light of the windows. 4. That the stairs rise to the upper floor convenient as to all the parts of the building. 5. The advantage of the covered way to Convocation Hall, above mentioned. 6. A large square lobby at the entrance to Convocation Hall, lighted by an octagonal dome in the roof.

LEADING FEATURES. It has already been announced that this Norman style of architecture has been adopted because it admits of plain and dignified treatment, the effect being obtained more through grouping of the parts than from elaborate and expensive detail. It is not now desirable that we should give the quantities and other points embodied in the specifications. It is sufficient to say that the finishing will be complete, and that a uniformity in workmanship and material will be observed throughout. The sloped roofs are to be covered with slates of different colours, the flat roofs to have felt and plumbo cement. A large cast iron cresting will run along the top of the roof ridge, and around deck, and there will be wrought iron finials on the gables. The class rooms and professors' rooms, museum, Senate chamber and reading room are to be finished with plastered walls and ceilings, with moulded cornices, etc.; and the various fire places are to be set off with marbleized slate. The floors of the Library and Convocation Hall are to be supported with iron columns, those of the Library to extend up and carry the roof.

MESSRS. POWER'S PLAN. Beside this plan, which was most favored from the first, and which after-

READ THIS, LADIES!

THE STOCK TO BE CLEARED OFF IF LOW PRICES WILL DO IT. THE greatest Reductions made on all Goods. MILLINERY to be sold at 40 per cent than our usual low rates.
