The solicitude manifested by the learned Professor for a free and untrammelled circulation of heterodox works, as shown above, and his recent subscription in aid of Mr. Pringle's defence of the Napanee affair, would suggest a sympathy for that kind of faith. But we know the Professor is a radical in the fullest sense of the term, and would advocate liberty of thought under any considerations.

The Way Vanderbilt Succeeded.

When Commodore Vanderbilt was running steamboats, he beat all rivals by crowding on steam to the utmost, and even running down his enemy if necessary, to accomplish a triumph. When he went into railroading, he adopted a much shrewder and more successful way, by uniting vast lines and their tributaries under his own management, thus capturing all rivals, by sharing with them the immense pool of profits that GEO. CLIFF'S. were made by his skillful manipulation. Mesers, Lawrence &Co , Bankers, N.Y., accomplish a much greater success in stock operations by their new Combination Method of dealing. By this syss tem the orders of thousands of customers are pooled into one vast sum and co-operated under the most experienced management, thus giving to each shareholder all the benefits of large capital and best skill. Profits divided monthly. Any amount from \$5 to \$25,000 can be used with great success, \$15 will make \$75 profit. \$80 would return \$720 or 9 per cent on the stock during the month, according to the market. The new circular (mailed free) has "two unerring the most successful Stove sold. Every rnles for success" and full explanations, so that any one can operate profitably. Stocks and bonds wanted. Government bonds supplied. Apply to Lawrence & Co., Bankers, 57 Exchauge Place, N.Y.
