## VEGETINE SHE RESTS WELL.

South Poland, Me., Oct. 11, 1876. MR. H. R. STEVENS-

Dear Sir,—I have been sick two years with the liver complaint, and during that time have taken a great many different medicines, but none of them did me any good. I was restless nights, and had no appetite. Since taking the Vegetine I rest well, and relish my food. Can recommend the Vegetine for what it has done or me. Yours respectfully,

MRS. ALBERT RICKER. Witness of the above: Mrs. George M. Vaughn, Medford, Mass.

FROM SAULT STR. MARIE. - The Right Rev. Dr. Jamet, Bishop of Serepta. whose previous sojourns here have been much appreciated, is now paying a friendly visit to the Right Rev. the Bishop of Kingston. The clergy of the parish are paying every attention to their genial visitor.

POLICE CHANGES. - At a meeting this morning the Police Commissioners accepted the resignation of officer Gray. the most active. dashing man on the force, whose absence from the regular beats will not tend to increase quiet or good order on the streets. Alexander Snowden, a former turnkey at the County gaol, was appointed in his place,

and is well recommended to it. THE STREET NUMBERING .- Mr. Maclean Charlton states that the surveying for street numbering is still proceeding steadily, though the press or the public may not be aware of it. Twelve numbers were put up yesterday, and nine to-day; twenty more will be placed as soon as the weather will allow. We trust now that the work will be vigorously pushed that the city may be completely numbered before the new year sets in.

STREET RUFFIANISM .- The insults to men and women alike are increasing on the street. A letter appears in our columns to-day from an indignant complainant; last Saturday night two men were brutally beaten; on Monday night several gentlemen were assailed by stones on Princess street, and an Alderman struck. The rowdies, when caught, are not sufficiently punished. Too many are lightly fined, or let off because they have prominent men and lawyers to intercede for

SIXTH AND CLOSING LECTURE OF COURSE Yesterday afternoon Dr. Dupuis gave his sixth and last lecture on Hygiene to the teachers in training at the Mode

The lecturer began by saying that this his closing lecture, would be somewhat heterogenous in Tis nature, consisting of notes on exercise, clothing, cleanliness, alcoping, waking, etc.

We may be very temperate in eating and drinking and observe the best rules

for the prevention of disease, yet without a strict attention to exercise we canno enjoy good health. The laborer is apt to murmur that he is obliged to earn his is bread by the sweat of his brow, but by this means he is put in possession of the greatest of earthly blessings-a sound body and a quiet mind, for those whom poverty obliges to labor for their daily bread are not only the most healthy, but, earance in the store windows as a ne all things considered, generally the most happy of mankind. Mechanics, farmers etc., have plenty of exercise to keep them healthy; but teachers, clerks and those whose occupations are indoors, if they wish to enjoy good health should use ex ercise as regularly as they take their food. Walking is very good; riding on horseback is excellent. Attention should be paid to the time we take our exercise. Early morning is recommended by many as the best time. Exercise should not not take kindly to him anywhere, and in be indulged in just before or after meals,

> CLOTHING. Clothing is used for comfort, for healthfulness and for ornament. The principle object of clothing is to preserve a temperature of the body. The amount of clothing will depend on the climate, age, season, etc. Woollens are better than tor and preventing a too sudden escape of heat guards the body against the cooling effects of evaporation when in a state of perspiration. The evil effects of tight lacing, etc., were averted to.

An insufficient quantity of sleep exhausts the spirits and produces headaches, anxiety of mind, etc.; while a too great indulgence in sleep is also ininrious. It is evident, therefore, that sleep requires some regulation as well as diet. Some say that six hours' sleep every night is sufficient for an adult person course is for healthy persons invalids may require more. It is said that Napoleon Bonaparte could do with four hours' sleep, while John Wesley the founder of Methodism never slept more than six hours, considering it a sin to take more. The meeting on behalf of Queen's held on Monday evening in London was quite successful. A resolution passed congratulated Principal Grant on the success that has attended the efforts of the institution, sympathized heartily with the object, and hoped that London would do its share towards completing the work so well begun. Ten or fifteen minutes pipers, Italian ditto, German bands, were then given for collecting, and up- pavement sketching artists with colourwards of \$1,300 were subscribed, the ed chalks, Bible readers, performing work going on without any personal appeals. In the course of his spirited address Principal Grant remarked upon the public meeting in Kingston

"It was attended by Catholics, Methodists, Episcopalians, Baptists, and be quoted the testimony borne by them all as to the character of the College. What they said was not merely complimentary words, of course, for they backed what they uttered with their pockets, ten of the leading Roman Catholics of that city contributing \$1,000. What made the thing more exasperating was that the stories were totally without foun. dation, and the wrong could not be righted by process of law, as the young men were like the proverbial Highlander (almost) without breeches. Two other young ladies, however, determined to ounish them, and at the same time teach ome others a very useful lesson. For this purpose they called in the as-
