Assistant Business Maringer.

"Copitar per Orbem Decur.

A SPIRITED PUBLIC MAN. J. R. Stratton, l'eterboro, is a live news. paper man, which resounts for his activity as a politician and his usefulnessas a menu. ists study a good deal, and Mr. Stratton is true to the hisbit of giving close attention to provincial issues at if hy speaking frankly in regard to them. His address on the future of Ontario has been published in namphlet form. I m-k seinteresting read. ing. In points out that there are some questions on which there should not be a cammon woalth. Where are they "

Transportation This is a big country and it can only be developed by travel | outcome of the breaking away of the across it being made easy. "Transporta- | on lake Huron last fail. The steam tioo," said ho, "is the touch stone of the ship Resemble with the consult. S. highest commercial civilization," and so kirk and Melrose in ton, le't Fort railways, can ils and other methods of com munication are valued the more they tap on lake Hur in on the avening of the in to wear Shoes that will look | the heart of the outlying districts. Bejoud dressy, neat and refined, as well as the Height of Land alone there is a trace tion the steamer, which was modified one hundred and twenty unles deep, which, I to pack then up. The Schutk. The if opened and peopled, wan't contribute to the industrial prosperity of Ontario to minut but some time, having last ner

i an incalculable degree. to este of spruce, now he'd in reserve by the government. The time is coming when the Americans will have to look to Canada for its spruce for rulp, and Mr. Stratton's upon the new policy of insisting that the pa ristic policy, should sock to capture the hog or thut us out we must meet them in the world's market, and beat then in other things as we have done in cheese

Nickle and copper. These, in Ontaile, are pleateful. One company, in the Sudbury region, employs about it with men and has allow, and the land in grant Thronks Plange Black Far Capes, regular price \$12, a yearly pay roll of more than \$300 that courters B. M. Button, solicited but Copper area have largely increased in value the Monticel its expertation company. I Extra large Bucharan Lamb Cape, Sit we owing to the calarget use of copper as a transmitter of electricity, and we are only beginning to see the uses to which electrical energy may be put as an ethicient agency in the development of industries. It, therefore, needs little foresight to predict a great future for our nick's and capboth metals are found contained in the nickle and copper in those Sudburg ores," said Mr. Stratton, "there can be no doubt whatever that a great future avaits us in the works to be undertaken, especially local market but in all markets. This is with the invaluable resources we possess owing to the advent of the softer weather in our water powers. It is claimed that of coming spring when the hides take on the secret of so treating the Sudbury ores as to sale the three metals has already been discovered, and if this is the case we I combine News may look for great developments." Incidentally, reference was made to the use which could be made of the forests in some districts, the wood being converted into prompt payment and interest on overdue charcoal and applied in the converting of taxes. minerale into more marketable commodi-

> . Corundum. An entirely new departure should be taken in the treatment of this most valuable ore. Mr. Stratton would invite the competition of ecientists

cess, subject to conditions in the interest of the province. He would make the prize \$5,000, \$10,000, \$20,000 or \$50,000, confi dent in the belief that if the solution were the province a thousand fold.

Ontario wants the public men to be pabriotic. "Let us," said Mr. Stratton, in conclusion, "map out a broad road which all may travel. We shall have left enough where our country is concerned let us have loom, his top hat still on his head. a big policy, an unchanging policy, so lines, on lesser matters, we shall be as one under arrest for three days. man in regard to the main consideration.

That speech has the right ring about it. It will not be forgotten. Already, indeed, Mr. Kipling's publisher, who is at the it has inspired lavorable comment. It was the result of deep meditation on the place in the legislature and who gives the blood extract of beef. The crisis, we evidence that he has been employing his think, will come this incruing. It is safe bime well and to some purpose.

TIPS ON OCEAN STEAMERS.

#### Devices by Which They Are Wooed From the Unwary.

The steamship hands of the ocean liners have a systematic game for drawing tips from the pockets of unsuspecting passengers that rivals anything ever perpetrated . by the most expert hotel employees. The game is called "sea draughts" or "sea · checkers," and consist of a number of clever "moves" well known to every smilor, steward, cabin boy and deckhand,

Those who know these 'nnoves' the best | are, however, very reductant to reveal just how they are practiced, and they would still be dark secrets but for the information gathered by Dr. O Laughlin, senior physician of the White Star line.

"Sea draughts," says the doctor, "is briefly the game, or rather a game, by which our men add to their wages by woo- 1 ing money out of our pations' pockets. It took me years to become acquainted with even the rudiments of the game, and but for the information received from a smoking room steward whom I treated through a serious illness I should still be in ignorance on the subject.

"To the experienced deckhand there are, believe, 254 'moves' in sea draughts. Move to I consists in 'spotting'-i e. in carefully watching - the passengers on i the deck or as they come abound, so as to ) I select those with liberal, kindly faces and to avoid those who have been too openly
