# HEAVEN PORTRAYED.

Continued from page 2. verse open before them-geologic, ornitho-

logie, conchologie, botanic, astronomic, phila osophic. No more need of Leyden jars, or voltaic piles, or electric batteries, standing as they do face to face with the facts of the uni-

What are the historians doing now? Studying history yet, but not the history of a few centuries of our planet only, but the history of the eternities-whole milleniums before Xenophon, or Herodotus, or Moses, or Adam was born. History of one world, history of

What are our departed astronomers doing? Studying astronomy yet, but not through the dull lens of earthly observatory, but with one stroke of wing going right out to Jupiter and Mars and Mercury and Saturn and Orion and the Pleiades-overtaking and passing swiftest comet in their flight. Herschel died a Christian. Have you any doubt about what Herschol is doing? Isaac Newton died a Christian. Have you any doubt about what Isaac Newton is doing! Joseph Henry died a Christian. Have you any doubt about what Joseph Henry is doing? They were in discussion, all these astronomers of earth, about what the aurora borealis was, and none of them could guess. They know now; hey have been out there to see for themselves.

What are our departed Christian chemists doing? Following out their own science, following out and following out forever. Since they died they have solved 10,000 questions which once puzzled the earthly laboratory. They stand-on the other side of the thin wall of electricity, the wall that seems to divide the physical from the spiritual world, the thin wall of electricity-so thin the wall that ever and anon it seems to be almost broken through-broken through from our side by telephonic, telegraphic apparatus, broken through from the other side by strange influences which men in their ignorance call spiritualistic manifestations. All that matter cleared up. Agassiz standing amid his student explorers down in Brazil coming across some great novelty in the rocks, taking off his hat and saying: "Gentlemen, let us pray; we must have divine illumination; we want wisdom from the Creator to study these rocks; He made them; let us pray." Agassiz going night on with his studies forever and

But what are the men of the law, who in this world found their chief joy in the legal profession-what are they doing now! Studying law in a universe where everything is controlled by law from flight of humming bird to flight of world-law, not dry and hard and drudging, but righteous and magnificent law, before which man and cherub and scraph and archangel and God himself bow. The chain of law long enough to wind around the immensities and infinity and eternity. Chain of law. What a place to study law, where all the links of the chair are in the hand?

What are our departed Christian friends who in this world had their joy in the healing art doing now! Busy at their old business. No sickness in heaven, but plenty of sickness on earth, plenty of wounds in the different parts of God's dominion to be healed and to be medicated. You cannot understand why that patient got well after all the skillful doctors of New York and Brooklyn had said he must die. Perhaps Abercrombie touched him -Abercrombie, who after many years' doctoring the bodies and the souls of people in Scotland went up to God in 1844. Perhaps Abercrombie touched him.

I should not wonder if my old friend Dr. John Brown, who died in Edinburgh-John Brown, the author "Rab and His Friends"-John Brown, who was as humble a Christian as he was skillful a physician and world renowned author-I should not wonder if he had been back again and again to see some of his old patients. Those who had their joy in healing the sickness and the woes of earth, gone up to heaven, are come forth again for benignant medicament.

But what are our friends who found their chief joy in conversation and in sociality doing now? In brighter conversation there and in grander sociality.

What a place to visit in, where your next door neighbors are kings and queens. You yourselves kingly and queenly. If they want to know more particularly about the first Paradise they only have to go over and ask Adam. If they want to know how the sun and the moon halted they have only to go over and ask Joshua. If they want to know how the storm pelted Sodom they have only to go over and ask Lot. If they want to know more about the arrogance of Haman, they have only to go over and ask Mordecai. If they want to know how the Red sea boiled when it was cloven, they have only to go over and ask Moses. If they want to know the particulars about the Bethlehem advent, they have only to go over and ask the serenading angels who stood that Christmas night in the balconies of crystal. If they want to know more of the particulars of the crucifixion, they have only to go over and ask those who were personal spectators while the mountains crouched and the heavens got black in the face at the spectacle. If they want to know more about the sufferings of the Scotch Covenanters, they have only to go over and ask Andrew Melville. If they want to know more about the old time revivals, they have only to go over and ask Whitefield, and Wesley, and Livingston, and Fletcher, and Nettleton, and Finney. O! what a place to visit in.

If eternity were one minute shorter it would not be long enough for such sociality. Think of our friends who in this world were passionately fond of flowers turned into Paradise! Think of our friends who were very fond of raising superb fauit turned into the orchard where each tree has twelve kinds of fruit at once, and bearing the fruit all the year round!

What are our departed Christian friends doing in heaven, those who on earth found their chief joy in the Gospel ministry? They

are visiting their old congregations. Most of those ministers have got their people around them already. When I get to heaven-as by the grace of God I am destined to go to that place I will come and see you all. Yea, I will come to all the people to whom I have administered in the gospel, and to the millions of souls to whom, through the kindness of the printing press, I am permitted to preach every week in this land and in other lands-letters coming from New Zealand and Australia and uttermost parts of the earth, as well as from near nations, telling me of the souls I have helped-I will visit them all. I give them fair notice. Our departed friends of the ministry are engaged

But what are our departed Christian friends who in all departments of usefulness were busy, finding their chief joy in doing goodwhat are they doing now? Going right on with the work. John Howard visiting dungeons; the dead women of northern and southern battlefields still abroad looking for the wounded; George Peabody still watching the poor; Thomas Clarkson still looking after the enslaved-all of those who did good on earth busier since death than before.

in that delectable entertainment now.

The tombstone not the terminus but the starting post. What are our departed Christian friends who found their chief joy in stadying God doing new! Studying God yet. No need of revelation now, for unblanched they are face to face. Now, they can handle the omnipotent thunderbolts just as a child handles the sword of a father come back all up quick enough. Studying the Christ of the Betblehem caravansary, the Christ of the awful massacre, with its hemorrhage of head and hand and foot and side; the Christ of the shattered mausoleum; Christ the sacrifice, the star, the sun, the man, the God, the God man, the man God. --

But hark! the bell of the cathedral rings -

the cathedral bell of heaven. What is the matter now! There is going to be a great meeting in the temple. Worshipers all coming through the aisles. Make room for the conqueror. Christ standing in the temple. All heaven gathering around him. Those who loved the beautiful come to look at the Rose of Sharon. Those who loved music come to listen to his voice. Those who were mathematicians come to count the years of his reign. Those who were explorers come to discover the height and the depth and the length and the breadth of his love. Those who had the military spirit on earth sanctifled and the military spirit in heaven come to look at the Captain of their salvation. The astronomers come to look at the morning star. The men of the law come to look at Him who is the judge of quick and dead. The men who healed the sick come to look at Him who was wounded for our transgressions.

All different and different forever in many respects, yet all alike in admiration for Christ, in worship for Christ, and all alike in joining in the doxology: "Unto Him who washed us from our sins in his own blood, and made us kings and priests unto God, to Him be glory in the church throughout all ages, world without end!" Amen.

#### TUSKS AND HIDES.

Wonderful Hunting Trophies of the Maharajah of Kuch Behar.

The maharajah of Kuch Behar, who has come to England to compliment the queen on her jubilee, has brought a collection of hunting trophies from his own dominions. It will be remembered that the mimic Indian jungle which excited so much interest at the last great exhibition at South Kensington was contributed by his royal highness, who still speaks with pleasure of its popularity here. The tigers from that scene now form part of a tropical group, with trees, long grass, and everything complete in the maharajah's palace. The collection which he has now in this country includes the remains of tigers, elephants, rhinoceroses, buffaloes, leopards and bears, all shot by the maharajah, who is a mighty hunter, and always ready to welcome English sportsmen. When at home he can show visitors fine sport, particularly with the rhinoceros,

which is frequently found in Kuch Behar. One of trophies alluded to was the skin of a tiger measuring eleven feet two inches from the nose to the tip of the tail. It is the largest ever secured in Kuch Behar, if not in the whole of India. The animal, while in the act of charging, was killed by his Highness with a single shot. The elephant's skull and tusks in the collection are exceptional, inasmuch as they belonged not to a wild beast, but to a tame one. It had, however, become "musty"-a condition feared in the case of the late lamented Jumbo-and after knockiug down another elephant attacked a keeper. Fortunately the man escaped the elephant's

tusks, but his ribs were broken by his head. There are also the head and horns of a wild buffalo or Arnee bull, whic hachieved distinction just before his death. Having taken up his quarters near a village, he was visited by several natives, whereupon he returned the compliment by killing two of them. Then the maharajah arrived, and the bull lost forever his chance for further glory. All the trophies are in the hands of Mr. Rowland Ward Piccadilly, who has with great skill prepared them for ornamental and useful purposes in the maharajah's palace. Out of the rhinoceros hide he has by a process of his own manufactured some beautiful tables, whips, letter racks, card trays, inkstands and so on. They are semi-transparent, of the color of amber, and, while taking a brilliant polish, show, in some cases, the grain of the skin through the smooth, level surface. -London News.

# Give Them a Chance!

That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is. Not only the larger air passages, but the thousands of little tubes and

cavities leading from them. When these are clogged and choked with matter, which ought not to be there, your lungs cannot half dotheir work. And what

they do they cannot do well. Call it cold, cough, croup, pneumonia catarrh, consumption of any of the family of throat and nose and head and lung obstructions, all are bad. All ought to be got rid of. There is just one sure way to get rid of them. That is to take Boschee's German Syrup, which any druggist will sell you at 75 cents a bottle. Even if everything else has failed you, you may depend upon this for certain.

# The Way to Say It.

"Which am de properest way to suppress ones self? Does yer say, "We eated at the table," or "we has dun ate at de table?" asked one Texas darkey of another, they being engaged in a grammatical discussion. As they could not agree the question was was referred to Uncle Mose for his decision, which was :

"In de case ob you two niggahs none ob you am right."

"What am de proper way to say: "We eated at de table," Uncle Mose?" "De properest way for sich cattle as you two am : 'We fed at de troft.' "

# Are You Going to Travel.

Don't forget a supply of Dr. Fowler's Extract of Wild Strawberry. It is superior remedy for sea sickness, and a positive cure for all bowel complaints induced by bad water, change of diet, or of climate. Whether at home or abroad, it should be kept at hand in case of emergency.

# A Cure for Drunkenness.

Opium, morphine, chloral, tobacco, and kindred habits. The medicine may be given in tea or coffee without the knowledge of the person taking it if so desired. Send 6c in stamps, for book and testimonials from those who have been cured, Address M.V. Lubon, 46 Wellington St. East, Toronto, Ont. Cut this out for future reference. When writing mention this paper.

# He Kept Still.

"Didn't you pay fare twice," asked a Cass avenue car conductor as he returned to an old man at the front of the car. "Yes, sir."

"Why didn't you say you had paid when came the second time." "Oh, I bilked this road of a ride about three months ago, and I thought you had found it out."

Great Gain. "I used a great deal of doctor's medicine for kidney complaint during five years; was getting worse until I tried B.B.B. I took three bottles, gained in weight from 130 to 159 lbs. I can highly recommend Burdock Blood Bitters to be a good medicire." Thus testifies John Walton, of Springfield, N.B.

# from victorious battle. They have no sin, not through a revelation, save the revelation of the scars, that deep lettering which brings it.

# Dr. J. Collis Browne's Chlorodyne.

THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS—If you wish to obtain quiet, refreshing sleep, free from headache relief from pain and anguish to calm and assuage the weary achings of protracted disease, invigorating the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff) to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis and Asth

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dy

sentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache Menngitis, &c. From Symnes & Co., Pharmaceutical Chemists, Medical Hail, Simla, Jan. 5, 1880. To J. T. Davenport, Esq., 33 Great Russell Street, Bloomsbury, London. Dear Sir,-We embrace this op-

portunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr.J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility we-must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy that their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Brownes Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera, Diarrhea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of the pinion that the substitution of of any other than Collis Browne's is a DELIBERATE BREACH OF FARTH ON THE PART OF THE CHEMIST, TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Symes & Co., Members of the Pharmacy Society of Great Britain. His Excellency the Viceroy's Chemists. CAUTION-Vice Chancellor Sir Page Wood stated that Dr. J. Collis Brownewas undoubt-

edly the inventor of Chlorodyne that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to. -See "Times," July 13, 1864. Sold in bottles at 1s. 11d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "DR. J. Collis Browne's Chlorodyne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION-Beware of Piracy and Imitation. Sole Manufacturer, J. T. DAVENPORT, 33 Great Russell Street, Bloomsbury, London Eng. Aug. 9.
