The Advantages of Morse's Carbolated Cod

is believed that the not unfrequent and discouraging failures of plain Cod Liver Oil and consumption, grow out of the fact they have no positive power to arrest the decay of the lungs. that while Cod Liver Oil supplies the waste of adipose tissue and vitality that the disease has made, as no other known substance can, it does not exercise any controlling power over the discase itself; it only gives Nature a fair chance to work her own cure. Something more is wanted SOMETHING TO ARREST THE DECAY THAT DESTROYS LIFE—some prompt reme dial agent that shall act directly upon the disease to check it while the Cod Liver Oil is building up the system. This important addition we have in Morse's Carbolated Cod Liver Oil. The power of Carbolic Acid—to arrest decaysomething marvelous. The destruction of

matter cannot proceed where it is administered. its disinfectant, purifying and cleansing properties are truly remarkable, and have been of the greatest practical value to medical mon. It is palatable, and now put up in bottles colding a full pint. Price, \$1. Formula on
