

The Advantages of Morse's Carbolated Cod Liver Oil.

It is believed that the not unfrequent and discouraging failures of plain Cod Liver Oil and other tonic and, alterative treatment to cure onsumption, grow out of the fact they have no positive power to arrest the decay of the lungs; that while Cod Liver Oil supplies the waste of pose tissue and vitality that the disease has made, as no other known substance can, it does not exercise any controlling power over the discase itself; it only gives Nature a fair chance to work her own care.
