YOUNG PEOPLE AT WORK.

ANNUAL MEETING OF THE METHO-DIST MISSION BAND.

Women's . Work Among the Heathens-A Field Day Near Westport With a Present For An Evangelist-The Induction of a Pastor at Chalmers' Church To-

The Methodist mission band held its annual meeting yesterday afternoon. The weather did not prevent the enthusiastic members from putting in an appearance. The band works in conjunction with the Woman's missionary society, an organization of five years' growth. The band is composed of young ladies who find it more congenial to work together than with the society, which is controlled by ladies of mature years. During the past year the band has done good work and collected \$125, half of which is devoted to the support of a native Japanese bible woman, Mrs. Murati, of Tokio. This lady works among her own sex. The membership of the band is about forty and this year a large increase is expected. The organization has monthly meetings, convened in the Third . Methodist church. It was gratifying to the young mission workers to know that they had increased the contributions for the year some twenty-five per cent. The officers for the next year are : President—Miss Sarah Lavell.

First Vice-President - Miss Lizzie Chown. Second Vice-President - Miss Violet Woods.

Secretary-Miss Lillie Phillips. Treasurer - Miss Hattie McRossie. A committee of management works in conjunction with the officers and at the next meeting plans for the coming winter's

work will be made.

The band, and the mother society, care for the woman's work of Methodist evangelization. They look after orphanages at Morley, N.W.T., and Fort Simpson, B.C., and devote attention to work in Quebec and Japan. The annual meeting of the local branch of the Woman's missionary society will be held in Sydenham street church on Friday. The members are in a position now to announce a large increase in the year's subscriptions. The women of Canada have been aiming at \$15,000 for the year and this is generally expected to be the result of the work for the past twelve months.

CHALMERS' NEW PASTOR.

A short Sketch Given of the Congregation and its Future Minister.

The church of which Rev. Malcolm Ma Gillivray to be inducted pastor to night has been in existance since /1844. By the split in the Church of Scotland a great many Kingstonians formed a different sect and held services in Ontario hall. Rev. Mr. Hamilton, of Scotland, was called, but he no sooner reached here than another, split occurred, resulting in the formation of Cooke's and Chalmers' churches. The Chalmers congregation remained in Ontario hall with Rev. Dr. Burns, the present moderator of the general assembly, as the first pastor. It was during his ministry that Chalmers church was erected. Rev. Mr. Pierce succeeded Dr. Burns, who was called to St. Catharines, but his ministry was of short duration. The Rev. Patrick Gray was called and for upwards of seventeen years ministered faithfully. In 1876 he died, beloved by his own congregation and by every citizen in Kingston. In 1877 Rev. F. McCuaig was called and continued to officiate until last spring. Rev. Mr. McGillivary, the pastor elect, is about forty-two years of age and of Scottish parentage. His parents removed to the Southern States first and then to Collingwood, where part of the family still reside. In 1868 Mr. McGillivary entered Queen's college. He graduated in 1872 and continued for two years more in the theological halls. He finished his studies at Edinburgh, and, returning to Ontario in 1875, was called to Scarboro, where he ministered for five years. He was next translated to Perth where he lived six years. He is an energetic minister and fearless and outspoken against the evils of the day. He is married having a family of four children.

A FIELD MEETING.

The Girl Evangelists on the Stand-A Young Man Leaves it Amid Sorrow.

A field meeting was held last Sunday in the Blair settlement, about two miles from Westport, under the leadership of Mr. H. C. Dunsmore, of Seaforth, one of Rev. D. Savage's band of evangelists. A large crowd was in attendance, over 700 people being present at the afternoon service. Pointed addresses were given by Mr. Dunsmore, the Misses Mason and Birdsell, the girl evange fists, and the Revs. Ross and Emerson, of Westport. At the close of the afternoon service Mr. Dunsmore was presented with a purse of \$28, raised by subscription by the people of the neighborhood as a token of appreciation for his labors for their good. During his three weeks' stay among them he endeared himself to all. It was with feelings of sincere regret, that they parted with eim. His services were blessed and many souls were led to the Master. His sermons are earnest, pointed and practical, and he bids fair to take his stand among the leading evangelists of the day. He goes to Amherst Island to work there with Rev. G. S. White.

ONE AT A TIME.

The Electric Light to Bloom Forth Soon The City Must Not Purchase Now. "When will the electric light be in use, inquired a reporter of a director of the

"Oh, in about two weeks," was the re-

"But you have been saying that all sum-

mer," remonstrated the scribe. "Well, it is a sure go off this time," was the answer. "We are putting up the lamps now, and the city will be illuminated by fair week at the very latest.'

Touching the proposed arbitration for the purchase of the works it is hardly probable that it will proceed. The people are not at all desirous of purchasing the plant at the present time. "If the company has a losing job," said one citizen, "the best thing the city can do is to keep them to it. They were exceedingly anxious to go on with it." Another person spoken to agrees that until the system is shown to be a per-fect success the city must have nothing to do with it. Five years from now will be soon enough to touch it. By that time the water works system will be well on the way to perfection.

Dominion Business College. Mr. J. B. McKay, who has been absent in the east during the summer months, in the interest of the Dominion business college, returned to the city this morning. He reports that as a result of his labours over 300 students will attend the college during the winter. This afternoon Mr. McKay left the city again to represent the college at the Gananoque, Unionville, Ortawa and Almonte fairs.

LOCAL BREVITIES

Postponement. The Hotel Dieu excursion has been postponed owing to the rain until Wednesday

afternoon at 1:30 o'clock. Make Sure.

When your grocer advertises or pretends to sell you granulated sugar cheap, see that you get 14 pounds of the very best granulated for \$1, the same as you can buy at Henderson's.

A Cadet Promoted.

The Imperial Gazette's notices include the following from the war office : "Gentleman Cadet Arthur L. P. Davis, from the Royal military college, Kingston, Canada, to be second lieutenant,"

Shipping Animals Away.

Yesterday the steamers Maud and Pierrepont carried upwards of one hundred head of cattle and many fine horses, to Cape Vincent. The shortness of the hay and grain crop has caused the sale of stock. Held Up in Toronto.

Yesterday W. J. Smeaton, Napanec, while walking on Front street in the neighborhood of the parliament buildings, Toronto, was held up by a couple of footpads, who took from him his gold watch and pocketbook, containing checks and money.

Some Remedy Needed.

The school board should provide walks to the Central school. "My children came home last night," said a citizen, "with mud to their knees. They had to wade through it to the back door of the building and then sit all the afternoon with damp feet."

Portsmouth Goes Backward.

The registration of deaths for the village of Portsmouth for the present year shows a total of 42 up to the present time. The month of May showing the largest number, thirteen, and January the smallest, three. The population is 800; thirty years ago it was over 900.

Students Egginning to Arrive.

The following new students have entered the Dominion business college since Septem ber 1st: R. E. Watson, Perth; W. M. Allen, Ballantyne; M. Dunn, Newburg Miss M. Hillier, Odessa; W. Kerr and J Kirk, Kingston; T. Oliver, Allan's Mills and Miss A. Marshall, St. Mary's.

Teachers in Training.

The model class, for the benefit of non-professional teachers, opened this morning in the Central school. There were twenty one in attendance. Several more are expected. Regular work begins to-merrow. Miss Nerva Macdonald will act as the principal's assistant during the term.

The Service Proceeds.

The ceremony of laying the corner stone at Sharbott Lake to-day, by B. W. Folger, was not postponed on account of the weather. The dinner and speeches were to be given in the deserted railroad hotel. About thirty Kingstonians attended, going out on the noon train. They return on a special this evening.

At the Prison Congress.

At the prison congress a discussion occur red on a system of registration and identification, of habitual criminals, when Dr. Lavell said a judge never asked for a warden's opinion as to a prisoner's guilt. He did not think the proposed system workable, as courts did not call on the prison authorities for any assistance in the conviction of pri-

Raised Again.

The "monopolists" raised the price of sugar again on Saturday, but it still remains the same at Henderson's. Granulated 14 pounds for \$1, and pure bright Porto Rico 17 pounds for \$1, and to-morrow we expect to introduce extra bright English refined sugar at the same low figure, and 20 pounds of darker sugar for \$1. Don't forget the place, Henderson's Brock street.

The Smallest Ever Seen. This afternoon the Gananoque carriage works company shipped to the Industrial exhibition, Toronto, the smallest pair of ponies in Canada. A pretty little carriage, little bigger than a perambulator will be drawn by the mites. The ponies are four years old, weigh 135 fts, each, and stand 32 inches high. They originally belonged to Prof. Crocker, the horse trainer, and were purchased by a Kingstonian who sold them to the Gananoque firm.

Meeting of the Council.

At a regular meeting of the Portsmouth council, held last evening, a communication was read from Rev. F. W. Dobbs respecting the sanitary condition of the village. After a discussion as to the proper parties to take it up it was moved that it be referred to the local board of health. The presentation of the estimates, postponed from last month, was again put off until nextineeting. the collector not having returned his roll for the past year.

The Barley Market.

At Chicago, Milwaukee No. 2 barley of 49 lbs (which is equal to 50 lbs imp. Canada) is being largely received at 70c. Millions of bushels have already been sold and large offers are being made for future delivery, and it now looks as though Canadian barley under 45 lbs will not be required for malting, as the western is turning out very heavy. It will be seen by the above that early selling is the duty of every farmer, as the western crop is being sold so rapidly and freely that barley of a poorer grade will be unable to find a market.

In Memoriam. The late Mrs. Francis Twiss, who died yesterday afternoon, had been ailing for the past few weeks with inflammation of the bowels. The deceased lady was born in the county of Tipperary, Ireland, 49 years ago. She has lived in Kingston for the past

seventeen years, and in that time made many warm acquaintances. She was a dutiful wife and a kind mother, and her loving words of encouragement will be missed by a family of small children. Mr. Twiss and his family have the heartfelt sympathy of a large circle of acquaintances, who deeply deplore the sad event.

"Please Don't Ask Me."

The "carry-me-upstairs" christian received considerable attention from Rev. S. G. Bland on Sunday. They were looked upon as mere children, as persons, who, instead of feeding themselves, were always being fed by others, and still had a sickly puny existonce. What the church wanted was energetic, stalwart christians, who were ready to do the work set before them. Another poor class of christians was the big healthy husbands, who turned over the religious training of the children to their little wives and expected them to do all the praying for the family. Mr. Bland expects a revival in the Queen street Methodist church this year, but not if only two or three are called on to do the work. Every christian in the church should take his stand as a centre of light.

FLOWER BLOOMS AGAIN.

ROSWELL RETURNS FROM EUROPE -YARN OF BUFFALO BILL.

Treasures for the Art Museum-America is the Best Country to Live in-A Pretty Rough Passage-Looking as Hearty as Any Man Could Desire.

New York Herald.

There were a good many evidences about the White Star steamship Celtic, when she steamed alongside her pier Saturday after noon that the sea had been treating her with little consideration. Her smokestack looked rusty and was covered with salt deposit, and much of the paint on her nose and along her sides had been washed off.

As the passengers came down the bridge and once more got their feet on something substantial they wore happy expressions, and more than one of them declared that he would never go to Europe again until the transatlantic bridge is built.

"Yes, we had some pretty rough weather," quoth Roswell P. Flower, who had been making an extended tour of England and the continent in company with his wife and her sister, the widow of Judge William Schley, of Georgia.

"We left Queenstown on Sept. 1st, and for the first five days had a succession of pretty severe storms. Nearly everybody was laid up, and bodily comfort was out of the question. The Celtic behaved herself splendidly however. Big as she is she rode the waves like a duck, and took comparatively little water aboard. Since leaving the banks of Newfoundland the water has been as smooth as a board."

MR, FLOWER BLOOMS AGAIN, Mr. Flower looked as hearty and as happy as though the high seas had not bothered him to any great extent. He was arrayed in what might have passed for a homespun suit of clothes and wore the only tall white hat to be seen on the pier.

"You want to know something of my trip abroad, eh ! Well, it was a good deal like all other trips. We left here about five months ago and went direct to Naples, then to Rome, and from there worked our way back to France and England by easy stages. The weather everywhere was delightful, and I really pitied you tolks here when I heard that you were sweltering under a sun that sent the mercury up to the nineties. In Rome the average temperature during the day was from 75 to 78 degrees. and at night heavy blankets were necessary to keep out the cold. I did not meet Mr. Blaine anywhere, but I did see Mr. Depew in London for a few minutes, and he seemed to be having a royal good time.

"No, I did not call on the Honorable Mr. Cody, replied Mr. Flower, with a twinkle in his eyes, to the reporter's query.

BUFFELO BILL.

"He was altogether too busy receiving the attention of princes, dukes, duchesses and lords to have time to devote any attention to me, so I did not bother. By the way, that reminds me of a story I heard about Cody which I have never seen in print and which comes from too good authority to be untrue. It happened when Buffalo Bill was a scout under General Sherman. A band of scouts was reconnoiting one day when they ran across a good sized party of semi-hostile Indians. The chief of the aborigines had hit upon a new mode of warfare and wanted to fight man to man single-handed.

"White man call himself heap brave. Me, big Injun, dare any one of him to fight me alone, proposed the feather bedecked

" I'm your man, responded Cody, with

out a moment's hesitation. "Before any remonstrance could be offered the two were at it hot and heavy, and in ten minutes the red man was stretched out on the prairie grass as dead as a door stoop. That is only one of the many incidents that have given Buffalo Bill his well earned reputation for bravery.

SOME ART TREASURES. "Is it true that you have purchased some valuable works of art in Europe, as report-

"Oh, I bought a few little bits for my house, but nothing worthy of special mention. My sister in law, Mrs. Judge Schley, got a few treasures which she proposes to present to the Metropolitan Museum of Art if they are acceptable. One of them is a handsome painting called "The Egg Gatherer," from the brush of Glisenti, a talented young Italian artist, and another is a fine specimen of the old-fashioned eight-day clock. It came from Monmouthshire, England, and is valued at \$2,000. It has a quaintly carved case and is in a splendid state of preservation.

Mr. Flower insisted that his return at this time had no political significance whatever. "I am out of politics," he averred, "and only take such interest in it as any citizen ought to. I shall, of course, do what I can to promote the success of the democratic ticket, whatever it may be. After all, this country is the only one to live in, and a trip abroad only serves to make a man a better citizen. He sees a good many things, to be sure, that would help to improve this country, and therefore gets ideas in his head which can be made to prove advantageous to his fellow countrymen.'

VALUABLE TEAM STOLEN.

A Pair of Horses, Buggy and Harness Disappears From Prince Edward.

A team of chestnut horses was stolen from Stephen Doolittle's farm in Ameliasburg on Saturday night. One of the horses belonged to his son, but the buggy and harness and one horse was the property of the father, who is lying dangerously ill. Two young men named Ainsworth and Babcock are suspected of being the guilty parties. Ainsworth was formerly on a farm in Sidney, afterwards going to Colborne and finally to his home in Allisonville. He was at Ferry Point Saturday afternoon with Bab. cock, Ainsworth was seen driving through the village of Rednerville that night with a man named Weese, while Babcock stopped with his brother, Hubbel Babcock, and it can be proved, it is said, that he left his brother's during the night returning before daylight. It is thought whoever stole the team drove around by Trenton and through to Kingston, taking the early boat there in the morning for the Cape. The value of the rig was about \$400. Enquiry at the ferry wharf elicits the fact that no such team crossed over from here.

The Late John McKay, Sr.

Last evening John McKay, sr., father of Ald. John McKay, died at his residence, Gore street. The deceased gentlemen was confined to his bed for several months the result of general debility. He was seventyeight years of age, a native of Breechin, Forfarshire, Scotland, and over forty-five years ago settled in Kingston. He was for many years in business here and made a name for himself for honesty and integrity. For a long period he filled the position of precentor of Chalmers' church. He was identified with the reform party and an energetic campaigner. One son and six daughters survive him.

M. J. Lyons has been appointed accountant in the office of B. M. Britton, Q.C.

So confident is President Stearns that the Detroits will win the league championship that he has already arranged to play two games with the St. Louis Browns for the

championship of the world. A member of the Kingston base ball team stated last evening that the cause of the weakness of the team was due to insufficient practice. There was not a paid team in Canada or United States conducted in the same careless way as the Kingstons.

The local base ball teams will be invited to go to Ottawa during the holding of the provincial fair and compete for a purse of \$75. Nothing less than a guarantee will tempt the managers to visit Ottawa.

Syracuse Standard: "Negotiations are pending with Mickey Jones, the pitcher of Hamiltons, who has been such a terror to the Stars. The negotiations will probably prove successful, and, it so, that terror at least will not pitch against the Stars again.

The players of the St. Louis club, which was called to play with the Cuban Giants, a noted coloured club, at West Farm, near New York, have refused to do so. President Von der Ahe acquiesced in this decision although all arrangements for the match had been perfected. This is the first time in the history of base-ball that the coloured line has been withdrawn.
