A BIG WIG IS SURPRISED.

The Cunards After Him For Crookedness—Accounting of Thousands Wanted.

NEW YORK, Oct. 21.—C. J. Franklyn has been arrested on the complaint of his cousin, Sir Bache Cunard, of England. Mr. Franklyn is president of the Horn Silver mining company, in which much of the wealth of the Cunards is invested. Four years ago there appeared upon the books of the company a loan of \$650,000. The stockholders have repeatedly tried to find out what this loan represented, but no explanation was ever given. It is supposed the money was advanced by the company to Franklyn. Failing to get any accounting of the matter, or any explanation of why a once largely paying property had been crippled by taking from it so large an amount of money the Cunards apparently concluded that their only recourse was the law. When Franklyn retired from the agency of the Cunard line he was supposed to be worth \$2,000,000. With T. G. Brown he went into the Horn Silver mining company which at first paid large dividends, and it is understood that it was through his representations that the money of the Cunards was put into the company. It was at the cottage of Mr. Franklyn at Ellerton that President Garfield died.

CHIEF JUSTICE WALLBRIDGE DEAD.

A Man of Varied Talents and Experiences—The Rise in His Profession.

WINNIPEG, Oct. 21.—Chief Justice Wallbridge died yesterday. He had been a sufferer for several days from kidney disease. He was born in Belleville in Nov., 1816, was educated in Montreal and at the Upper Canada college, Toronto, and studied with J. H. Sampson and Hon. Robert Baldwin. He was called to the bar in 1839, rose in his profession, and was soon recognized as a man of great ability. In 1857 he was elected for South Hastings. He cast his lot with the reform party. In 1861 he was re-elected. Under the John Sanfield Macdonald administration in 1863 he took office as solicitor general. In 1864 he was elected speaker. His vote alone kept his party in power. This dead lock brought about the provincial conference and confederation in 1867. He was the first speaker in the new house at Ottawa. In 1867 he retired from public life, but in 1875 he accepted the conservative nomination against Col. Brown and was defeated. At the time of his appointment as chief justice of Manitoba, in 1882, he had the largest practice in Belleville. Mr. Wallbridge was a member of the Church of England, he was annually elected to the synod.

A MURDEROUS ASSAULT.

Crazed By Drink Sully P. Werden Stabs George Jeffrey With a Sheath Knife.

PICTON, Oct. 20.—Excitement was occasioned in town on Saturday when it became known that George Jeffrey, butcher, had been severely stabbed by Sully P. Werden, of Athol. He was under the influence of liquor, very noisy, and used abusive language towards Mr. Jeffrey. The latter expostulated and requested him to leave the shop. A scuffle ensued, Werden being thrown to the floor. Upon rising he took from his pocket a sheath knife six inches in length, and sharp as a razor, and directed a blow at Jeffrey, cutting through the top of the left ear, and extending down the cheek to the chin, inflicting a wound frightful to look at. Werden made a hasty retreat, but was arrested.

A preliminary examination of Werden was held Thurs-day. Jeffrey was too ill to appear, and the case was adjourned for eight days.

Graham, while en route from New York, was brought before United States commissioner Spain yesterday for examination. Dougherty also swore he saw the chief engineer strike Graham with an iron bar. Graham was naked to the waist at the time and he (witness) could smell the man's flesh burning from the coals heaped on his back by McCullough. The commissioner held the prisoner in \$5,000 to appear for trial.

LOSS OF THE CALIFORNIA.

Survivors Will be Examined—Capt. Dick Puzzled About The Accident.

The steamboat commissioners will take the Kingston survivors of the California to Toronto for examination as soon as practicable. They are in hopes that the hull of the lost steamer will be raised before they give their final decision. If she can be raised an examination will show whether she was lost through bad seamanship or through some defect in her hull. "The loss of the California," said Capt. Dick, inspector of hulls, "is a mystery to me. I cannot understand how a vessel could drift to windward and founder in water in which small boats could live. I believe the disaster occurred by the shifting of the cargo, as I see no shifting boards were used in stowing it."

In the Baltimore court Brother Azarias, was declared innocent of immoral conduct in the Baltimore divorce suit.

CHARLESTON, W. Va., Oct. 21.—Shortly before noon yesterday the fast express on the Chesapeake and Ohio railroad, with six coaches, going west, met with an accident twelve miles below this city, in which 26 passengers were more or less injured, several seriously.
