In common colds and influenza, the Pills, taken internally, and the Ointment rubbed over the chest and throat, are exceedingly efficacious. When influenza is epidemic, this treatment is the easiest, safest, and surest. Holloway's Pills purify the blood, remove all obstacles to its free circulation through the lungs, relieve the over-gorged air tubes, and render res piration free, without reducing the strength irritating the nerves, or depressing the spirits; such are the ready means of saving suffering when anyone afflicted with colds, coughs, bronchitis, and other chest complaints, by which so many persons are seriously and permanently afflicted in most countries.
