WHAT SHALL WE WEAR?

POPULAR SUITS FOR BOYS FROM 4 TO 10 YEARS OLD.

Novelties Introduced in Both Gold and Silver Jewelry-A Long Cloak

that Affords Extra Warmth and Is Be-

coming to Stout Figures. The long dolman mantle, a front and back view of which is here illustrated, is one of the popular models in long cloaks this season, and is especially becoming and desirable to ladies with stout figures, as well as elderly ladies who require extra warm wraps.

The model from which the cut was made was an imported garment of black plush. It was wadded and quilted with satin of the same color. Rich passementerie and stripes of feather trimming, one of which is put round the upright collar to look like fringe, give the mantle a very elegant appearance. The boa trimming in front is made of a feather stripe five and a half inches wide, sewn together at the edges. The loose eleven inches long ends of the latter, like the pointed ends of the sleeves, are caught into cornets of passementerie seven and a quarter inches long, and finished with chenille fringe five and a half inches deep. The under sleeve, which is joined to the upper one inside, keeps the arms warm, while the lower loose parts of the dolman sleeves are turned under to give a pointed end, and this is caught into the passementerie cornet already mentioned. These

Novelties in Jewelry.

pointed sleeves are decidedly pleasing, having

the effect of making the wearer appear taller

than : he is.

In the novelties brought out is apparent the tendency to the employment of combination of metals in the decoration of both gold and silver jewelry; the continued use of fine enamels in all directions; the association of beautifully colored stones, whether precious or not; the increased popularity of the English brooch; the acceptance of the silver deposit process in the decoration of various classes of articles, and the association of oxidized silver and gold in personal ornaments.

The very newest thing in hair pins are exidized silver ones, on the tops of which sometimes appear knobs of gold, sometimes alternate knots and cords of gold and silver, and sometimes the silver top is inlaid with little gold designs representing bugs, flowers or other objects.

This association of oxidized silver and gold is also introduced in new bracelets, the bracelet proper being of silver inlaid with gold, and mounted with a gold or silver coin as best suits the fancy of the buyer. These bracelets, by the by, afford a pleasing manner in which to preserve antique coins or valued pocket pieces.

Some exceedingly pretty things are out in both gold and silver filigree. Conspicuous among the former are ear rings and brooch consisting of flat circles of gold filigree, set here and there with small but fine brilliants.

A decided novelty in silver jewelry is a cluster of flowers with their leaves, forming quite a large spray, and designed as garniture for the coiffure or corsage, as may be desired.

Recent importations of Genoa filigree afford some entirely new patterns in siver jewelry. The conventional gondola, mandolin and tambourine now divide favor with modern designs popular in gold jewelry. The flower pins in silver filigree are very beautiful in effect, especially those that show centers of gold.

Birds' Plumage for Dress Garniture. The desire for trimmings of bird plumage is growing in London, Paris and Berlin. In the latter city swansdown in all colors is being used instead of lace on ball dresses. Mrs. "Bonanza" Mackay has decided to possess a cloak made from the breasts of the birds of paradise. The breast is nearly heart shape, the upper portion being like the finest plush of a deep seal brown color, while the lower shades are of a pink terra cotta. The cloak will require about 500 of these beautiful birds, and to secure them Mrs. Mackay has sent two skillful marksmen direct to New Guinea, who are now engaged in the wholesale slaughter. Imitations of this costly mantle will be hard to manufacture.

New Suits for Boys. The "Primer Kilt," shown in the cut, is for boys from 2 to 6 years of age.

POPULAR SUITS FOR BOYS.

This very convenient garment is made in one piece, the jacket and kilt being attached. It is not only most attractive, but has the merit of being quickly put on, and is not easily disarranged:

The remaining figure in the cut represents the "Thistle" suit, and is designed for boys from 4 to 12 years of age, or until they become too large for knickerbockers. Tho jacket buttons close to the neck, and has a circular collar and narrow corded side seam plaitings with a half belt in the back.

The First Steam Ram.

The first ironclad steam rams used in warfare by the United States were constructed upon the Mississippi by James B. Eads, the civil engineer.

ALL AROUND THE HOUSE.

Fashionable Table Linen-How to Carve a l'ine, Fat Goose-Pure Candies.

French table linen appears to be the most fashionable just now, though Scotch, Irish and German cloths are all found in the finest goods. Two favorite patterns are the Pompeiian and the pois Medina. The center of the first is filled in with large square blocks, and the border surrounding it is of triangles. The second is composed of medium sized balls and a border of larger balls, around which are twined myrtle leaves. Another much used pattern is the Caprice, which has a perfectly plain center and is surrounded by large flowers. One of the most expensive patterns is the Hirondelles. This linen is beautifully marked. The border is a design of rocks out of which are growing cattails, while in the center are small swallows. The birds are exquisitely wrought. The feathers on their wings are so true to nature as to stand out in a fluffy mass. The cost of a set of these, including a tablecloth and a dozen napkins, reaches \$100,

Almost all the cloths have large center pieces. In some instances the linen is embroidered. A late craze is for cipher monograms, and much linen is embroidered in that way. French cloths differ from the other sorts in heing of much lighter texture and more elaborate decoration.

. What to Do With Cold Plum Pudding.

The remains of plum pudding are sometimes broiled in slices, sometimes converted into fritters. A more elegant way of serving them is the following suggested by Mrs. Henderson. Line a charlotte mold or basin with slices of cold plum pudding cut to fit closely together. Fill the inside with a sufficient quantity of gelatine pudding made as follows: Separate the whites and yelks of four eggs; with the yelks make a boiled custard (with a pint of milk and sugar to taste); set a third of a box of gelatine to soak a few minutes in a little cold water, then dissolve it with threequarters of a cupful of boiling water. When the custard has cooled, add the gelatine water and the whites of the eggs beaten to a stiff froth; flavor with vanilla, stir all together and put it into the mold. It will settle into three layers and is a very pretty pudding.

New Year's Cake.

An excellent New Year's cake may be made by the following nut cake recipe of Miss Parloa: One cupful of sugar, half a cupful of butter, half a cupful of milk, two cupfuls of pastry flour, two eggs, one coffee cupful of chopped raisins, one of chopped English walnuts, one teaspoonful of cream of tartar, half a teaspoonful of soda. Beat the butter to a cream, add the sugar, gradually, and, when light, the eggs well beaten, then the milk and the flour in which the soda and cream of tartar (or a teaspoonful and a half of baking powder instead) have been thoroughly mixed. Mix quickly and add the raisins and nuts. Bake in rather deep sheets in a moderate oven thirty five minutes.

Carving the Goose,

The goose may be considered the popular and traditional fowl of the holiday season as the turkey is of Thanksgiving. Many people suppose that the two birds are carved in the same manner, but Good Housekeeping explains that the goose requires more strength and skill and a different method of carving. from any other fowl.

TO CARVE A GOOSE.

The approved plan is to place the goose on the platter with the head at the left and insert the fork firmly across the ridge of the breast bone. Cut through the flesh where the wing joins the body, work the point of the knife into the joint and with the side of the knife press the wing over from the body and cut until the joint separates. Then cut through the flesh and separate it from the body. Cut between the leg and the body, press the leg over with the side of the knife till you see the joint. Then cut through the flesh close to the body. If the bird be old and tough you will have to feel with the

knife for the joint. In carving the breast begin at the wing and cut straight down through the meat to the bone the whole length of the breast as indicated by the long lines of the cut. Cut down in thin parallel slices until you come to the ridge of the breast bone. Cut down between the wishbone and the breast to the wing, then slip the knife under the slices at the lower end of the breast, and separate them from the bones. Lay them aside and cut in the same manner on the other side of the breast. Make several cuts at right angles with the breast bone through the skin and stuffing between breast and tail, and remove the stuffing.

With the fork still in the breast bone tip the bird over slightly and with the point of the knife remove the delicate portion in the hollow of the side bone; a little may be shaved off the lower edge of the side bone. The little meat there may be on wishbone, shoulder blade and side bone may be cut off without disjointing the bones. So, as soon as the breast is carved, remove the fork, disjoint the legs and wings and begin to serve.

Cake for Children.

A kneaded plum cake is much liked by children, and is included by many books in the list of holiday good things. The ingredients are two and one half caps of sugar, half a cup of butter, half a cup of sour milk, two spoonfuls of cream, a teaspoonful of saleratus, half a spoonful of cinnamon and of nutmeg, a cupful of chopped raisins, and about six cupfuls of flour, or sufficient to knead. Roll out an inch thick, cut into oblong pieces, and bake in a quick oven.

Home Made Candies.

Home candy making, though not confined to the holiday season, is generally carried on then with the most vigor. Recipes for a few of the most popular plain candies are therefore given:

Butter Taffy .- Two cups sugar, one cup water, two tablespoons of molasses, four tablespoons of vinegar, one and a half tablespoons of butter. Boil twenty or thirty minutes and pour in buttered tins.

Vinegar Candy. - Three cups of sugar, half a cup of water, two-thirds cup of vinegar. Boil without stirring till brittle. Lemon Drops, -Dissolve half a pound of pulverized sugar in lemon juice and boil to a

warm place. Ice Cream Candy.-Two cups sugar, half a cup of water. When boiling add a teaspoon of cream of tartar dissolved in a little water. Boil ten minutes without stirring, then add a small piece of butter and boil till it will

thin syrup. Drop on plates and harden in a

harden in water, then flavor and pull. Butter Scotch.-Three tablespoons of molasses, two tablespoons of sugar, two tablespoons of water, one tablespoon of butter, a little soda before taking from stove. Nut Candy.-Five cups sugar, six table-

spoous of water, four tablespoonfuls vinegar, one tablespoonful butter. Boil without stirring till it crisps in cold water. Line buttered tins with nut meats an I pour the candy over them. When nearly cold mark off into drift
