THE YEAR'S IMMIGRATION.

A Very Large Increase Over Proceeding Years Printed at the Capital.

OTTAWA, Jan. 30.-Hon. Mr. Chapleau expects to effect a saving of about \$90,000 by having the voters' lists for the whole Dominion printed in Ottawa instead of in the various constituencies, as was done in 1881. That the task of resetting the list is a very considerable one may be gathered from the fact that about 1,000,000 names have to be set, and to each name has to be added the voter's qualification, residence, postoffice, address and other particulars required by the Franchise Act. In the temporary office in St. Patrick-street, which will be used pending the completion of the printing bureau, between forty and fifty printers will be employed, and it is estimated that it will take very nearly a year to get the list set up, revised and corrected. A sufficiently large plant will be purchased to set all the lists, and the matter will be kept standing, which will reduce the cost of correcting the lists after each revision to a minimum.

There was a meeting of Council this afternoon, at which, it was understood, fishers matters were discussed, but nothing has transpired except that Prof. Geo. M. Dawson of the Geological Survey will leave for Washing ton to-night on business connected with Alaska. Dr. Dawson was engaged this summer on a survey in the Yukon district, and his departure for Washington is regarded as indicating that the question of the boundary between British Columbia and Alaska is being considered by the commission.

Chancellor Boyd, C. E. Gregory, Q.C., and T. C. Keefer, C.E., the arbitrators appointed to enquire into the claims of the Canadian Pacific Railway with reference to the western section of the road, including the Onderdonk contract, will meet here on Wednesday for the purpose of organizing, and will probably commence taking evidence shortly.

The Railway Committee of the Privy Council will meet to-morrow morning, when the first case taken up will be that of the crossing of the Canadian Pacific Railway track in Quebec by the Quebec, Montmorency and Charlevoix Railway.

The immigration statistics for last year have not yet been finally made up by the Depart ment of Agriculture, but they are sufficiently advanced to leave no doubt that the increase has been very large. From correspondence received by the department the present indications are that the increase during the present year will be even greater.

The Department of Railways and Canals has been advised that the snow blockade on the Intercolonial was raised on Saturday and passenger trains are running regularly. Ocean bound traffic is reaching Halifax in large quantities owing to the transfer of the Allans' business from Portland to that port on account of a dispute with the Grand Trunk Railway. It is being hurried as rapidly as possible, and the delays have not amounted to anything outside of the output of coal, which has increased in such large quantities that this could not be avoided. At the Spring Hill mine alone 1800 tons a day is being mined. which is an excess of about 300 tons. This coal finds its way as far west as Brockville, but the greater bulk of it is consumed in Montreal.

Among the results brought about by the proposed changes in the management of the Post office Department will be the promotion of Mr. Smithson, formerly assistant accountant, to the accountantship; of Mr. Matthewson, assistant superintendent of the Savings Bank, to the superintendency, and of Mr. Everett, assistant superintendent of the money order branch, to the superintendency thereof. The positions previously held by these gentlemen, all three of whom are excellent and painstaking officials, will be abolished. With a favorable consolidation of the work the Postmaster-General confidently expects to do away with the necessity. for some time at least, of adding . the staff from ten to twelve clerks every year. The new machinery will be less complicated and the departmental work will be carried through with even greater despatch.

A Curious and Valuable Book.

Perhaps the most singular curiosity in the book world is a volume that belongs to the family of the Prince de Ligne, and is now in France. It is entitled "The Passion of Christ," and is neither written nor printed. Every letter of the text is cut out of a leaf. and, being interleaved with blue paper, is as easily read as the best print. The labor and patience bestowed upon its composition must have been excessive, especially when the precision and the minuteness of the letters are considered. The general execution in every respect is indeed admirable, and the vellum is of the most delicate and costly kind. Rudolph II, of Germany, offered for it in 1640 11,000 ducats, which was probably equal to 60,000 at this day. The most remarkable circumstance connected with this literary treasure is that it bears the royal arms of England; but when it was in that country, and by whom owned, has never been ascertained. -The Bookworm.

Witches in the Cream.

A most peculiar case of superstition exists in York township, O. A well known farmer named Milar has always kept a fine lot of cows and made a great deal of most excellent butter. Of late years he has had what he terms it, "Witches in the cream," giving himself and family a great deal of trouble and great loss. It happens about every two weeks when they put the cream in the churn it begins foaming over the top and refuses to gather. No amount of churning has any effect toward gathering the butter, and the cream is taken out and thrown far away. The family attributes the trouble to witches brought on through the agency of a woman in the neighborhood through spite. It is a strange case. - Chicago Herald.

CENTRAL BANK AFFAIRS.

YESTERDAY'S DEVELOPMENTS OF A RATHER QUIET NATURE.

Those Star Chamber Proceedings-Mr. E. S. Cox Leaves Cleveland David Blain at Avon Springs, N.Y .- "The Judge" Returns to Town.

TORONTO, Jan. 31.-Mr. Bain and Air. Campbell agent considerable time in the master's profite room yesterday morning. and after the conference the reporters were allowed to see the master's book, in which this memorandum was written :

MASTER'S OFFICE, Jan. 33, 1888. Mr. John Bain, Q. C., attends with Mr. Campbell as provisional liquidator. He states that the account has been prepared according to the usual practice of tellers in banks. He proposes to file the same and asks leave to look further into the accounts as to an alleged imperfection in the accounts which he finds has crept into the statement. After further discussion Mr. Bain contends that the liquidators have no right to acquire these accounts to be brought in, and that I have no jurisdiction to order the accounts to be brought in and filed by the provisional liquidator. Mr. Foster was present at a persion of these proceedings.

At 3.15 p.m. Mr. Campbell handed in to the Master an amended copy of the accounts of the Central Bank and a statement of all the transactions made by him as interim liquidator from Dec; 21 up to last Tuesday, the day of the filing of the retition for his removal. The Master said he would look over the accounts before allowing the reporters access to them. Mr. J. R. Roaf's examination was not pro-

ceeded with further yesterday. Special Examiner J. Bruce will commence at I o'clock to-morrow afternoon at his chambers in the Court House examination of a number of witnesses on behalf of Mr. Campbell in connection with the petition. They are R. H. Bethune, A. C. Over, J. I. Brodie, S. Trees, H. P. Dwight. J. P. Kilfedder, A. B. Order. F. V. Philpott, W. Wallace, C. S. Millichamp and E. Buchan.

A statement of the bank's assets would be about as welcome a document as the liquidators could present at the present time. The interested parties are dying of anxiety to see how the plundered estate will pan out.

E. S. Cox Leaves Cleveland.

CLEVELAND, O., Jan. 30. - The despatch from this city printed in The Toronto Mail of today does Mr. E. S. Cox a manifest injustice. The interview telegraphed from this city and printed in The Toronto World is about all that transpired between Mr. Cax and the Cleveland reporters. The clerks at the Weddell House said to me to-day that Mr. Cox has never been out at night after 10 o'clock, that he never bought ordrank a bottle of wine in the hotel and that the story about his cutting a swell in Euclid-avenue with a fast horse and fancy cutter is no falsehood.

Mr, F. H. Brunell, sporting editor of The Cleveland Plaindealer, who was in Toronto last summer during the ball season, was the person who recognized Mr. Cox in the corridor of the Weddell House. Mr. Cox attracted little attention about the hotel outside of the fact that he worea rich sealskin coat which he brought with him from Toronto. He spont his time quietly around the hotel and was not mixed up with any crowd of young swells, as alleged in The Mail despatch.

Mr. Cox left the city this morning, but he dia not say where he was going, but it is thought he went to Cincinnati. He said again that he would return to Toronto shortly,

President Blain at Avon Springs.

BUFFALO, Jan. 30. - David Blain, President of the defunct Central Bank of Canada, who was registered at the Tiftt House in this city for several days, has gone to Avon Springs, near Rochester. These springs are noted for their medicinal properties.

"The Judge" Returns to Town.

When Grand Trunk mixed No. 24 came into Union Station at 12.29 this morning from Hamilton the first man to step off was C. K. Humphries, alias "The Judge." To a reporter Mr. Humphries said he had merely been to Buffalo arranging a little business. "I left Toronto in daylight," he said, "and I would have returned to it in daylight had the train brought me quick enough."

Bank Disclosures.

From The Montreal Herald, Jan. 30, The proceedings before the Ontario courts in the Central Bank matter indicate several things and suggest others. It appears that several of the persons concerned in that institution have gone to the United States in search of better health, and the shareholders are left to search for traces of their money and the paths through which it disappeared. Judging by what has already been made known there seems to be a probability of further interesting disclosures being made. Mr. Campbell, one of the liquidators of the Central Bank, was a liquidator of the Exchange Bank in this city, and what has already transpired leads to the belief that, if asked in proper form, he could be able to throw more light on the affairs of that unfortunate institution. While the case is still before the courts it would be improper to offer any opinion as to the trustworthiness or otherwise of the several person's concerned in its management and liquidation, but if the developments continue as they have begun, the propriety of opening up the affairs of the Exchange Bank, with such light upon them as may be gained from other quarters, will clearly be in order.

Candidates for N.S. Auglican Bishopric. HALIFAX, Jan. 30.—The Anglican Synod of Nova Scotia meets again on Wednesday to make another attempt to elect a new bishop. It is understood that Rev. Dr. John Langtry. rector of St. Luke's Church, Toronto, and Rev. Pr. Courtney, rector of Trinity Church, Boston, will be candidates for the vacancy.

Ah Fat Hung.

VICTORIA, B.C., Jan. 30.-Ah Fat, found guilty at the Fall Assizes of the murder of the Chinese woman, Chuey Whey, was hanged this morning at 8 o'clock in the provincial jail yard. He declared his innocence of the crime and said he was prepared to meet his death. Death was instantaneous.

A Much-Married Man Arrested. FERGUS FALLS, Minn., Jan. 30. - John Wilkins and one of his six wives were arrested and are being taken back to St. Paul yesterday.

Oshawa Councillors Resign. OSHAWA, Jan. 30.—The three councillors, who were reported as being disqualified have resigned.

The Laprairie Contested Election.

MONTREAL, Jan. 30.—The Laprairie contested election case was continued to-day, when the proceedings for disqualification of Hon. Jas. McShane were commenced. Several carters. farmers and laborers testified to their having been paid for voting. Mr. McShane was not present during the whole day and Judge Loranger issued a rule against him.

Russian Troops Continue to Advance. LONDON, Jan. 30. - Galician papers confirm the reports of continued movements of Russian trange towards the Apperion frontier.

MANITOBA AFFAIRS.

Conservatives' Regard For Mr. Greenway -The Provincial Books-The Blockade.

WINNIPEG, Jan. 30.—The indications now are that Premier Greenway will be returned unopposed. The Conservatives say that when Rogers was nominated they understood it was for the general election. A convention will be held to reconsider his nomination.

John McDonald and Alex. Moffatt, two expert accountants, have been appointed to make the rough audit of the books of the province and ascertain just how deep in the mire are the provincial finances,

Mr. Greenway left for home to organize the Mountain campaign. He will be banqueted at Manitou on Wednesday.

A Regina despatch says Robt, Doull, ex-M.P. for Picton, N.S., will likely receive the appointment of Senator for the Northwest. He has a large ranch in that district.

The C.P.R. has stopped receiving through shipments of wheat owing to the blockade on the Eastern Division.

A Medicine Hat special says: Wm. Gobbet started ploughing to-day. Fine spring weather. Thermometer 60 above.

GUELPH BANK SUSPENDED. The Federal Pulls Down a Private Con-

cern in the Royal City. GUELPH, Jan. 30.—The Guelph Banking Company, a private bank conducted by W. H. Cutten, suspended payment here today. The failure is a consequence of the withdrawal of the Federal Bank from business, as the Federal usually re-discounted for Mr. Cutten's bank.

The first intimation of difficulty was given when a check on the Federal to one Fitzsim mons, a depositor of "The Guelph," was refused for want of funds. On payment being demanded at "The Guelph," the same reply in substance was given.

The Halton Contest.

GEORGETOWN, Jan. 30.-Mr. McLeod, the Reform candidate, is going to poll a very large vote in this town and vicinity. Every kind of trick is resorted to by his opponents to have him defeated, but Mr. McLeol is personally popular here and he is going to poll a strong Conservative vote. So for he has held meetings at Glenwilliams and Norval, and to-night he holds one at that old stronghold, Brookville, Nassagaweya. Conservatives in this vicinity are becoming discouraged. A. F. Campbell of The Brampton Conservator, who fell into disrepute among Haltonians in a former contest for a misstatement at a public meeting at Acton regarding Peel License Commissioners, spoke at a Conservative meeting here on Friday night. The hall was little more than half full, and the meeting was one of the dullest ever held in a Halton campaign. Reformers are rallying and are bound to make Henderson's defeat a most decisive one.

Another Fish Question.

WASHINGTON, Jan. 30.—The Treasury 1) partment has overruled the action of tue Collector of Customs at Burlington, Vt., ix assessing duty at the rate of lc per pound on certain fresh fish caught in an arm of Lake Champlain, imported into his district in barrels and then sent to Boston and New York for market. The collector explained that, while none of the importations exceeded 1000 pounds, they were sufficiently large in-his opinion to raise a doubt of their being intended for immediate consumption. The department held, however, that the quantity was too small to justify any doubt on the subject. The collector was, therefore, instructed to readjust the entries exacted.

Against Sir Adolphe.

OTTAWA, Jan. 30. - Mr. Joseph Martin, who was Sir Adolphe Caron's opponent in Qui bec County at the last Dominion election, to day had papers served on Sir Adolphe in connection with the penal action which is being brought by an elector of the county against the Minister for personal bribery. Mr. Martin claims to have documentary evidence over Sir Adolphe's own signature sufficient to sustain the action taken. He has also completed arrangements for hearing by the Supreme Court of the appeal from the decision of Judge Caron dismissing the petition against the Minister of Militia because of the expiration of six months.

Accident on the L. S. and M. S.

CHICAGO, Jan. 30.-A freight train on the Lake Shore and Michigan Southern-Railway went through a culvert near Pine Station, Ind., this morning. Brakeman Coder was buried in the ruins. While workmen were searching for his body a lantern ignited naphtha which had been poured over the wreck from a 3500gallon tank on the rear car. Fire engines were sent from Chicago to extinguish the conflagration which followed. Two or three men were badly burned by the naphtha explosion.

Printer Clark Is Bead.

St. Louis, Jan. 30.-George Clark, who served three terms as president of the International Typographical Union, died Saturday of pneumonia. He was born in Scotland, March 12, 1837, and has lived in St. Louis since 1857.

Troy Furnaces Banked.

TROY, N.Y., Jan. 30.—The blast furnaces of the Troy Steel and Iron Company were banked to-day, the employes having refused to accept a 10 per cent. reduction of wages, About 3000 employes are out of work.

Ice-Locked Vessels.

WASHINGTON, Jan. 30.-There are upwards of fifty vessels in the ice near Nantucket and from Great Point to Tuckernuck shoals. Most of them will be wrecked unless prompt assistance is rendered when the ice breaks up. Killed by His Son.

WATERVILLE, Me., Jan. 30, -Edward Wentworth, aged 40, was shot and killed last night by his son. The shooting occurred in a struggle over a revolver with which Wentworth was threatening to shoot his wife.

he Northwest Cold Spell Broken. WINNIPEG, Jan. 30. - The cold weather that

has continued for so long a period has been broken. A Big Failure at Trenton. The failure of Smith & Bryson, who car-

ried on an extensive dry-goods and grocery business at Trenton, is announced. The liabilities are large and the assets insignificant. Although the firm has only been established in business for about two years it practically controlled the local trade in its line by slaughtering goods. One of the firm, Mr. Bryson, has disappeared.

the Population Increased Steadily. The Toronto Mail has an article on the expansion of business in the industrial cen-

tres of Ontario, and of Kingston says: "Entitled to the distinction of being the oldest manufacturing centre in Ontario, it will be readily understood that, so far as the erection of additional buildings to those works already in operation, or the starting into operation of a number of new enterprises during the past year, Kingston has not such noticeable facts and figures to record as have her younger sister manufacturing centres, but an unusually large number of residences and stores were added to the city, its constantly increasing population readily securing tenants for them. Additional work was carried out in connection with the harbour, a large amount of rock having been removed from Point Frederick shoal, and a large amount of money expend ed in the completion of the work connected with the penitentiary."
