The packet ship Britannia Nerpoolshall, has arrived belowe first September, whence she sailed ce our London advices By this const of August, and Liverpool to are to the office of August, and Liverpool to are to the office of Sailing. Copious extracts will

of English news, there is next to none It was stated in the London papers of Aug. 26. from Liverpool, that letters from the United States had been received, countermanding all the unexecuted orders for the shipment of gold to this country. The previous large demands for gold, however, had caused the Bank to curtail its issues, and money had in consequence become

A dreadful catastrophe occurred off the Dawns, on the morning of Aug. 27th:— The Camelion, a very large revenue cutter, was lying to, about half a mile from the shore, when the Castor frigate, coming from the Downs to Portsmouth, ran her down, with twenty-nine men below, every one of whom were drowned. Perhaps more extraordinary accident never occur-d. It was broad-day light. The frigate must have had the cutter in full sight for seven miles, and she bore straight upon her, under top-gallant sails going with a spanking northerly breeze, from twelve to four-teen knots an hour, took the cutter full midships, and drove her to the bottom in an in-stant, with scarcely a should to herself— Three hands on the deck of the cutter leaped overboard and were saved. An express was sent to the Admiral in the Downs, who came to Dover post, and took the commander of the frigate into custody, where he must remain till a court martial Most of the men in the cutter were asleep in their berths, having just Three Folkestone men were drowned on the preceding eveming, coming from the Downs Regetta, making a loss of thirty lives.

The crops throughout Great Britain and

Ireland, are represented to have come in

An appendix has been added to the Quadruple Treaty, in consequence of the return of Don Carlos to Spain. The precise stipulations of the new articles are not known.

A serious riot occurred at Chatham, Eng. 21st, among the privates of the 88th (Irish) About thirty were wounded .-On the following day, an affray occurred between a party of the same regiment and some sailors, in which several of the latter regiment. were severely wounded.

O'Connell, the agitator, is again stirring up excitement in Ireland. A pretext had leen afforded for another address to the people of Ireland, by meetings of the Con-

servative or Orange party in Dublin.
Serious riots have lately taken place in different parts of Ireland. At Ballynanty a constable was killed with a stone by one of the rioters, and the windows of the Court House were broken in At Callan the police were obliged to fire upon the mob, kill ed, one man, and wounded two others dan-

gerously.
The cholera had been very bad at Dublin, but was on the decline. It had also very much abated at Madrid; the number of deaths being about 20 per day. The whole number of deaths by cholera at Gottenburg was 1255. On the 15th of August there were 140 interprets and it is added. there were 140 interments, and it is added hundreds still remained uninterred for The disease had broken want of graves." out at Wenersburg and Borrs.

port beyond that amount might produce embarrassment and difficulty in the money market The total export will net, it is thought exceed 800,000 sovereigns.

Probincial Briracts.

From the Toronto Recorder. Never perhaps in the recollection of the ldest inhabitant of Upper Canada, has an Election been more strongly contested that this present one for our city, as will be seen by a reference to the state of each day. The excitement in consequence, is great beyond precedent, and mercantile affairs nearly at a stand; we believe that "The Recorder," was the only paper published regularly this week, most of the offices being altogether closed. This circumstance alone will shew the extreme The excitement in consequer anxiety manifested by the friends of either party. We understand that strong ober party. We understand that strong objections have been made by Mr. Jarvis to a number of the votes given for Mr. Small, which can only be adjudicated by a close and searching scrutiny, which will e hear, he resorted to.

Our city has frequently since the com-nencement of the Election, been the scene of the most disgraceful disorder, and we regret to add, that one man, named Byrne has unfortunately lost his life. On Wed nesday night, between eight and nine o'clock, a number of the very lowest of the mob, armed with bludgeons of the most deadly description, sallied forth from their haunts of debauchery, and commenced an indiscriminate attack upon the "Jarvis men," or those who might be supposed to belong to his party, shouting and hurraing for "Small."—It has appeared in evidence before George Duggan, Esq. Coroner, that the constables endeavoured to oner, that the constables endeavoured to quell the rioting, and that the unfortunate Byrnes was an active leader of the mob, armed with a heavy stick, covered for the greater part with an eet skin! which was produced at the Inquest. It also appeared that an Axe had been made use of by some one of the contending parties, and it is thought, that the deceased came by his leath from a blow inflicted by some such weapon, as upon an examination of the body it was found "that the fumeral artery was cut across, and that the great effusion of blood, was of itself sufficient to cause death."—It was proved by some of the witnesses examined, that on the deceased leaving his house, about 9 o'clock, ne was heard to say, accompanied with the most impious imprecations, that he would be the death of two of them (meaning his opponents) with his own arm at any rate. It also appeared, that his now bereaved widow, clung to him, beseeching of him n piteous accents not to go out; he broke from her last grasp; and in a few moments afterwards was a corpse. Byrne appeared from the commencement of the tion to be in a continued state of insobrie

ty, and quarrelsome in the extreme. Such was the state of confusion for hour or two in our streets-and such the alarm occasioned by this riotous and most disorderly mob, that the Grenadier and Light Companies of the 15th Regiment of foot were called out, and were under arms until about two o'clock in the morning, on the lower end of Front-street, near the guard house, and under the most drenching rain. The Constables, however, aided and assisted by a number of citizens, completely succeeded in dispersing the rioters and clearing the streets. We have but little doubt, that the rumour of the troops being sent for, aided not a little to the restoration of the peace of our city, while it gave a stimulus to the exertions of the Civil Authorities. The character of the 15th Regt. tands high, and the mob well knew, that f called upon to act. they would do, as they ever have done-their duty-but no more. Inowing them as we do, we can trust them with the protection of our lives and properties whenever they are obliged to be called upon, being fully convinced that nothing but the most urgent necessity will ever cause them to be brought in contact with the people—who, alas! but too often are urged on to deeds of violence and of blood, by their being so frequently assured, that "the voice of the people is the only legitimate source of power," to which revolutionary doctrine we never have, we never can, subscribe; -it savours too much of Tom

Paine's theory.

The following is the verdict rendered by the Jury who sat on the body of Byrne (or Burns): 24 witnesses being examined. On the evidence of two of them we could dilate, if at all necessary so to do at this moment; it was of a most extraordinary nature in-

"We find that the deceased, Patrick Burns, (or Byrn) came to his death in consequence of a wound inflicted with a sharp instrument on his arm, by some person or persons unknown.

"James Mathers,
Foreman

Foreman."

DREADFUL ACCIDENT .-- On Sunday last, as Mr. Hollister, of the Sheriff's office, and Mr. Tiers, were driving through King street, in a gig, the shafts became separated from the body of the vehicle, and the horse, a very spirited animal, taking fright, ran away, throwing both of the gentlemen, with great violence, out of the gig. We regret to say that Mr. Tiers had his leg land to Buffalo. oken, and was otherwise severely injured; Hollister was seriously cut in the head and face, hesides receiving some inter-nal injury. We are happy, however, to state that both gentlemen are pronounced out of danger .- [ib.]

The Choleran was a solution of the Stans, and advices from New York, by the packets which women. A black man was greatly injured.—[Phil. U. S. Gazette.]

The Choleran we rejoice that are able to state that this fearful disease at last almost entirely disappeared; and the same and the cloth dressing the cloth dressing the same and the cloth dressing the cloth d

few months. Taking it altogether, we esteem it one of the most useful and extensive try, which the enterprising proprietors most richly deserve. The place already contains two stores, having respectable assortments of goods, and several mechanick shops, of various kinds. A good public house is much wanted, near the centre of business, there being none except at a distance of half or three-fourths of a mile. It is expected the steam-boat now building on the Grand river, will run as far down as this place, daily, by

Allanburg is situated at the lower end of the deep cut, on the direct road from Lun-dy's lane to St. John's, short hills, in the midst of a populous and wealthy neighbour-hood, and at the point where the stage road crosses, from St. Catherines to Port Robinson, (at the upper end of the deep cut,) which runs daily, to meet the steam-boat Caroline, for Buffalo.

[British American Journal.]

From the Cobourg Star.

Phipotts, left Toronto on the 10th inst. on a tour to the back Townships and Lakes of the Newcastle District.

11th, Landing at Port Hope on the evening of the same day, His Excellency proceeded through Hope, to Graham's Inn, Cavan, and early next morning through Monaghan to Peterboro'. The remainder of the day was spent in viewing this rapidly increasing and flourishing town and neighbourhood. The beauty of the situation—an elevated plain on the banks of the Otonabee, studded with neat villas and the more solid essentials to the wealth of a settlement, Mills and Machinery—added to the activity & enterprise which seemed to pervade the whole, appeared to afford much gratification to his Excellency.

12th, On Thursday, His Excellency and suite, accompanied by the Hon. T. A. Stewart and Alexander McDonell, Esq. Government Agent at Peterborough, proceeded, under the guidance of the latter, on the tour to the Lakes.

After inspecting the Indian village at Chemong Lake, there meeting the Indians, his Excellency and suite proceeded in canoes to the rapids at the foot of Buckhorn lake. The improvements now being carried into execution by John Hall, Esq. late of Peterborough, will induce settlers to visit this hitherto isolated part. A stone dam is now being constructed, on which will be raised a bridge connecting the Townships of Harvey and Smith.

13th, Returning to the Indian Village, on the day following his Excellency proceeded by way of Pigeon Lake to the rapids at Bobcaygean, and after viewing the public works, passed the night at the shore of Sturgeon Lake.

On the 14th, the party proceeded through Sturgeon Lake, visiting the settlements on its banks, to Cameron's Falls.

With the romantic beauty of the village site at the Fall, His Excellency and the whole party were much pleased. It is scarcely too much to anticipate the not distant period, when its claims in this respect, will draw many a gay tourist to the spot. Of the natural advantages of the situation, its proprietors, Messrs. Jameison and Wallace, are pr

to avail themselves, having now in rapid course of execution, extensive mills, a large substantial building for a Hotel, &c.

On the 15th, His Excellency proceeded through Cameron and Balsam Lakes, to the Portage which leads from the latter to the Talbot river flowing into Lake Simcoe, and after examining the Portage as far as the Talbot, returned to the Falls.

We have the high gratification of noticing the deep impression which the extraordinary capabilities of this chain of waters, their fine scenery, the extensive improvements on their shores, and the favorable character of the country, appeared to make on His Excellency. We anticipate the best results from the visit with which our District has been favored, and the more so, from the unwearied and vigilant attention of Sir John Colborne to every thing which came under his notice. We understand from good authority that very extensive plans, tending to open the resources of this fine country, are under his Excellency's consideration—and we again congratulate the inhabitants that their interests are in the hands of a Governor who permits no personal considerations of inconvenience or fatigue to interfere with his anxious Governor who permits no personal considerations of inconvenience or fatigue to interfere with his anxious desire to promote their welfare.

16th, From the Falls his Excellency returned by

16th, From the Falls his Excellency returned by way of Harvey, visiting the farm of R. Madge, Esq. on Manetow Lake, where he passed the night, and arrived at Peterborough on the following day. It is 17th, The party, under an escent of our yeomanry, cavalry, and many respectable gentlemen of the town and vicinity, took the route through the township of Otonabee to the Indian village on the Rice Lake, where they were saluted with three rounds from the fusils of the Indians, under the command of their chief Pawtawche. His Excellency then went on board the steam boat for Bewdley, from whence he proceeded, we understand, direct by land to Toronto.

Welland Canal Office. St. Catherines, June 30, 1834 At this time the Canal is in good order

the accumulating business.

Dunvil le (Grand River.) has been established, forming a connection with a line of coaches from Niagara Falls, (a distance of ceedings of the body from time to time only six miles,) St. Catherines, (eight miles,) and Niagara, (twelve miles,) and a steam boat by the way of the river Wel-

The tolls have nearly doubled those to the same period last year. The following list taken from the official returns, will show the sum total of the main articles which have passed through the Canal since the called for the dispatch of business commencement of navigation the present Number of Schooners

kinds of vineers, with a circular saw-all in Gross of the Carrying Place. a forward state. A fine grist-mill, of two run of stones, for flouring and country work generally, is also in progress adjoining the above, and will be ready for business in a few months. Taking it altogether, we can few months. Taking it altogether, we can be considered to the carelessness of the care is attributable to the carelessness of the young man, arising doubtless from his description.—[Hallowell Free Press.]

We mentioned in the Free Press of Septeem it one of the most useful and extensive establishments in the province; and cannot fail, we trust and believe, of meeting that encouragement and support from the country, which the enterprising proprietors most ray, which the enterprising proprietors most excellent sermon from the Rev. M. Mar-cus, 53 young persons received confirma-tion from the hands of the venerable prelate. His Lordship delivered an appropriate exhortation, and the service concluded Divine service was also performed in the afternoon, and an impressive discourse was preached by the Rev. Mr. Lockhart. His Lordship was escorted to the Church, by a procession composed of the High Sheriff, the clergy, and several of our most respec table inhabitants.

We must not omit to notice, that the la-

dies of the congregation have united in a liberal subscription, and furnished the pul-pit, reading desk, and alter, with a most beautiful suit of crimson velvet drapery, and the whole interior of the sacred edifice presents an appearance very different to that of former days. The Bishop express-ed himself much pleased with it, and complimented the congregation, by pronouncing their singing equal to any that he had heard in the Province.—[Ib.]

While passing through the Riviere du Chene a few days ago, we saw a most ex-traordinary case of fracture of the skull, which we believe to be somewhat unpre-cedented in medical annals. A young boy of about eight years of age, the son of a man named Tremblay, was amusing himsel with several older companions, in climbing trees on the bank of the river, and had reached a height of at least twenty feet, when his hands lost their hold, and he was precipitated to the bed of the river, which of solid rock. The frontal bone was com pletely dislodged from its position, and driven down upon the nose, the parietal bones separated, and a large circular cavity of about six inches in circumference, left open, displayed the brain, (some of which has been discharged) and the regular pulsations of which were distinctly visible. The child was surviving when we saw it, on the fith day, and had been speaking a few minutes before we visited it. The boy was under efore we visited it. the medical care of Dr. O'Dog though the recovery was of course hopeless, we have not heard the final result.—[Montreal Gazette.

A fatal accident occurred on Friday the 19th ultimo, upon the banks of the Lievre river, within the township of Buckingham, A young man of the name of Macphee, aged about twenty, who had been engaged in assisting to raise a new frame house, was suddenly felled to the ground by a large, log, which slipped from the hands of those who were holding it, falling across his body. Dr. Leman, the only medical man within the township, was unfortunately absent, and did not return till the succeed ing day, when medical assistance was found of little avail. Several of the ribs were broken, and numerous internal injuries ascertained. The young man died on the Sunday morning following, much regretted.—ib.

We understand that the officers of the Customs at this port, have received instrucble Board of Customs, that salted Beef and Pork, imported into Canada from the Unied States of America, by inland navigation is admissible duty free, upon exportation into any British Colony in North America, or the West Indies, and that a communication to that effect has been sent to the Board of Trade in this city.—[Mon. Herald.]

From the Quebec Gazette, Oct. 8.

It is currently said that the Gener Election will take place immediately; the pear in an early number of the official pa and that the Provincial Legislature will called for the dispatch of business as ea as the return of the election writs will mit. which, it is said, cannot occur he ever, before the second week of Janua We believe there is every appe ance that this rumour will be con

ance that this rumour will be confirmed
It is stated on the authority of seve
private letters from London, and on inf
mation from sources very likely to be w
informed, that a decision had been adop
at the Colonial Office to pay the Civil O
cers of the Province. This was to be de these letters say, out of the Military Che
