TO CAPITALISTS.

VALUABLE PROPERTY FOR SALE.

ON the FIRST day of AUGUST, 1827, between the hours of TWELVE o'clock, A. M. and TWO o'clock, P. M. will be sold, by Public Auction, to the highest bidder, at Kingston, in the Province of Upper Canada,

THE MARMORA IRON WORKS.

These works are situated in the Township of Marmora, in the County of Hastings, in the Midland District of the said Province, and are esteemed one of the most valuable properties in the foundry line, in British North America; and one, it is considered, which cannot fail, under proper management, to realize to a purchaser, profits seldom arising to Capitalists from other investments of Capital.

These works (in the establishment of which, upwards of thirty thousand pounds sterling have been expended) consist of two Furnaces, the one capable of yielding two tons, and the other one ton of Iron in the twenty four hours, with the necessary buildings connected therewith;—a Forge for the manufacture of Bar Iron, with four Pines and two Hammers, a Saw Mill, Flour Mill, Bark Mill and Tannery, all supplied with water, of which there is an abundant supply.—Carriage works and Blacksmith's Shops, well provided with the necessary tools—Baking House, and fourteen very comfortable Dwelling Houses, three of which are well suited for Taverns or large families, with

2,500 ACRES OF LAND,

In the said Township, surrounding the works—and 8534 acres in the adjoining Township of Belmont, in the New-Castle District, for which a deed in fee will be given, and upon which are inexhaustible mines of Ore, generally of a good quality, with 1500 acres of Land granted conditionally in perpetuity to the Government, as fuel reserves, the condition being, that the works are never permitted to cease, three successive years.

The distance at present, at which the Works are supplied with Charcoal, is between two and three miles—the Lake Ore is brought by water, five miles—and other Ore is full to be employed in the making of good Iron, is brought by land, a distance of six miles.—Ore of the purest quality known in the British Provinces, may be had at an unfixed expense of mining, within a few hundred yards of the Works, mixed with which, is yellow ochre, red earth, and black lead in great quantities.

These Works are established on Crow River, a mile below the Crow Lake—this River, interrupted by many large rapids, connects with the River Trent—the distance by land to the North of the Trent, the head of navigation, is 31 miles.

The limits of an advertisement will not admit of an enumeration of the many advantages of this property, neither is it the purpose of the proprietor, by any exaggerated statement, to induce persons desirous to purchase, to trust to his representation, and save the trouble of personal inspection.

That it is at least equal to the representation here made of it—any persons viewing plans of the Works left at the different advertising offices in London, Liverpool, New York, Philadelphia, Montreal, and Kingston, will be satisfied, added to which, this circumstance is of consideration, that the Works are sufficient to supply the Province of Upper Canada with Bar Iron and Iron Ware, and at a price much lower than they can be brought from the Lower Province.

The object in selling, is to fulfil the conditions upon which this property was placed in the hands of the present proprietor, namely, to pay over the proceeds to the creditors of Mr. Charles Hayes, the original proprietor, such sale being demanded by the majority, in amount of debts of the said creditors.—For further information, application to be made to Messrs. GOULD, DOWIE & Co. in London, Mr. MANAHAN, at the Works, or to the subscriber in Montreal.
