To James Mellen, Hudson, N. Y.

In the spring of 1818, Mr. Eleazer Harris, a man in very indigent circumstances, and who had laboured for me occasionally formore than a year, was violently seized with an affection of the lungs, accompanied by a tight dry cough, frequently unable to raise any thing for nearly half an hour, and then, most commonly, blood. His cough was so severe and incessant, that he soon became much emactated, his eyes glassy, and his strength left him to that degree that he was wolly unable to labour. Compassionating his situation, a friend of mine and myself procured for him one bottle of Anderson's Cough Drops, by th use of which, in about three weeks (to my astonishment) he was so far restored as to be able to perform his usual labour.
