

FOR CAPITALISTS ONLY. INTERESTING SALE

SEALED Proposals will be received for the purchase of the Lands and Hydraulic Situations on the entire line of the Welland Canal...

THE LANDED PROPERTY CONSISTS First—Of 4 acres of land at Dunville (Grand River dam) on which a Grist Mill, Carding Machine, and three Saw Mills, are now erected on lease...

Second—15,000 acres adjoining the Canal, in Wainfleet and Humberstone. This land is situated on either side of the canal, and is the richest soil in this part of the country...

Third—6 acres at and below the Aqueduct over the Welland river. Fourth—75 acres at Robinson, on which a town plot is laid, and some lots sold. It is a commanding situation, at the junction of the canal with the Welland; having that river navigable for 30 miles above, and 9 1/2 below, where it intersects the Niagara...

Fifth—70 acres at Allanburgh, (foot of the deep cut), on which a Saw Mill is now erected. This will also be a commanding situation, from the Hydraulic power it possesses; being the first fall where the water can be used for the purposes of Machinery, and afterwards brought into a lower level of the canal...

Sixth—100 acres at the Reservoir near the Village of Thorold. There is a Grist Mill, containing four run of stone, erected in this place, (the mill will be on the line of the canal actually disposed of) and two Saw Mills are building.

There are likewise in operation—Saw Mill, containing two saws, near Centreville; a Grist and Saw Mill, Fall Factory, Turning Lathes, and a Saw Mill at Port Dalhousie, a Dry Dock, for repairing Vessels, is also erected at the 2d lock from the Harbour.

As this is unquestionably the most extensive and important sale ever offered, of a site in this description, in the western part of America, no individual of company will propose to purchase without a personal examination; it is, therefore, only necessary to give a brief outline of the advantages of which it is possessed.

HYDRAULIC SITUATIONS. The Niagara peninsula, which separates Lakes Erie and Ontario, is composed of two table lands; the one extending from Lake Erie to the mountain ridge, running in a line from Niagara falls as far up as Patterson's creek, (Long Point), a distance of 90 miles, including the townships of Bertie, Willoughby, Drowland, Humberstone, Wainfleet, Moulton, Cambridge, and Westport, and on the opposite side of the Welland river, Stamford, Thorold, Pelham, Caistor, Gainsborough, and Binbrooke. The second table land, below the mountain ridge, continues from Niagara to Dundas creek, a distance of about 60 miles, comprising the townships of Niagara, Grantham, Louth Clinton, Grimsby, Saltfleet, and part of Barton.

The river Welland being almost a dead level, and running parallel with Lake Erie through nearly the centre of this peninsula, there is not a single stream affording a continual or steady supply of water for an extensive Flouring establishment, within the territory above described, except the Grand river. It is bounded by the Niagara river on the east side, and by Patterson's creek, a tributary of Burlington bay, on the other, both of which are durable streams, of considerable power.

The western country above this to a great distance, and the American side opposite, are likewise destitute of water privileges, to any extent; and this is the nearest and most convenient point to which their merchants and traders can resort for manufacturing purposes, on a scale commensurate to their wants. It is not necessary, however, to take so extended a view of the advantages and importance of the Hydraulic power on the line of this canal, as the interest and most convenient point to which their merchants and traders can resort for manufacturing purposes, on a scale commensurate to their wants.

DISTRICT OF NEWCASTLE. To Wit. ORDERED by the Magistrates, in General Quarter Sessions of the Peace, assembled in October last; that, in consequence of the Grand Jury, at the late Assizes for this District, having presented the Goal and Court House as insufficient and insecure, and not being adequate for the purposes for which it was originally designed, the Magistrates will take the same into their consideration at their next General Quarter Sessions of the Peace, and adopt such measures as they may be deemed expedient.

By order of the Board of Directors. Welland Canal Office. Wm. H. MERRITT, Agent. St. Catharines, Dec. 8, 1830.

NOTICE is hereby given, by order of His Excellency the Lieutenant Governor in Council; that in lieu of the Settlement Duties heretofore exacted, the following Settlement Duties shall be required in respect of all Locations made after this date, viz—

The Locatee shall clear thoroughly the half of the Road in width, opposite to the front of his lot, by burning or totally removing all the timber wood and under-wood of every kind therefrom. He shall cut down the stumps for the space of ten feet from the centre of the Road, so low, that a wagon wheel may easily pass over any thing that stands within that space, and he shall sow with grass seed the Road so cleared.

Upon proof that this has been done, and that some person has been constantly resident upon the lot for the space of two years, a patent may issue without other condition of Settlement Duty—But in cases where the lot has not been so occupied, a patent shall not issue until the Locatee, in addition to the Road Duties, above described, shall have fully cleared the timber from the front of his lot for the space of one chain.

If proof of Settlement Duties, as above required, with, or without residence, be not produced to the surveyor General within two years and a half, the lot shall be again open to Location.

It is further ordered, that the above regulation shall not interfere with the order in council of 14th May, 1830, which applies exclusively to discharged soldiers, and respect to whom, the period of residence is hereby appointed to be three years, instead of five, as prescribed by that order.

And further, that in respect to all Locations made before this date, the Locatee shall have the option of performing the Settlement Duties either according to this regulation, or to the regulations which were in force before the making of this order.

Lastly, it is ordered, that where a Grantee has a grant more than one lot in a township, and resides upon one of them, the Settlement Duties in respect to those lots, on which he does not reside, shall conform to the order in council of 14th May, 1830, and the clearing the chain in front of the lot, as above mentioned.

Coughs, Asthmas, and Consumptions.

THE Public are respectfully informed that ANDERSON'S COUGH DROPS and PECTORAL POWDERS prepared by James Mellen, & Co. have from an extensive use for 10 years past, proved themselves to be one of the most valuable remedies ever yet discovered, for the cure of Coughs, Colds and other affections of the Breast and Lungs leading to Consumptions. Thousands have experienced the happy effects of this Healing Balsam, and many of the highest respectability have voluntarily given certificates, some of which will accompany each Bottle, that will satisfy every unprejudiced mind that the most extraordinary and unexpected cures have been performed by the use of this medicine in cases of long standing, in which other medicine had produced no favourable effects, and where the most skillful physicians had given them up as hopeless. It is not pretended that they are an infallible cure in all cases, but of such as are incurable, there are but few cases of Coughs or even seated Consumptions but may be relieved by a timely use of this Healing Balsam. Each Dollar Bottle contains about 70 Doses, which proves them to be a cheap Medicine not considering their virtues.

New Certificates. To James Mellen, Hudson, N. Y. In the spring of 1818, Mr. Eleazer Harris, a man in very indigent circumstances, and who had laboured for me occasionally for more than a year, was violently seized with an affection of the lungs, accompanied by a tight dry cough, frequently unable to raise any thing for nearly half an hour, and then, most commonly, blood. His cough was so severe and incessant, that he soon became much emaciated, his eyes glossy, and his strength left him to that degree that he was wholly unable to labour. Compassionating his situation, a friend of mine and myself procured for him one bottle of Anderson's Cough Drops, and a few days use of which, in about three weeks to my astonishment he was so far restored as to be able to perform his usual labour.

GAUIS STEBBINS. Hillsdale, Feb. 19, 1828. I Robert Kidney, of Rochester, Monroe County, N. Y. do hereby certify that for a long time I was reduced by an affection of the Lungs, attended with pain in the breast, difficulty of breathing, &c. that my life was despaired of and given up as incurable by a council of five Physicians, but by the advice of Doct. G. Hitchcock, of Rochester, was induced to make trial of one of Anderson's Cough Drops, and using one bottle was restored to perfect health. I would therefore recommend all those afflicted with a similar complaint, to make use of the same remedy, as I am perfectly satisfied that it saved my life. ROBERT KIDNEY. Rochester, March 11, 1828.

CAUTION. BEWARE OF COUNTERFEITS. Every purchaser who values health must be particular, and see that the bottles are stamped in the glass ANDERSON'S COUGH SYRUP, prepared by J. M'KELLEN, and that the directions are signed J.A. M'KELLEN.—Be careful and examine before you purchase, as there are two spurious kinds in market.
