

POWELL'S BALSM OF ANISEED, FOR COUGHS, COLDS, SHORTNESS OF BREATH, ASTHMA, &c.

THIS invaluable Medicine has the extraordinary property of immediately relieving Coughs, Colds, Hoarseness, difficulty of Breathing, and Housiness in the Throat.

Those who are troubled with that unpleasant tickling in the Throat, which deprives them of rest at night, by the incessant Cough which it provokes, will, by taking one dose, find immediate relief; and one bottle in most cases will effect a cure.

NUMEROUS cases have come to the Proprietor's knowledge, where young people have been troubled with Coughs, Spitting of Blood, and gradual Wasting away, with every appearance of going into a decline; who, by taking two or three bottles, have been entirely cured.

In Asthma, the difficulty of Breathing, &c. no person can describe the wonderful effects, will do more to recommend and ensure it the support of the Proprietor than any thing the Proprietor can say in its favour.

EXTRACTS FROM ENGLISH PAPERS RECEIVED AT THE UPPER CANADA HERALD OFFICE. LORDS' PROTEST AGAINST RECEIVING THE REPORT OF AMENDMENTS TO THE REFORM (ENGLAND) BILL [JUNE 2].

1. Because this Bill will effect a change in the constitution of Parliament to an extent unequalled for, and full of danger, incapable of producing much practical good, and likely to prove, in its operation, subversive of the ancient and settled institutions of the country.

2. Because, by a uniform and low rate of qualification in the towns, the greatest share of power will be given to the smallest portion of property, which will tend to make every description of property, whether mercantile, colonial, real or personal, equally insecure.

3. Because, in its character not remedial, but revolutionary, in practice equally injurious to the poor and the rich, and to the Government of the strength which it requires, and property of its due influence and stability, as well as the stability of the throne, and of the religious establishments under which, in this country, an elevated elevation is given, but yet unrivalled, by all the nations of Europe.

DEATH OF JEREMY BENTHAM.—Died yesterday at his residence in Queen-square, Westminister, Jeremy Bentham, in his 86th year. During the late unhealthy season he had been subject to repeated attacks of bronchitis, but he had recovered from the first severe attack with so much vigour, that it was considered by many that he would return to his former state of health; and he again received the visits of distinguished foreigners, and of public men with whom he was in the habit of friendly intercourse; and it was believed that he would have been able to continue his labours several years to come.
