THE Public are informed that arrangements are in progress to publish a Weekly Newspaper to be called *The Packet*. The Packet like most other Newspapers will be devoted to Politics, Commerce, Agriculture, Local News, and the News from Europe, together with all newspapers with the News from Europe, together with all newspapers with the Newspapers of the conditions from every part of the interesting to Canadians from every part of the

The publisher pledges himself that no article

The publisher pledges himself that no article of a sectarian or clannish character shall ever grace the columns of the Packet; on the conmary everything having a tendency to amalgatrate the heterogeneous population of this Country and give it a national character will be freely disseminated through its columns.

To prevent all misconception as to the political tone which the Packet will assume, the suiscriber at once announces that he will, as he has ever done, support Responsible Government Responsible Government; a laid down by Lord Durham in his report, as carried out by Sir Charles Bagot in his administration and as contended for by the late Ministras in their resignation. From an extensive acquaintance with the inhabitants of almost every part of this Country of all shades of opinion the subscriber is convinced that no other system of Government yet devised will give so much satisfaction to the pesple of Canada, or he viewed with less distrust by them. ple of Canada, or be viewed with less distrust by them. A Givernment, the patronage of which, is distributed mysteriously, no matter how wisely administered, must be viewed with suspicion, and produce discontent; on the contrary, an open Government which protects all and grants favors to none but those who really deserve them and have the confidence of the Country, must restrainly consend the must eventually command the support of all who are only desirous of good Government.

Instead of drawing a wider line between par-

ties who have hitherto been estranged from each other by causes over which enlightened political epinion has had no control, it will be the principal object of the Packet, to draw these parties together and to shew them that it is the interes of all to combine together at the present crisis for the general good. The subscriber does not subscribe to the doctrine that there must be two great parties in this Country at the present time, from his knowledge of the Country, he is satisfied that nearly all disinterested politicians in it are of the same party; and that nothing but misapprehension and a want of political information amongst the arrises opposed to Responsible Government keeps them in opposition to it. With this object in view The Packet will endeavour to steer its current in all changes guided by Di this object in view The Packet will endeavour to steer its course into all channels guided by Pilots of experience and reputation as political Writers. Peace and good will? amongst the masses will be proclaimed and taught on the one hand; and on the other, all disturbers of the peace; all selfish office holders and politicians; all political adventurers; all political firebrands, no matter what they profess, will be held up to sarcasm and he properly exposed.

As to the "clap traps" about loyalty, attachment to the British Constitution, &c., with which so many Prospectuses and Addresses abound, the subscriber does not deem it necessary to say one word. He has not only seen, but experienced much villainy perpetrated under such professions. All he professes to advocate is good, cheap, rational Government, suited to the social

cheap, rational Government, suited to the social condition and inclinations of the thinking people of Canada; and he cares not by what name it is called, or what is the religious or national complexion of the person who supports, advocates or administers it.

The Packet will be published at Prescott.

The Packet will be published at Prescott.—
It is presured that Prescott will become in a very short time one of the first Towns in Canada. So soon as the St. Lawrence Canal is completed we may fairly expect such an anticipation realized. Its position, as the foot of Sloop and the head of Boat navigation must make it the principal Forwarding Depot of the entire Western Country. It is almost superfluous to say that every pains will be taken to further its prosperity; as well as the country round about it, bounded by the St. Lawrence and the Ottawa Rivers. Now that Montrenl is established as the Seat of ed by the St. Lawrence and the Ottawa Rivers. Now that Montreal is established as the Seat of Government, it may fairly be anticipated, from the fact of the rapidity with which settlements advance immediately West of Seats of Government on this Continent, that this particular section will be filled by opulent Emigrants from the Mother Country, who are ever desirous of establishing themselves in localities not far removed from the Seat of Government. Every information connected with this section of the Province, which taken altogether for convenience

persons will take the paper it will be published; it will be printed on good paper, with new types upon a Royal Sheet. Terms 15s. per annum, payable half yearly or yearly in advance, at the

option of the subscriber.

Copies of this Prospectus will be sent to various persons in both sections of the Province acquaintances of the subscriber whom he supposes will forward the objects of the paper, and to the Inn-Keepers of Johnstown, Bathurst, Dalhousie, Sydenham, Ottawa and Eastern Districts and they are respectfully requested to use active exertions in procuring patronage. The paper will be found worthy of their support.
