The publisher pledges himself that no article of a sectarian or clannish character shall ever grace the columns of the Packet; on the connary everything having a tendency to amilgatrate the heterogeneous population of this Country and give it a frational character will be freely disseminated through its columns.

To prevent all misconception as to the political tone which the Packet will assume, the subscriber at once announces that he will, as he has ever done, support Re-ponsible Government. Responsible Government as laid down by Lord Durham in his report, as carried out by Sir Charles Bagot in his administration, and as convended for by the late Ministers in their resignation. From an extensive acquaintance with the les Bagot in his administration, and as considered to appearance, in its effects. Enquire for "Competer for by the late Ministers in their resignation." From an extensive acquaintance with the stants of almost every part of this Country is haded of opinion the subscriber is convinted in other system of Government yet delivered by the subscriber is convincient in other system of Government yet delivered by the subscription of Canada, or he viewed with less districts by the subscription of Canada, or he viewed with less districts by inhabitants of almost every part of this Country of all shades of opinion the subscriber is convinced that no other system of Government yet devised will give so much satisfaction to the people of Canada, or be viewed with less district by them. A Government, the patronage of which, is distributed mysteriously, no matter how wisely administered, must be viewed with suspicion, and produce discontent; on the contrary, and produce discontent; on the contrary, and produce discontent; and produce discontent: on the contrary, an open Government which protects all and grants favors to none but those who really deserve them and have the confidence of the Country, must eventually command the support of all who are only desirous of good Government.

Instead of drawing a wider line between parties who have hitherto been estranged from each other by causes over which supplied political.

other by causes over which collightened political epinion has had no control, it will be the principal object of the Packet, to draw these parties together and to shew them that it is the interest of all to combine together at the present crisis for the general good. The subscriber does not subscribe to the doctrine that there must be two good parties in this Country at the present time. great parties in this Country at the present time, from his knowledge of the Country, he is satis-fied that nearly all disinterested politicians in it of the same party; and that nothing but misapprehension and a want of political information amongst the masses opposed to Responsible Government keeps them in opposition to it. With this object in view The Packet will endeavour to steer its course into all channels guided by Pi-Vriters. * Peace and good will' amongst the masses will be proclaimed and taught on the one hand; and on the other, all disturbers of the jeace; all selfish office holders and politicians; all political adventurers; all political firebrands, no matter what they profess, will be held up to sarcessm and he properly exposed.

earcasm and be properly exposed.

As to the "clap traps" about loyalty, attachment to the British Constitution, &c., with which so many Prospectuses and Addresses abound, the subscriber does not deem it necessary to say one word. He has not only seen, but experienced much villainy perpetrated under such profes-rione. All he professes to advocate is good, cheap, rational Government, suited to the social condition and inclinations of the thinking people of Canada; and he cares not by what name it is called, or what is the religious or national complexion of the person who supports, advocates or

The Packet will be published at Prescott .-The Packet will be published at Prescott.—
It is presumed that Prescott will become in a very short time one of the first Towns in Canada. So soon as the St. Lawrence Canal is completed we may fairly expect such an anticipation realized. Its position, as the foot of Sloop and the head of Boat navigation must make it the principal Forwarding Depot of the entire Western Country. It is almost superfluous to say that every pains will be taken to further its prosperity: as well as the country round about it, boundevery pains will be taken to further its prosperity; as well as the country round about it, bounded by the St. Lawrence and the Ottawa Rivers.
Now that Montreal is established as the Seat of
Government, it may fairly be anticipated, from
the fact of the rapidity with which settlements
advance immediately West of Seats of Government on this Continent, that this particular section will be filled by opulent Emigrants from the
Mother Country, who are ever desirous of es. Mother Country, who are ever desirous of es-tablishing themselves in localities not far re-moved from the Seat of Government.
