WESLEYAN-METHODIST ALMANAC And general Religious Calendar, For THE PROVINCE OF CANADA.

Fr the Year of our L. r. & Saviour J. sus Christ

1845: Bsing the Eighth Year of the Reign of Her Mujerty Queen Victoria.

THE principal design in publishing an Almanac at this office was to supplant the silly and immoral publications imported in large quantities from the Unit d States and to afford to the Methodist, and the Religto book of reference. Only the expectation of a very large sale would authorize the exceedingly low price of it. But we so on the principle which has been found to work well in many cases, that a large sa'e at a low price is more profitable than a small sale at a large price. We hope that every Methodist famprice. We hope that every Methodist family in the Upper Province will obtain a copy. It is sold by every itinerant Preacher in the Chirch. Other Christians will find nothing of jectionable in the concents. The amount of correct information relative to Methodism will to them be rather a virtue in the publication than a fault. It will prevent their seek-

than a fault. It will prevent their seeking information on the subject elsewhere.

From two to eight times cheaper Than before, or nothing if the user is not delighted with it.

A N article that every Family must consider indispensable when they know its power and value, and which has beretofore been sold too high to reach all classes, has now been reduced in price, with a view that rich and poor, high and low, and in fact every human being may erjoy its comforts; and all who get it shall have the price returned to them if they are not delighted with its use. We assert, without the possibility of contradiction, that ALL BURNS AND SCALDS, EVERY EXTERNAL SORE, old or fresh, and all external raise and acless, no matter where, shall be reduced to comfort by it in five minutes—saving life, limb, er scar. No burn

and all external rains and achies, no matter where, shall be reduced to comfort by it in five minutes—saving lite, limb, or scar. No burn can be fatal it this is applied unless the vitals are destroyed by the accicent. It is truly magical, to appearance, in its effects. Enquire for "Comel's Magical Pein Extract or Save," at Comel's Magical Pein Extract or Save," at Comelow Stock & Co's., 21 Cortland Street, New York, Price 25 cents, or four times as much for 20 cls. and near ten times as much for a Dollar.

We assure you, on the responsibility of our characters, that sympathy for human suffering induces, at least in part, our earnest solicitation that a simple trial should be made in any affection named below. We think it not imprudent or too much to say, that nothing like it or in any degree so effectual, has ever been discovered in Medicine. You will please observe it is no "sovereign remedy for all complaints," but only intended for Externol application and will cure the following:—Burns, Scalds, Frosted Paris, Chillblains, Chafe or Galls, Chaps, Tetter, Pimple, Blockh, Felom, Ulcer, Sprains, Ergsipelas, Stabs, Cuts, Bruises, Strain, Far and Tooth-ache, Mumps, Sore Threat, Runrounds, Whitlows, Piles, Ringworm, Sait Rheum, Barher's Itch, Carbundle, Eruption, Sore Eyes and Lids, Weak Sight, Sove Threat, Runrounds, Whitlows, Piles, Ringworm, Sait Rheum, Barher's Itch, Carbunder, Pains, Pain in Back and Side, Tender Feel, Infammatory Rheumatism, Tie Doloreux, Ague in Face and Breast, Feere Sore, Old Burn, Scars. flammatory Rheumatism, Tie Doloreux, Ague in Face and Breast, Fever Sore, Old Burn Scars, Prickly Heat, Inflamed Skin, Broken Breast, Nore Nipples, Rough Hands, Blistered Surfaces, Dressing for Biisters, White Swellings, Cold in Wands, Sore Corns, General Sores, Smallpox Marks.

Though we have named numerous affections experience has taught us that they are not too many. It will be necessary to know that the article called Connel's is the only one we can recommend; but must caution against some imi-tations that we have reason to believe are of no use but injurious. We will present it to the poor who have actual need of it, and whom you

poor who have actual need of it, and whom you may send for it. Remember it is CONNEL'S Magical Pain Extractor.

All Country Merchants are requested to take it to their Towns on commission, as the greatest blessing to mankind that has been discovered in Medicine. This is strong language, but you may depend its power will fully justify it. Call on all the Agents for a pamphlet gratis to all, and very interesting, also the names of all the Clercymen in New York.

The great popularity of Sarsaparilla, and its established efficacy, render it superfluous to enter imo any encomism of its virtues, or adduce any evidence in its favor.

The Sarsaparilla is warranted positively as good as any other that can be made at One Dollar, at just half the price of those so much advertised, and as strong and in as large bottles, viz:

Fifty cents per bottle, or Five Dollars per Fifty cents per bottle, or Five Dollars per

dozen.

This article has cured Scrofula of 30 years, after the Dollar articles had been used in vain.

To be had of the agents of Comstack and Co. , throughout the country, in New

THE REASON.

Some people are foolish enough to believe that we cannot afford to make as good an article of Sarsaparilla Extract and sell it for 50 cents per bottle or 35 per dozen, as all others that sell for just double that money. The simple fact is this, and all will now be convinced. While Fire Hundred dollars are squandered by others in a column or two of advertisements, we do rot spend Fire. Therefore we make the public pay but half as much for as good or better article as any one else, the real cost in making the article is probably more than others, as we use nothing but the best Sarsaparilla Root, &c. We sell three tottles, to one of the dollar priced bottles, now the public know what we charge for it, and its virtues are such as not to require half a newspaper to such in its reputation.

Inquire always for Constock & Co's Sarseparilla, at Fifty cents, and have no other.

Cheapness, Elegance & Excellence COMBINED!

Before Subscribing to a Periodical for 1845, read the following PROSPECTUS OF THE THIRD VOLUME O ARTHUR'S LADIES' MAGAZINE.

Forty-Eight Pages Reading matter, beside two Elegant Steel Plates, in Each Number!

The Publishers, in sending forth their Prospectus
for the third volume of their Magazine,
which is exclusively and permanently under the editorial control of

T. S. ARTHUR, Believe that they can effer to the public most substantial claims to patronage. The first and second volumes have been acknowledged on all hands to be equal, and, in many respects, super-ior, in character, strength, interest and attractiveness, to any of the magazines issued. The aim of the Editor is a high one. He regulates the long prevalent system of basing his work upon the reputation of contributors, whose artiles, no matter what they have done, are, in too

no matter what they have done, are, in too many instances, below mediocrity.

Nothing gains admission into the pages of this Magazine, which is not excellent in itself. The source from which an article comes is secondary, its merits always primary. Such a rule, strictly carried out, must give character to any work. carried out, must give character to any work.—
It has given "ARTHUR'S MAGAZINE" a character already acknowledged in all respecta-ble quarters where it has been received. Among the inexhaustable sources that open up to the hands of a literary caterer, German and French

another, as lucid and clear as crystal. From this they dip up the waters and present them to our lips. At this fountain, we shall continue to let our readers drink. But, in doing so, we shall not neglect the Excellencies of our own native Literature. This would be the worst of folly.—Yet in doing this, we shall make no parade of names. The public are getting to understand pretty clearly how much this is worth, and to discover that excellence is not always to be found in the fugitive productions of writers who have in the fugitive preductions of writers who have done well in books. Our country is teeming with young genius, too often overshadowed and hidden by the successful, who possess not half their intrinsic worth, and whose writings exert not half so healthy an influence. They are crowded from the path in which they are fitted to walk, and their ments here out of eight has walk, and their merits kept out of eight by a few who have gained the public ear and eye, and who are tept before the public, not so much on account of the superior excellence of what they are giving forth, as on account of what they have done.

are giving forth, as on account of what they have done.

To merit, wherever we find it, we will give the right hand of fellowship. We would not accept a poor article from the most celebrated writer in the country; but a good one, let it come from where it will, shall find a welcome.—
In all sources, at home and abroad, we shall seek the Good, the True and the Beautiful. For some time, and with too much justness in the allegation, our Magazines have been charged with being too light and trashy. This we have from the first steadily avoided. "ARTHUR'S MAGAZINE" will continue to sustain a high character for Excellence in all its Departments. Something more than mere love tales will be given. Its stories, while full and deep and absorbing interest or, sparkling with wit and happy feeling, will have in them a soul—a licing soul of goodness and truth. Reviews, essays and sletches, with poetry that shall be truly cail.

Thus much in regard to the literary department of our Magazine. Another matter claims

PICTORIAL EMBELISHMENTS. Custom and taste have rendered them indispen-sible in a literary work like ours. We shall not stand to argue the matter with Custom and Taste, but proceed to open up our intentions on this bead. First, thea, we have determined to pre-sent the subscribers to "ARTHUR'S MA-GAZINE," during the year, with

No less than a series of SIX FEMALE CHARACTERS FROM SHAKSPEARE! Engraved on sized in a highly finished style. This Shakspeare Gallery of Beauty will present embodied to the eye, some of the noble bard's most heautiful creations of the mind, as well as one or two celebrated characters in history, around his magic pen has thrown a new charm. What lover of the Poet's immortal creations, will not be earer to secure this splendid series of Engravings? Not one, surely. Every possessor of a copy of Shakspeare, and whose library does not contain his works? will have, at a mere rounical cost, six exquisite illustrations, not to be obtained in acter. six exquisite illustrations, not to be obtained in any other way. And, while upholding the Monarchial power in the exercise of all its functions and peregatives, it will, nevertheless, be found to be, on alt occasions, the firm opponent of any attempt totrench upon the rights and immunities of the people. Adhering to this policy, The Frecholder will advocate the principles of Respirishe Government—as enunciated by the Resolutions of September, 1841—as interpreted by Lord Durbam's Report—and as understood by the great body of the people of Canada. A considerable portion of its columns will be devoted to the interests of Agriculture and Commerce, and space will always be reserved for the exposition occasionally of such facts touching the management and condition of "local affairs" in the Eastern District as may be t' ought of public interest. The Subscriber pledging himself that in pains will be spared to render The Frecholder an effectual remotion of the wealth and intelligence of this District.
