And general Religious Calendar, FOR THE PROVINCE OF CANADA, For the Year of our Lord & Saviour Jesus Christ 1845:

Being the Eighth Year of the Reign of Her Majesty Queen Victoria.

THE principal design in publishing an Almanac at this office was to supplant Almanac at this office was to supplant the silly, and immoral publications imported in large quantities from the United States, and to afford to the Methodist, and the Religious public generally, a useful and cheap little book of reference. Only the expectation of a very large sale would authorize the exceedingly low price of it. But, we go on the principle which has been found to work well in many cases, that a large sale at a low price is more profitable than a small sale at a large price. We hope that every Methodist fam. We hope that every Methodist fam dy in the Upper Province will obtain a copy. It is sold by every itinerant Preacher in the Church. Other Christians will find nothing objectionable in the contents. The amou of correct information relative to Methodism will to them be rather a virtue in the publica-

tion than a fault. It will prevent their seek-ing information on the subject elsewhere. CONTENTS. The Signs of the Zodiac, Chronological Cycles, Eclipses in 1845. cles, Echpses in 1849.

HOE and ROBERT HOE, continue to manafacture at greatly reduced prices, Printing Presses, Hydraulic Presses and Standing Presses, Self-Inking Machines, Cases, and every article necessary to complete a Printing Office, a supply of which, including Type, Ink, &c., they keep constantly on hand. Hoe & Co's. Patent Single Cylinder Press

has been recently improved in many essential particulars with a view to adapt it to first rate book printing, as well as excellent newspaper work. A considerable number of machines are now in operation in this city and elsewhere—doing the work very rapidly, and in a superior

of order. It is the only machine adapted to the most rapid newspaper printing.

They are also the manufacturers of the Patent Washington and Smith Presses, now so extensively used by Printers throughout the United States and Canadas. They call the attention of Privers to their New Machine and Card Press, by which a boy can print fifteen hundred eards per hour and in the best style. This Machine is very simple, and not liable to get out of order. Its Inking apparatus is self-acting.

get out of order. Its linking apparatus is self-acting.

The "Hoe" Company also manufacture a Cylinder Job Press, of a large Foolscap size, which requires two boys to attend it, who at the same time drive the Machine with their feet. It will print from 1500 to 2000 impressions per hour and do good work.

The "How" Company assure their friends and printers generally that no pains shall be spared to maintain the reputation of their establishment, and that all orders entrusted to them, will receive prompt and careful attention.

Editors and publishers will be supplied with estimates in detail for Printing Offices, or Bindsies, by informing us of the style and quantity of work which they desire to do.

Hoe & Co., also manufacture Cast Steel, Mill,

of work which they desire to do.

Hoe & Co., also manufacture Cast Steel, Mill, Pit, Crosscut, Circular, and other Saws, a general supply of which they keep constantly on hand. Jobbing and Machino work in general.

PROSPECTUS ARTHUR'S LADIES' MAGAZINE. PRICE ONLY SPOLLARS PER ANNUM, Forty-Eight Pages Reading matter, besides two Elegant Steel Plates, in Each

Number!

The Publishers, in sending forth their Prospectu.

for the third volume of their Magazine,
which is exclusively and permanently
under the editorial control of T. S. ARTHUR,

which is exclusively and permanently under the editorial control of T. S. A R T H U R; Believe that they can offer to the public most substantial claims to patronage. The first and second volumes have been acknowledged on all hands to be equal, and, in many respects, superior, in character, strength, interest and attractiveness, to any of the magazines issued. The aim of the Editor is a high one. He repudiates the long prevalent system of basing his work upon the reputation of contributors, whose articles, no matter what they have done, are, in too many instances, below medicerity.

Nothing gains admission into the pages of this Magazine, which is not excellent in itself. The source from which an article comes is secondary, its merits always primary. Such a rule, strictly carried out, must give character to any work.—It has given "ARTHUR'S MAGAZINE" a character already acknowledged in all respectable quarters where it has been received. Among the inexhaustable sources that open up to the hands of a literary caterer, German and Fernon Livernature offer a wide field for selection.—Into this region, with an admirable Corps of Translators, we are steadily penetrating, astonished at overy step by the riches we meet. Especially is this the case in Literature. Already we have given some splendid articles from the German, brim full of pure truths, and forcible illustrations of the power of goodness. "Silent Love," "The Governor and his Successors,"—from Madame de Genlis, also, the "Lesson of Misfortune," and "The Error of a Good Father," from Marmontel, with fine tales from Dumas, Lacroux, Nodler, Ballzac, and other authors of celebrity. In selecting from the French, our Translators are guided by a strict regard to Purity and Excellence; none know better than they do, how much that is objectionable abounds in the light literature of this people. But, flowing along by the side of this impure current, is another, as lucid and clear as crystal. From this they dip up the waters and present them to our lips. At this fountai

have done
To merit, wherever we find it, we will give
the right hand of fellowship. We would not accept a poor article from the most celebrated
writer in the country; but a good one, let it
come from where it will, shall find a welcome—
In all sources, at home and abroad, we shall seek
the Good, the True and the Beautiful. For some the Good, the True and the Beautiful. For some time, and with too much justness in the allegation, our Magazines have been charged with being too light and trashy. This we have from the first steadily avoided. "ARTHUR'S MAGAZINE" will continue to sustain a high character for Excellence in all its Departments. Something more than mere love tales: will be given. Its stories, while full and deep and absorbing interest or, sparkling with wit and happyfeeling, will have in them a soul—a living saul of geodness and truth. Reviews, essays and skotches, with poetry that shall be truly called such, will be blended with them in just proportion.

Thus much in regard to the literary department of our Magazine. Another matter claims

PICTORIAL EMBELISHMENTS. Custom and taste have rendered them indispensible in a literary work like ours. We shall not stand to argue the matter with Custom and Taste, stand to argue the matter with Custom and Taste, but proceed to open up our intentions on this head. First, then, we have determined to present the subscribers to "ARTHUR'S MAGAZINE," during the year, with

A Novelty, of a highly attractive character.

No less than a series of Six Female Characters from Shaksfeare! Engraved on steel in a highly finished style. This Shakspeare Gallery of Beauty will present embodied to the eye, some of the noble bard's most heautiful creations of the mind, as well as one or two celebrated characters in history, around his magic pen has thrown a new charm. What lover of the Poet's immortal creations, will not be eager to secure this splendid series of Engraving's Not one, surely. Every possessor of a copy of Shakspeare, and whose library does not contain his works? will have, at a mere nominal cost, six exquisite illustrations, not to be obtained in any other way. This is certainly a great desideratum. But, besides these beauties from Shakspeare, we are making arrangements to procure a series of female figures, far surpassing, in loveliness and form and face, and exquisite finish, any thing that has yet appeared in any American magazine.
