THE preceding figure is given to represent the INSENSIBLE PERSPIRATION.—
It is the great EVACUATION for the imparities of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates that this perspiration flows uninterruptedly when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us.—
The language of Scripture is, "in the BLOOD is the Life." If it ever becomes impure, it may be traced directly to the stoppage of the INSEN. SIBLE PERSPIRATION. It never requires any internal medicines to cleanse it, as it AL-WAYS purifies itself by its own heat and action, and throws off all the offending humors, through the INSENSIBLE PERSPIRATION. Thus we see, all that is necessary when the blood is stagnant, or infected, is to open the pores, and it relieves itself from all impurity instantly.—Thus we see the folly of taking so much internal remedies. All practitioners, however, direct their efforts to restore the Insensible Perspiration, but it seems to be not always the proper one. The Thomsonian, for instance, steams, the Hydropathist deals out infinitissimals, the Allopathist bleeds and doses us with mercury, and the blustering Quack gorges us with pills, pills, pills.

To give some idea of the amount of INSEN. STOPES, From the well known Foundry of Mr. R. P. Cotton, will keep a Stock on hand, during the season, of Cooking and Single Stoves of the latest and most approved Patterns, and will execute orders at the lowest market price for Cash, or on approved credit.—Country Merchants would find it to their advantage to call before they purchase elsewhere

PROSPECTUS OF THE Review of Legislation & Jurisprudence

riles.

To give some idea of the amount of INSENSIBLE PERSPIRATION, we will state that
the learned Dr. Lewenhock, and the great Boerhaave, ascertained that five-eighthe of all we
receive into the stomach, passed off by this
means. In other words, if we cat and drink
eight pounds per day, we evacuated five pounds
of it by the Insensible Perspiration.

This is none other than the used up particles
of the blood, and other juices, giving place to
the new and fresh ones. To check this, therefore, is to retain in the system five-eighths of all
the virielent matter that rature demands should
leave the body. And even when this is the case,
the blood is of so active a principle, that it determines those particles to the skin, where they
form scabs, pimples, uicers, and other spots.

Editors :- M. M. Louis O. Le Tourneux, Mon treal, and Joseph U. Beaudry, Quebec.

OR Years past, the want of a publication of FOR Years past, the want of a publication of the nature of the one we now propose to establish, has been deeply felt in this part of the Province of Canada. It must be admitted that of late especially, the Laws and the Jurisprudence of the country, have been and are still in such a state of uncertainty that our project must be favorably received. Amidst the confusion of Accient and New Laws, the advocate looks in vain for those rules which should guide him in the examination of the questions which are submitted to his researches. He wanders in the Labyrinth of Statutes and Ordinances, which the Logislature multiplies each year around him. Legislature multiplies each year around him.—
He might find in reports of cases decided in the various tribunals of the Province some clue to guide him through his numberless difficulties. But there are no Reports published. The proposed Review will be established to supply the deficiency.

duced by a stoppage of the INSENSIBLE PERSPIRATION.

Let me ask now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores, after they are closed.—Would you give physic to UNSTOP the pores i Or would you apply something that would do this upon the surface, where the clogging actually is? Would not this be common sense?—And yet I know of no physician who makes any external application to effect it. The reason I assign is, that no medicine within their knowledge, is capable of doing it. Under these circumstances, I present to physicians, and to all others, a preparation that has this power in its fullest extent. It is McAlister's All-Healing Ointment, or the World's Salve. It has POWER to restore perspiration on the feet, on the head, around eld sores, upon the chest, in short, upon any part of the body, whether diseased slightly or severely. posed Review will be established to supply the deficiency.

The publication of faithful and correct Reports of the cases argued and decided in the Courts of Lower Canada, should be a sure mode of giving to our Jurieprudence that character of stability and uniformity which it would be of so much importance to impart to it; at the same time, a publication, the columns of which will be open to the discussion of questions of Legislation, Law and Practice, must be of great interest not only to Members of the Profession, but also to all Men of Business.

We have been urged to publish this Review by a large number of our Professional Brethren; we thank them for the sympathy they have already displayed towards us at the commencement of a task as serious and difficult as the one we are about to undertake. But to render the proposed work interesting and useful, they must understand that we cannot alone bear the burden of it. In a community like ours, a periodical like this can never succeed without the combined efforts of the different Members of the Profession whose interest it especially concerns; we therefore address ourselves to the Members of the Bar; they owe us one and all their contributions to a work aiming at the general good.

the same interest it especially concerns; we therefore address ourselves to the Members of the Bar; they owe us one and all their contributions to a work aiming at the general good.

From the high functionaries who are called upon to administer Justice, and whose decisions we shall have to report, we ask patronage and indugence. Our labours will be considered with deliberation, with accuracy and with impartiality. They will always have for one of their principal ebjects the maintainance of those good feelings which should never cose to exist between the bench and the Bar.

We also beg to lay no ill founded claim so the patronage and encouragement of the Canadian public. We trust that they will appreciate the value of a work of general and practical utility, which may be productive of the most advantage-cus results, if avorably received.

The "Review of Legislation and Jurisprudence" will appear in Monthly Numbers of 8 pages, 80.0, crietted on the best appear and with figure 200 and the special typographies care. It might so that some numbers will have more and others less than that number of pages, tutt will be first numbers, containing between 5 and 600 pages of the most chapes that one sumbers will nave more and others less than that number of pages, tutt will be first numbers, containing between 5 and 600 pages of the most danger and responsibility, and the sum of the most danger and responsibility, and the most danger and responsibility and the most danger and responsibility, and the most danger a

To Louis O. LeTeurneux Esq., Advocate—
Sir, we had with reatisfaction your project of establishing a Review of Legislation and Jurisprudence, and approve of it or all accounts. It is a good and useful enterprise which will meet we trust with all the encouragement it deserves, not only at the hands of the members of the profession, but also from the number of the profession, but also from the number of the profession. LETTER OF SUPPORT. sion, but also from the public in general. As much as our time will allow, you can depend on currontributions as well as our warmest sympa-We are sir, with consideration your pr

PIMPLES ON THE FACE, MASCULINE SKIN, GROSS SURFACE. Its first action is to expell all humor. It will not cease drawing till the face is free from any matter that may be lodged under the skin, and frequently breaking out to the surface. It then heals. When there is acthing but grossness, or Kingston, Feb., 1845.

HEAD ACHE.

Dyspepsia, and all Nervous Diseases, and Spinal Complaints.

For Burns it has not its equal in the world! And for Chest Diseases, such as Asthma, oppressive Pains, and the like, there is no internal remedy comparable to it.

dull repulsive surface, it begins to soften and soften until the skin becomes as smooth and de-WORMS.

MORMS.

If parents knew how fatal most medicinea were to children taken inwardy, they would be slow to resort to them. Especially "mercurial lozengers," called "medicated lozenges," "vermifuges," pills, &c. Even were it possible to say postistely that worus were present, it is not safe. The fruth is, no one can tell invariably when worms are present. Of course the remedy is not applicable to the complaint. Now let me say to parents, that this salve will always tell if a child has worms. Let it be 'rabbled on the neck and chest, to keep them from going up, and then down on the bowels, and they will soon leave. It will DRIVE every vestige of them away. This is a simple and SAFE cure. No injury can come of it any way. But should it be cholic, inflammation of the bowels, or gripe of the intestines, it will effectually cure them as the worms.

the intestines, it will effectually cure them as the worms.

There is probably no medicine on the fact of the earth at once so sure and so safe in the expulsion of worms.

It would be cruel, nay WICKED, to give internal doubtful medicines, so long as a harmless, certain, and effectual external one could be had.

TOILET.

I have it done up in fine order for the dressing case. Although I have said little about it, as a hair restorative, I will stake it against the world? They may bring their oils far and near, and mine will restore the hair two cases to their one. That some sores are an outlet to the impurities of the system, is the only reason, because they cannot pass off through the natural channels of the Insensible Perspiration. If such sores are healed up, the impurities must have some other outlet, or it will endanger life. This is the reason why it is impolitie to use the common salves of the day in such cases. For they have no power to open other avenues, to let off all this morbid matter, and the consequences are always fatal. This salve will always provide for such emergencies. There need be no fear; it is perfect.

Diseases of Children.

If the ALL-HEALING OINTMENT pos-sessed no other virtue than merely to cure the various diseases with which children are afflict-ed, we should esteem it the first medicine in ex-istence. How great are the sufficings of infants and children, when they can neither state their wants nor point out their pains? And how many thousands are swept off by giving internal medi-cines, when their young bodies and tender frames are unable to bear up against them? Whole ar-mies are thus sent to their graves merely from pouring into their weak stomachs powerful drugs are unable to bear up against them? Whole armies are thus eent to their graves merely from pouring into their weak stomachs ponerful drugs and physics!! It is to such that the All-Healing Ointmeat teaders so self; pleasant, and harmless a cure in their suffering and sickness. Few, nay, perhaps not more than three of four in a thousand would die; while nearly all would be instantly relieved of their pains and infirmities. Such cases as Croup, Cholic, Cholera Infantum, Worms, and all Summer Complaints, by which so many children die, the Ointment will remove so speedily and surely, that a physician will never be needed. We would here press upon mothers the reality of these things. We speak earnestly, because we feel it would be wicked not to use those moans which would remove their suffering, while it did not endanger their lives, or the strength and vigor of their young constitutions. Mothers! throughout all this land, we now solemly and sacredly declare to you that the All-Healing Ointment will save your children from an early grave if you will use it; and we therefore make this appeal in their behalf that the final responsibility may be your own, if they die prematurely. Aside from every interest to ourselves, we charge you to take heed to what we now tell you. We are not now actuated by the least desire of gain; but knowing as we do that vast bodies of infants and children die early, which is suppused to be inevitable and impossible to prevent, we hold up our warning voice, and declare in the face of the whole world,

Children need not die more than others.

But it is from the veant of proper nourishment

form acabs, pimples, utiers, and other spots.

By a sudden transition from heat to celd, the pores are stopped, the perspiration ceases, and disease begins at once to develope itself. Hence, a stoppage of this flow of the juices, originates

so many complaints.

It is by stopping the pores, that overwhelms mankind with coughs, colds, and consumptions.

Nine-tenths of the world die from diseases induced by a stoppage of the INSENSIBLE PERSPIRATION.

r severely.
It has POWER to cause all external sores,

crofulous humors, skin diseases, poisonous rounds, to discharge their putrid matter, and

whole world,

Children need not die more than others.

But it is from the want of proper nourishment and the constant drugging they undergo, which mows them down as the rank grass falls before

the scythe.

Mothers! we repeat again, and if they were the last words we were ever to utter, and of course past the reach of all interest, we would say "Use the ALL-HEALING OINTMENT for

ckness among children."
RHEUMATISM.—It removes almost im the inflammation and swelling, when the pair course ceases. FEMALE COMPLAINTS.—Its glory and power is catalogue of cutaneous disorders, and restores the entire cuticle to its healthy functions. It is a REMEDY that forbids the necessity of so many and deleterious drugs taken into the

manifest in no way more than in this department. Inflammation of the kidneys, of the womb, and its falling down, weakness, and irregularity; in short, all those difficulties which are frequent with females, find ready and permanent rollef. Scald Heads.—We have cured cases that actually defined everything known as well.

It is a REMEDY that neither sickens, gives

re and there, with fealty is to exclaim, while basking is herself, our beauteous C OF A CONVERTED FATHER'S HOUSE

ame of the Rev. Mr. N st readers in this tiantly, and inceratigable of the spiritual interests of following is an account of to his father's house, after histiantly, and cannot fail a story and its simplicity an bet the reader. We copy it under of the Jewish Chrone 29, 1843.—About 9 o'clo we drew nigh to Neubr to be alone, I asked the I got out, and walked the Close to the town there which I went, and there casus Christ, that he would occasion. This greatly at eart expanded; and I haste aternal home. I had previousing by letter.

I entered the house I first cast sister, where however.

geat sister, whom, however ze. On beholding me her ngly pale, and she stood still fixed on me. I did not we known to her at once; be sure that she was my a ther "where is your fathe whe replied, " is in the back quickly there; but in doing through the shop, where ed. I at once recognised the my hand to her, bade it She answored, "good ev." I pressed her hand in m
"Oh mother, don't you the
my father came in, and see

my lather came in, and see tanding, very much downe tanding, very much downe mo, and embraced htm; the into the arms of my mother mother, mother, don't you is spoke at last, but with ag, "yes, I know thee; thou e account we have shed hast always been our cronight have I sat watching of Marcus—I have always ght that through thy studied dist be the means of bringing of Eden, and now we have I heavy affliction." Here er, and she gazed on me in the same of the same shed was my should affectionate. I could hardled was my heart. At last as beloved parents, I will tenow I, came to believe in our is come to redeem his penother exclaimed, "the hang, "Oh, if you would but and understand that your so living God, who is now melper." "Yes," said my is at Frankfort."

o at Frankfort.

y brother, 18 years old, he entered the room, but had acc from us. I walked to as to weep bitterly, and the I could not hear. After together I began to feel tha own. My mother said to mid and hungry. I will get so you."

pper was soon on the table seat near my sister, my mixindly manner, "Thou mus place; thou wast used to sit so; but I enjoyed but little now sat again, really hap are so dear to me. My you larly proved to have much I thus sat peaceably together, at the room, who welcomed neer.

hee, however, reproached me saying to him, "Let us take a saying to him, "Let us take a saying to him, "Let us take a saying to him, "I have us take a saying to him, "My father tu a "You had better remain que to the say to reply to his reasonable at these people's fair yet comprehend." I replie ed, we then only can become humble prayer with David a mine eyes, that I may agout of Thy law."
I was now very late in the troome with failgue, we all brother and I occupied oner about many things, and I say body in the house already lather and mother were occupieds. My mother and down by me. It did me get
