chouring man, handed Patrick Monahan, came to his dark under the following maken he has to the condition of immorality and crime are the usual results of these licensed tippling shops, wherever they exist; and surely, it is time that some determined effort was made to put a stop to the abominable business; the effects of which are so deplorable, so destructive to the public welfare and happiness.—[Connunicated to the Examiner.

Sir George Simpson, Governor of the Hon-curable Hudson's Bay Company, arrived here on Sunday, from Montreal, and proceeded yes-terday morning to Niagara, on his way to Lake Superior, with the view of exploring copper mines for which licences have been issued by government. In Sir George's train there are several minors, and about sixty French Canadians, who have been engaged for the expedition. Our fellow-citizen, Mr. Paul Kane, the celebrated artist, has received the permission of Governor Simpson, to accompany the party, and on his return, after a law years we may accompany on his return, after a few years, we may expect a rich treat in the views he will have to exhibit, in his floished style of painting, of the unexplored regions through which he will pass. Under the direction of Sir George Simpson, every effort will be used to ascertain the probable productivescent of the miner in the treat of country. ductiveness of the mines in the tract of country for which he holds a license to survey; and the probability is, that in the course of a few years, after the present surveys are completed, a suffi-England by the Hudson's Bay Company, to car-

Sir George Simpson expects to return himself from Lake Superior, in August or September next.—[Colonist.

THE STEAMER HIGHLANDER.—This splendid Boat was the first of the "Mail line" which attempted to run the rapids between Coteau and tempted to run the rapids between Coteau and Lachine, and we are happy to state that she did so successfully, on Tuesday the 5th inst., and returned upwards the same day through the Beaubarnois Canal. The passage will now be attempted by the other two Boats, and no fear can be entertained, but they will be able to effect it with less danger than the Highlander, since they are not so long or unmanageable, and do in t draw so much water. If the Lachine Canal were finished, we would be favoured with visits, from some of the of the Quebec Boats by this from some of the of the Quebec Boats by this -[Cornwall Observer.

MIDDLESEX COMMISSION OF THE PEACE.— On Tuesday, 27st ult. II. Caddy was brought up before Messrs. Lawrason and Strathy magistrates, charged by Matthew Barber with having rates, charged by Matthew Barber with having received from the complainant the sun of £7 10 by representing himself as an agent of the Canada Company. The case was adjoirned till Monday 27th, when a similar charge was preferred against Caddy by James Kerr, he having under the same representations received the sum of £25 cy. from the complainant. The evidence was taken, and was so strong against the prison-er that he was committed for trial at the next Assizes, and required to find bail—two sureties of £50 each, and him-elf £100, in each case. of £50 each, and hamself £100, in each case. What will be supporters of the present Administration say when they know that Mr. John H. Caddy, the person mentioned in the above report, was placed on the roll of Justices of the Peace in the Commission recently issued by the present Munistry for this District! Yes, this is one of the more for whom Mr. Hanvey, and other ne of the men for whom Mr. Hanvey, and other Reformers were displaced. The Adminiser Reformers were displaced. The Adomis-ration, by their inscrupulous giving office to beer own supporters, no matter of what charac-ier, have given this man a standing which has enabled him to impose on these unfortunate in-dividuals. How, indeed, could Matthew Barber and James Kerr imagine that one of the immacu-late Ministry's Justices of the Pence, one of Mr. Descrets ways constituents, and doubtless of his Draper's own constituents, and doubtless of his nendation, could be suck so low! We understand that another case was brought up against the prisoner on 29th ult., in which he had received £30, which, by the consent of the Magistrates, it is said, was compounded after the information was laid. We certainly think that the Magistrates were not justified in pursuing -- [Western Globe.

Government Agent here for several yes, 1 have acquired a thorough knowledge land THE ASIATIC CHOLERA .- This mysterious affairs; and I correspond with the m respectable Agents at Head Quart for scourge is again at its work in Persia, whither it travelled by the route of Khorassan. At He-rat, Bokhara, Teheran, Ispahan and Mechid the deaths have been very numerous. At Mechid a third of the population were carried off. The only town of importance that has escaped is Tabez, now one of the principal cities of Persia. This exception is the more remarkable, as Tabrez is visited by more caravans than even Ispahan. The various divast that exist on the etiology of cholers. of Land Script for Sale. various id as that exist on the etiology of cholera, and the unquestionable obscurity that surrounds it, make it desirable that each movement of the enemy should be carefully noticed by the medical journalist .- [Medical Times.

JUDICIAL ADVICE TO MEDICAL PRACTITION JUDICIAL ADVICE TO MEDICAL PRACTITION-ERS.—In the course of a case which was tried at the Old Bailey on Wednesday, a medical wit-ness, in giving his evidence, used the word "tumeRetcion;" upon which Mr. Justice Cole-tidge said, "I suppose by 'tumefaction' you mean swelling." Witness—"Yes, my Lord."— Mr. Justice Coleridge—"Then it would be much better to use plain English than to speak in a sort of mengre! Latin

A DUEL PREVENTED—An obstinate husband insisted on fighting a duel. His wife used every argument to dissu-de him from his purpose, but "Very well— ave your way; but recollect that if you have your seconds, I shall be sure to have my thirds."

CHARLES W. JENKINS. Kingston, Feb., 1845.

It is the great EVACUATION for the impuri-ties of the body. It will be noticed that a thick cloudy mist issues from all points of the surface, which indicates that this perspiration flows unin-terruptedly, when we are in health, but ceases when we are sick. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us.—
The language of Scripture is, "in the BLOOD is the Life." If it ever becomes impure, it may be traced directly to the stoppage of the INSENSIBLE PERSPIRATION. It never requires any internal medicines to cleans it as it Alany internal medicines to cleanse it, as it Al-WAYS purifies itself by its own heat and action, and throws off all the offending humors, through the INSENSIBLE PERSPIRATION. This we see, all that is necessary when the blood is stagmant, or infected, is to open the pores, and ed four years old, 1 to 4 and to 1½ strong, it relieves itself from all impurity instantly— Thus we see the folly of taking so much interial remedies. All practitioners, however, direct their efforts to restore the Insensible Perspin-BLANKS FOR SAL,

DEEDS and MEMORIALS, Law, but to the Requests, and other BLANKS, great variety for sale at the Herald Office.

The Thomsonian, for instance, steams, the Hydropathist shrouds us in wet blankets, the Homopathist deals out infinitissimals, the Albsessed no other virtue than merely to cure the sessed no other virtue than merely the sessed no other virtue than merely the sessed no other virtue than merely to cure the sessed no other

To give some idea of the amount of INSEN-

By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and disease begins at once to develope itself. Hence, a stoppage of this flow of the juices, originates so many complaints.

It is by stopping the pores, that overwhelms mankind with coughs, colds, and consumptions. Nine-tenths of the world die from diseases induced by a stoppage of the INSENSIBLE PERSPIRATION.

Let me ask now, every capdid mind, what it are the reality of these things. We speak earnestly, because we feel it would be wicked and to to use those means which would remove their suffering, while it did not endanger their suffering, while it did not endanger their constitutions. Mothers! throughout all this land, we now solemnly and sacredly declare to your children from an early grave if you will use

your children from an early grave if you will use it; and we therefore make this appeal in their behalf that the final responsibility may be your own, if they die prematurely. Aside from every PERSPIRATION.
Let me ask now, every candid mind, what course seems the most reasonable to pursue, to unstop the pores, after they are closed.—Would you give physic to UNSTOP the pores? Or would you apply something that would do this upon the surface, where the clogging actually is? Would not this be common seuse?—And yet! know of no physician who makes any external amplication to effect it. The reason I Or would you apply something that would do this upon the surface, where the clogging actually is? Would not this be common sense?—And yet I know of no physician who makes any external application to effect it. The reason I assign is, that no medicine within their knowledge, is capable of doing it. Under these circumstances, I present to physicians, and to all others, a preparation that has this power in its fullest extent. It is McAlister's All is the final responsibility may be youn own, if they die prematurely. Aside from every interest to ourselves, we charge you to take heed to what we now tell you. We are not now actuated by the least desire of gain; but know actuated b others, a preparation that has this power in its But it is from the want of proper nourishment fullest extent. It is McAlister's All Healing of the constant drugging they undergo, which is the World's Salve. It has POWER mows them down as the rank grass falls before to restore perspiration on the feet, on the head, around old sores, upon the chest, in short, upon any part of the body, whether diseased slightly

It has POWER to cause all external sores, scrofulous humors, skin diseases, poisonous wounds, to discharge their putrid matter, and It is a REMEDY that sweeps off the whole

catalogue of cutaneous disorders, and restores the entire cuticle to its healthy functions. It is a REMEDY that forbids the necessity of so many and deleterious drugs taken into the

It is a REMEDY that neither sickens, gives convenience, nor is dangerous to the

It preserves & defends the surface from all derangement of its functions, while it keeps open the channels for the blood to void all its impurities and dispose of all its useless particles. There is a connection, harmony, and feasibility in it all that defies contradiction. It is a simple, but wonderful principle that preserves in healthy operation the entire machinery of our being. It indissolubly holds together the SURFACE and the INTERNAL VISCERA, the INTERNAL VISCERA and the SURFACE. They are inseparably connected and cannot be disjoined. The surface is THE outlet of five-sighther of the hill and used up matter within joined. The surface is THE outer of liveeighths of the bile, and used up matter within.
It is pierced with MILLIONS of openings to
RELIEVE the intestines. Stop up these
pores, and DEATH knocks at your door. It
is rightly termed All-Healing, for there is scarcely a disease, external or internal, that it will
not benefit. It will be found the most useful as well as the cheapest family medicine in the world. I have used it for the last fourteen years with success without a parallel. I have used it

with success without a parallel. I have used it for all diseases of the chest, Consumption, Liver, and the most dangerous of internal maladies, involving the utmost danger and responsibility, and I declare before Heavet and man, that not increase ingle cases has it failed to benefit, when the patient was within the reach of mortal means. I have had physicians, learned in the profession; I have had ministers of the Gospel, Judges on the Bench, Aldennen and Lawyers, gentlemen of the highest erudition and MULTITUDES of the PCOR, use it in every variety of way, and there has been but one voice, one ty of way, and there has been but one voice, one united, universal voice, saying "McAlister, your Ointment is GOOD."

Ointment is GOOD."

HEAD ACHE.

The salve has cured persons of the Head Ache of 12 years standing and who had it regularly every week, so that vomiting often took Deafness and Ear Ache are helped with the

like success, as also Ague in the Face. COLD FEET.

The salve will restore the Insensible Perspir

ation and thus cure every case.

For Scrofula, Salt Rheum, and Erysipelas, it is probably the safest and surest cure in the world. The same may be said of Piles, Sore Lips, Chapped Hands, Quinzy, Sore Throat, Dyspepsia, and all Nervous Diseases, and Spinal Complaints. Dyspepsia, and a Spinal Complaints. For Burns it has not its equal in the world!

And for Chest Diseases, such as Asthma, ppressive Pains, and the like, there is no internal remedy comparable to it.

PIMPLES ON THE FACE, MASCULINE SKIN, GROSS SURFACE.

Its first action is to expell all humor. It will not cease drawing till the face is free from any matter that may be lodged under the skin, and requently breaking out to the surface. It then heals. When there is nothing but grossness or dull repulsive surface, it begins to soften and soften until the skin becomes as smooth and de-

licate as a child's. WORMS. If parents knew how fatal most medicine If parents knew how fatal most medicines were to children taken inwardly, they would be slow to resort to them. Especially "mercurial lozengers," called "medicated lozenges," "vermifuges," pills, &c. Even were it possible to say positively that worms were present, it is not safe. The truth is, no one can tell invariably when worms are present. Of course the remedy is not applicable to the complaint. Now let me say to parents, that this salve will always tell if a child has worms. Let it be rubbed on the neck and chest, to keep them from going up, and neck and chest, to keep them from going up, and then down on the bowels, and they will soon leave. It will DRIVE every vestige of them away. This is a simple and SAFE cure. No injury can come of it anyway. But should it be cholic, inflammation of the bowels, or gripe of the intestines, it will effectually cure them as

There is probably no medicine on the face of the earth at once so sure and so safe in the expulsion of worms.

It would be cruel, nay WICKED, to give internal doubtful medicines, so long as a harmened

certain, and effectual external one could be had. TOILET.

I have it done up in fine order for the dressing case. Although I have said little about it, as a hair restorative, I will stake it against the world! They may bring their oils far and near, and mine will restore the hair two cases to their one. That some sores are an outlet to the impurities of the agstem, is the only reason, because they cannot pass off through the natural channels of the Insensible Perspiration. If such sores are healed up, the impurities must have some other outlet, or it will endanger life. This is the reason when it is impulsible to use the common salves. son why it is impolitic to use the common salves of the day in such cases. For they have no power to open other avenues, to let off all this morbid matter, and the consequences are always fatal. This salve will always provide for such emergencies. There need be no fear; it is per-fect.

sed no other virtue than merely to cure the

pathist bleeds and doses us with mercury, and the blustering Quack gorges us with pills, pills, ed, we should esteem it the first medicine in existence. How great are the sufferings of infants and children, when they can neither state their To give some idea of the amount of INSENSIBLE PERSPIRATION, we will state that the learned Dr. Lewenhock, and the great Boerhaave, ascertained that five-eighths of all we receive into the stomach, passed off by this means. In other words, if we cat and drink eight pounds per day, we evacuated five pounds of it by the Insensible Perspiration.

This is none other than the used up particles of the blood, and other juices, giving place to the new and fresh ones. To check this, therefore, is to retain in the system five-eighths of all the virulent matter that nature demands should leave the body. And even when this is the case, the blood is of so active a principle, that it determines those particles to the skin, where they form scabs, pimples, ulcers, and other spots.

By a sudden transition from heat to cold, the pores are stopped, the perspiration ceases, and

Mothers! we repeat again, and if they were the last words we were ever to utter, and of cours past the reach of all interest, we would say "Use the ALL-HEALING OINTMENT for

sickness among children."

RHEUMATISM.—It removes almost immediateby the inflammation and swelling, when the pain

FEMALE COMPLAINTS .- Its glory and power manifest in no way more than in this department Inflammation of the kidneys, of the womb, and it falling down, weakness, and irregularity; is short, all those difficulties which are frequent

with females, find ready and permanent relief.

SCALD HEADS.—We have cured cases that actually defied everything known, as well as the ability of fifteen or twenty doctors. One man told us he had spent \$500 on his children, without any benefit, when a few boxes of the cint-ment cured them.

Corns.—People need never be troubled with

them if they will use it.

As a Family Medicine, no man can measure

its value. So long as the stars roll along over the heavens—so long as man treads the earth, subject to all the infirmities of the flesh—so long as disease and sickness are known—just so long will this good ointment be used and estremed. When man ceases from off the earth, then the demand will cease, and not till then. demand will cease, and not fill then.

JAMES McALISTER & Co.,

168 South street, New York, Sole proprietors of the above Medicine, to who ll communications must be addressed (post paid.)
Price, 25 cents and 50 cents. CAUTION.

As the All-Healing Ointment has been greatly counterfeited, we have given this caution to the public, that "no ointment will be genuine unless the names of James McAlister, or James McAlister & Co., are written with a pen upon every label." The label is a seed engraving, with the figure of "Insensible Perspiration" on
