UNDER this title the Subsrciber proposes to publish a book on BANKING, dedicated to the intelligent and reflecting portion of the community, which shall convey to the Canadian Public, in a condensed form, every necessary information on this deservedly engrossing subject. As the Author is, and has ever been, a steadfast friend of Banking institutions, it will be with him a principal object, in as far as in him lies, to impart to his readers just ideas of their importance to the presenting of Councillation. portance to the prosperity of Commercial and Agricultural communities, that in considering controversial discussions the enquiring mind may become prepared to seperate the wheat from the chaff,—the gold

from the dross.

To this end it is his intention to notice some of the most popular works deprecatory of Banking, which by their ingenuity and plausibility have injuriously prejudiced the unreflecting against a Paper Currency.
