ideal of a "pure democracy"; but the con- his Excellency and the Constitution. test for which they mustered their forces, in the palpable gloom of political folly.— defence. For could there be a more frivolous occasion for this display of wrathful petulance than was furnished by the resignation of the late Executive Council? If the doctrine which they attempted to maintain had been admitted by his Excellency, what practical difference could there have been between the operation of that principle and the present system? The Council admitted that they could only advise his Excellency, who might follow their advice or not as he pleased. Then what practical difference could have been caused in the administration of affairs in the Province, if the Counall had been allowed to advise the Lieutenmate open allowed to advise the Lieutenant Governor on all the measures of his
forenment? Those measures would still
have been his own; for he is not a man to
be governed by his advisers, or led to
hop any measure which he did not pertoke in head of the control of the con teive to be wise and just. The question speculative than practical, and to be a very yearly Report.

to a very wide circle forme. I round the guilletine to take their station within that circle, which was instantly filled with about 3000 persons.

**The three vehicles soon made their appearance, The three vehicles soon made their appearance, followed by those of the executioner and his assistance with the same that the vehicles containing the condemned, which had the vehicles containing the condemned, which had the vehicles containing the condemned, which had been left open for them to be seen by the public as much us possible.

They all three descended with the same calmness they had shown during the preparations, they had shown during the preparations.

The plantail in the case of the dispute is concerned, but the real cause lies deeper, though only dimly disguised. It is the plantail in the plantail in the case of the concerned to the plantail in Integrands cause for a Uthe of the exciption of the state of the exciption of the exciption

THE ST. GEORGE'S SOCIETY OF KINGSTON.

The head of Fienchi was examined yesterday at Bicotre, when it was found that, though the skull had been fractured by the bursting of the barels, the would had not penetrated to the brain. This accounts for his having been able to descend from the room by the rope, as it is possible that, if he had not been so much weakened by loss of blood, he would have effected his escape. The phrenologists have not discovered any remarkable indications on the skull.

SPAIN.
