THE OTTAWA AND RIDEAU FORWARDING COMPANY TAKE leave to notify their friends and the public generally, that they will be ready at the opening of the navigation to transport MER-CHANDISE and PRODUCE of all descriptions, up and down, between Mostreal Bytown and Kingston, via the RIDEAU CINAL.

The extensive preparations made by the Company to render their line efficient, (being able unless by some accidental detention to desputch

less by some accidental detention to despatch Barges, sufficient to carry 500 tons of Goods per week, if required) warrant them in stating that the utmost reliance may be placed, by these who employ them, that property entrusted to their care will be forwarded with the greatest possible safety and expedition.

and expedition.

For "Up Freight," they need only state that the Goods are put into large covered barges at Montreal, (except such way freight as may not be liable to damage, smaller boats being found more convenient for this purpose) and towed by Steamboats from Lachine to Kingston, The risk of damage is so small, that the Merchants sending their urgnetty by this route has hithest accreain.

their property by this route have hitherto scarcely deemed it necessary to insure.

The time for performing the trip to Kingston is generally about four and seldom exceeding five days, the Goods can be forwarded of immediately from thence, by Steamboats or Schooners as may be required.

from thence, by Steamboats or Schooners as may be required.

For "Down Freight," their Barges contain upwards of 500 barrels below decks & descend either by the Rideau or St. Lawrance as circumstances require—navigating the lakes in the most boister-our weather, with great safety.

For Emigrants this line of communication is particularly advantageous, as they can embark with their luggage on board of decked—Barges which are towed through to Kingston by Steamboats, as above mentioned, without being subject to the great inconvenience of landing and walking past the rapids, as is the case by the St. Lawranca route. Provisions are abundant at the different stations along the line.

The Conpany further beg leave to intimate that on account of the large amount of their cash disbursemens, they will invariably require payment of Freight on delivery, except in those cases, at the prinopal stations on the Lines where the parties have heretofore been ready to settle their accounts whenever called upon.

The great difficulty the Company have hitherto experienced in collecting small parcels of Way Freight on the Line of the Ottawa and Rideau (whee there are no Agents,) renders it necessary that nuch Freight should be paid before the shipment,

that such Freight should be paid before the shipmens,
Agents will be appointed at the different stations along the Line of the Ottawa & Rideau, of which due notice will be given. Rates of Freight will be mederate, and will not exceed to and from Kingstoh, the regular charges by the St. Lawrance boats to and from Prescott.

For further particulars apply to the undermentioned Agents.

United their Line with that of the Canada Inland Forwarding and Insurance Company.

Although a decided preference has justly been given to the Rideau line, from the superior craft in which goods are forwarded, as well as the certainty with regard to time and diminution of risk attending the transport, yet some objections have been raised to the Canal's being closed earlier in the fall than the River St. Lawrence, and to obviate these objections the Company intend by this union to keep a full supply of Boats on the St. Lawrence, not with a view of doing their tusiness generally by that route, but to accommodate their customers in the Spring and Fall, as well as to meet every possible contingency that might take place on the Canal, and restore to the Company the fullest confidence of the people.
