APPLE BREAD.—A French officer has invented and practised with great success, a method of making bread with common apples, very far superior to potatoe bread. After having boiled one third of peeled apples, he bruised them while quite warm into two-thirds of flour including the proper quantity of yeast, and kneaded the whole without water, the juice of the fruit being quite sufficient. When this mixture had acquired the consistency of paste, he put it into a vessel, in which he allowed it to rise for about twelve hours. By this process he obtained a very excellent bread, full of eyes, and extremely palatable and light. [Doctor.]

MILK AND SWEET ALMONDS.—Dr. Weatherhead, in his late and excellent work on diseases of the lungs, mentions a curious fact in regard to milk. This aliment has been placed between the foods of the vegetable and animal product, chemical analysis demonstrates there is no essential difference between it and the fruit of the almond tree, (*i. e.* sweet almonds,) the latter containing exactly the same constituents, in a solid form which compose the former in its fluid state. Almost the only difference between them is, that milk made of almonds and water concretes by heat alone, whereas natural milk requires rennet, or an acid, before heat will coagulate it.

WANT OF EVIDENCE.—There is a pleasant anecdote told of the late reverend Judge Peters, who was no less known for the integrity of his legal decisions than for his witticisms. The crew of a vessel brought into his court a complaint, alleging the unwholesomeness of the provisions laid in for the voyage, and claimed damages for this misusage. One of the evidences in support of the charge was an apparently mouldy sea biscuit.—The "opening" counsel produced this during his exordium, and it was handed incidentally to the judge. The cause proceeded in due form, and when the defendant's counsel was proceeding with the citation of proofs to sustain his client's cause, the mouldy biscuit was not to be found: great reliance was placed on this; it had, however unaccountably disappeared. At length, one of the jurymen reminded the counsel he had handed it to the judge, who, it appears, little by little, as the cause proceeded, had inadvertently eaten it up; the hearty laugh was irrepressible, and it were needless perhaps to add the complainants were foiled in the prosecution; evidently a spite action against their captain and owners.—[Poulson.]

ANOTHER REVOLUTIONEER GONE.—Married on the 12th inst. after a courtship of *two* hours, by 'Squire McGuire, Mr. John Wilson, a Revolutionary soldier, aged about 85, to Miss Alsey Rockmore, rising 18—both of Bibb.—[Southern paper.]

If the hymenial pair had not been "*both of bib*," we should still have had little doubts of their fitness for the nursery. Although the damsel has changed her name from Miss A. Rockmore into *Mrs.* I. Wilson, we doubt whether she will ever have occasion to *rock more* than she already has, or to reply to the importunities of any little male responsibility, "*I will, son!*"

IMPORTANT TO STEAM MACHINERY.—It has been discovered in France, by M. Chaix, that the incrustrations on the insides of boilers is totally prevented by mixing clay with the water. The Government has rewarded the discoverer with 20,000 francs.

THOMAS COLEMAN.

West Belleville. March 27th, 1837.

TO EMIGRANTS.

GENTLEMEN,—I wrote a few remarks some months ago, respecting Emigration to the western parts of this Province. I have seen a number of instances in which emigrants have passed Kingston, wearied themselves and families, and expended their money, and then returned back to this part of the Province. I have sold several of them better Lands for almost half of the price they had to give in the western Districts, and I have now a large quantity of cultivated and uncultivated Lands for sale; therefore, I recommend them to call and see for themselves, and not spend their money for nothing.

Any information wanted respecting locations can be had at my office in Store Street, Kingston, Upper Canada. D. RUTTAN,
Land Agent.

SALT AND HOPS.

JUST RECEIVED and for Sale at the Subscriber's Warehouse, a consignment of ONANDAGA SALT, and a quantity of very superior HOPS. Also—FLOUR and PORK by the barrel.

WATER-PROOF CLOTH CAPS.

THE Subscriber with much labour and expense, has succeeded in the manufacture of WATER-PROOF CLOTH CAPS, which in connection with his FUR CAP FACTORY, he will continue to make from the West of England Cloths;—Water-Proof Cloth Caps of different patterns, qualities and colours, which for elegance, durability, comfort and economy, rival every description of Caps heretofore manufactured in this country, having fur bands, for the winter, that render them equally warm as the fur cap, without the disagreeable scent, and by removing the band the cap is perfectly agreeable and comely for the milder season, thereby possessing both the advantages of a summer and a winter Cap—always retaining its flexibility and being perfectly Water-Proof, will doubtless diminish the use of both Hats and Fur Caps, or at least supercede the necessity of either.

P. S.—Samples of the above Caps will be sent into all the principal towns of Upper and Lower Canada, at the opening of the navigation.

M. L. GREENE.

BANK OF

BRITISH NORTH AMERICA.

ESTABLISHED IN LONDON.

Capital—One Million Sterling.

Provisional Committee for conducting the affairs of the Bank at KINGSTON.

THOMAS ASKEW, ESQ.
JOHN RICHARDSON FORSYTH, ESQ.
THOMAS GREER, ESQ.

ARRANGEMENTS for the early commencement of business are now in progress, and communications may, in the meantime, be addressed to the members of the Committee.

ROBERT CARTER,
Commissioner from the Court of Directors.

Kingston, 10th January, 1837.

THE VILLAGE OF THOROLD occupies both sides of the mountain ridge, or summit level of the Welland Canal, 350 feet above the level of Lake Ontario, and is known to be *peculiarly healthy. There are neither swamps nor marshes* in its vicinity; and it stands in the *centre* of a *fertile and well-cultivated wheat country*, in a direct line between the City of the Falls and St. Catharines, in the Niagara District.

But 5 years can be dated from its origin, and so rapidly has it progressed, that it now contains more than 400 souls; two Churches, a School-House, Post office, several good Shops, and a Medical Establishment; an extensive Flour mill, a Brewery, and four Sawmills, with Blacksmiths', Carpenters', Shoemakers', Carrmakers', Tailors', and several other Tradesmen's establishments, are at full work. A new Carding and Fulling mill, and Grist mill, are nearly ready for work, and a great number of additional houses are nearly completed.

There is a direct communication to Lake Ontario, and Lake Erie, by a constant succession of Schooners and Boats, affording great advantages for the conveyance of merchandize and agricultural produce to different markets. The water has a fall of forty feet, and power to an extent equal to propelling machinery for any manufacturing purpose, for which *eligible mill sites can be had.* A good Tannery could be worked to great advantage, bark being so easily obtained from the forests of Chippewa and the Grand River.

The Subscriber, in calling the attention of Manufacturers and Mechanics to this rising Village, offers to sell some very advantageous Lots, on moderate terms, and long credit, to actual settlers only.

GEORGE KEEFER.

Thorold, October, 1835. 873

FOR SALE.

THE following LANDS:—A Lot near the new English Burying Ground, with a small HOUSE erected upon it, with a good fence.

TO THE PRINTERS OF BRITISH NORTH AMERICA.

THE Subscribers have ceased to be Agents for the MONTREAL TYPE FOUNDRY from this date. In future, all orders must be addressed to the proprietors, T. GUERIN & Co.

JONES & Co.

Dec. 29, 1836. 959

THOMAS GUERIN & Co. TYPE FOUNDERS, respectfully inform the Printers, &c. of these Colonies, that the Agency of Messrs. Laclere & Jones ceased on the 28th ultime. The Proprietors are now ready to supply Printers with whatever they may require in their line, on terms much lower than they can procure the same articles from the United States.

In consequences of new arrangements entered into, the Proprietors will be enabled to supply Printers on the shortest notice; and no unnecessary delay will occur between the receipt of the order and its execution.

☞ Editors of papers who have published the Type Foundry advertisement, are requested to publish the above, and they will receive two dollars worth of Type in payment.
