28,000 SUBSCRIBERS!

This popular journal contains articles upon every topic usually introduced in a public paper: embracing Literature, Science and the Arts, Education, Medicine, Agriculture, Internal Improvements, Narratives, Tales, Sketches, Biographies, Poems, Songs, Foreign and Domestic News of the latest dates, and full accounts of the sales, markets, and money matters generally.

The new feature which we introduced of presenting the best books of the present literature of the day, has been eminently successful.

We shall draw from the whole range of the current literature, our arrangements supplying us the earliest moment they can be received in the country, with all the best periodicals of Europe, the choicest gems of which will be always given to the readers of the Courier the first moment they can be disseminated on this side the Atlantic.

ENGLISH ANNUALS.

ENGLISH ANNUALS. We have made arrangements to receive early copies of all the English Annuals, and shall immediately spread before our readers all the best articles, which are not dependant upon the accompanying engraving for illustration, or of an exclusively local character. In this way we shall have the gratification of furnishing our readers, in a few months to come, with matter, which, if purchased in the form in which it appears, would alone cost between fifty and sixty dollars.

and nave solvage for sairs, figging, stores, without charge.

There are connected with the Marine Railway, a Foundry, Blacksmith shop, and ship-yard, stocked with every article requisite for building and repairing Steam-boats, Engines, and Vessels, and from the number of mechanics constantly employed in these establisments, very great despatch can be given to Boats and Vessels repairing in the Basin, or on the railway. The latter, from the openness of the river and situation of the place can be used, with the exception of the months of January and February, throughout the whole year, and, in most instances, any repairs can be completed on it within the forty-eight hours allowed for hauling and letting down.

By order of the Directors,

D. L. COX, Secretary. CAPT. MARYATT'S SEA STORIES.

A sea story, by Captain Marryatt, is now in course of publication in the Courier, in addition to the great variety of other entertaining matter, embracing a vast and unsurpassed variety; each week enough to fill a Common book of two hundred and fifty pages, and equal to fifty-two volumns a year, and which is estimated to be read, weekly, by at least three hundred thousand people, scattered in all parts of the country, from Maine to Florida, and from the sea board to the lakes.

This approved family newspaper is strictly neutral in religious and political matters, and the uncompromising opponent of quackery of every kind.

WATER-PROOF CLOTH CAPS.

WATER-PROOF CLOTH CAPS.

THE Subscriber with much labour and expense, has succeeded in the manufacture of WATER-PROOF CLOTH CAPS, which in connection with his FUR CAP FACTORY, he will continue make from the West of England Cloths; Water-to oof Cloth Caps of different patterns, qualities and colours, which for elegance, durability, comfort and poonomy, rival every description of Caps heretofore manufactured in this country, having fur hands, for the winter, that render them equally warm as the fur cap, without the disagreeable scent, and by removing the band the cap is perfectly agreeable and comely for the milder season, thereby possessing both the advantages of a summer and a winter Cap—alk-ays retaining its flexibility and being perfectly Water-Proof, will doubtless diminish the use of both Hats and Fur Caps, or at least supercede the necessity of either.

P. S.—Samples of the above Caps will be sent into all the principal towns of Upper and Lower tanada, at the opening of the navigation.
