NEW-YORK.

In presenting this useful remedy to the public, the Proprietor is authorized by a Physician, from whom the Recipe
was confidentially obtained, to state, that he has used it
himself, and in his extensive practice in Pulmonary affections, with astonishing effect. The happy combination of
vegetable substances, of which it is entirely composed,
are peculiarly adapted to diseases of the Lungs, Liver, and
Stomach.

are peculiarly adapted to diseases of the Lungs, Liver, and Stomach.

This medicine has been used very extensively, and the promietor has not known a single instance in which it has failed in giving relief in diseases for which it is recommended; even in cases approaching to consumption, attended with bleeding at the Lungs, and where all other remedies had failed, the most decided and failed received and statering success has attended its use. Common colds, which are generally the effect of obstructed perspiration, will yield to its influence in a few hours; when used in asthma, hoarseness, wheezing, and shortness of breath, it gives immediate relief, procuring tranquil rest and sleep. In whooping cough it is without a trial. It operates by gentle expectoration, and may be given to infants with perfect safety.

The Proprietor would add, that he is constantly receiving numerous testimonials of the value and efficacy of this remedy, some certificates of which may be seen on the bill of directions accompanying each bottle. Any person using it will be sure to recommend it again. Toronto, June 2nd, 1838.

Messrs. A. B. & D. Sands—Gentlemen: This may certify that my eldest son has been afflicted with the Salt Rheum, or some other loathsome disorder upon his legs for 15 or 16 years, and I have tried scores of different kinds of medicines all to no purpose, until I tound your remedy for such diseases, and on using it about 10 days (or less than one box of ointment and one bottle of the Syrup of Sarsaparilla,) has effected I think, a perfect cure. I have delayed giving you this certificate for two months since the cure was effected, for fear that it would again appear, but as his legs are perfectly smooth, I have the utmost confidence in saying that I think it a very valuable medicine and sincerely hope that thousands may yet receive as much benefit as in the case above mentioned.
