man frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintance; the remainder of their lives is consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of his hair. To avertall these unpleasant circumstances, OLDRIDGE'S BALM OF COLUMBIA stops the hair from falling off on the first application, and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray, makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

HEADACHE, SICK OR NERVOUS. The extraordinary reputation that Dr. Spohn's emedy for this distressing complaint is every day gaining is certainly a matter of much astonish-ment. That so much suffering should have existed ment. That so much suffering should have existed for ages without any discovery of an effectual preventive, or cure, is truly a subject of much regret, but Dr. S. now assures the public that such a remedy has been invented as will convince the most credulous. The principles upon which it acts are simple and plain. It is an admitted fact that this complaint, whether called Sick Headache, or Netwous Headache, arises primarily from the stomach—those who think they have the Nervous Headache may rest assured that this organ, the stomach—those who think they have the Nervous Headache may rest assured that this organ, the stomach, is the first cause, that the system has become vitiated or debilitated, through the stomach, and that only through the same channel must they expect a restoration of the natural and healthy functions of the system. This object, Dr. Spohn's remedy is eminently calculated to attain.
