In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of his hair. To avertall these unpleasant circumstances, OLDRIDGE'S BALM OF COLUM-BIA stops the hair from falling off on the first ap-plication, and a few bottles restores it again. It likewise produces eyebrows and whiskers; pre-vents the hair from turning gray, makes it curl seautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the

R. E. SPOHN, a German physician of much porting them to any part of the two Provinces or of the United States.

The subscriber at the solicitation of some of his note, having devoted his attention for some vears to the cure and removal of the causes of satisfaction to make known that he has a remedy which by removing the causes cures effectually and permanently this distressing complaint.— There are many families who have considered for the purpose of disposing of such consignment as may be ordered to be sold by Public Auction and has established a regular correspondence with respectable Mercantile Houses in several parts of Sick Headache a constitutional incurable family complaint. Dr. S. assures them that they are mistaken, and labouring under distress which they correct information respecting the state of the different markets and the current prices of produce might not only alleviate, but actually eradicate by the use of his remedy.

It is the result of scientific research, and is en-

tirely of a different character from advertised pattent medicines, and is not unpleasant to the taste and for Town consumption, will be kept at all times on the wharf and a confidential person will HEADACHE, SICK OR NERVOUS.

The extraordinary reputation that Dr. Spohn's The extraordinary reputation that Dr. Spohn's remedy for this distressing complaint is every day gaining is certainly a matter of much astonishment. That so much suffering should have existed for ages without any discovery of an effectual preventive, or cure, is truly a subject of much regret, but Dr. S. now assures the public that such a remedy has been invented as will convince the most credulous. The principles upon which it acts are simple and plain.
