QUEBEC.

THE AUTHOR has been told by his friends (the old story), that the voluminous Journals and other M.S.S in his possession, if properly condensed and arranged, would make, even in these. fastidious times, a readable book. He has undertaken the task, yet with fear and trembling;—coupled, as it most be, with the obtrusion of himself on the notice of the public. But, emboldened by the favour shewn already, to some of his little communications, political and piscatory, in the provincial newspapers, and the New York Albion, he does not despair of success.

Having resided a long time in the Provinces, and purposing to pass the rest of his life here, the Author prefers printing his trifling work by subscription in Canada, to publication elsewhere.—Should a sufficient number of Subscribers be found to secure him from risk of pecuniary loss,—and gain is not his object,—the shee's shall be sent to press without delay.

The Book will be published in two Octavo Volumes—printed in a clear type—price to Subscribers, fitteen shillings—to others one pound.

Lists for subscription will be opened at the Offices of the Quebec Gazette and Mercury—the Montreal Gazette and Herald—the Kingston Chronicle, and New York Albion. Also, at the Garrison Library, Quebec—the News Rooms of Quebec, Thee Rivers, Montreal, Kingston and Toronto.

PRICE \$1. HAY'S LINIMENT.

No FICTION.—This extraordinary chemical composition the result of science and the invention of a celebrated medical man, the introduction of which to the public was invested with the solemnity of a death-bed bequest, has since gained a reputation unparalleled, fully sustaining the correctness of the lamented Dr. Gridley's last confession, that if he dated not die without giving to rectness of the lamented Dr. Gridley's last con-fession, that "he dared not die without giving to posterity the benefit of his knowledge on this sub-ject," and he therefore bequeathed to his friend and attendant, Solomon Hays, the secret of his

and attenuary, Solomore Reply discovery.

It is now used in the principal hospitals, and the private practice in our country, first and most certainly for the cure of the Piles, and also so extensively and effectually as to baffle credulty, unless where its effects are witnessed. Externally in the following complaints:

Its operation upon adults and children in residucing rheumatic swellings, and loosening coughs and tightness of the cheef by relaxation of the parts, has been surprising beyond conception.—The common remark of those who have used it in the Piles, is "it acts like a charm."

THE PILES.—The price \$1 is refunded to any person who will use a bottle of Hay's Liniment for the Piles, and return the empty bottle without being cured. These are the positive orders of the proprietor to the Agents; and out of many thousands sold, not one has been unsuccessful.

HEADACHE, SICK OR NERVOUS.

The extraordinary reputation that Dr. Spohn's remedy for this distressing complaint is every day gaining is certainly a matter of much astonishment. That so much suffering should have existed for ages without any discovery of an effectual preventive, or cure, is truly a subject of much regret, but Dr. S. now assures the public that such a remedy has been invented as will convince the most credulous. The principles upon which it acts are simple and plain. It is an admitted fact that this complaint, whether catled Sick Headache, or Nervous Headache, arises primarily from the stomach—those who think they have the Nervous Headache may rest assured that this organ, the stomach, is the first cause, that the system has become vitiated or debilitated, through the stomach, and that only through the same channel must they expect a restoration of the natural and healthy functions of the system. This object, Dr. Spohn's remedy is eminently calculated to attain. The truth of this position cannot be controverted and the sconer sufferers with the headache become two vinced of it, the sooner will their sufferings end in restoration of health. Dr. Spohn pledges his professional reputation on this fact. The remedy may be had of apothecaries generally throughout

BALDNESS

BALDNESS

A BEAUTIFUL HEAD OF HAIR

Is the grandest ornament belonging to the human frame. How strangely the loss of it changes the countenance, and prematurely brings on the appearance of old age, which causes many to recoil at being uncovered, and sometimes even shun society to avoid the jests and sneers of their acquaintance; the remainder of their lives is consequently spent in retirement. In short, not even the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of property fills the generous thinking youth with that heavy sinking gloom as does the loss of its hair. To avertall these unpleasant circumstances, OLDRIDGE'S BALM OF COLUMBIA to the loss of the first application, and a few bottles restores it again. It likewise produces eyebrows and whiskers; prevents the hair from turning gray, makes it curl beautifully, and frees it from scurf. Numerous certificates of the first respectability in support of the virtues of Oldridge's Balm are shown by the proprietors.

MOFFAT'S LIFE MEDICINES

sisticus, chap. Axiii.

V. 3. The skilful physician shall lift up his head; and in the sight of the great men shall be an adminten.

V. 4. For he hath prepared his medicines out of the Herbs of the earth, and he that is wise will not abbut them.

Moffat's Veyelable Life Medicines possess qualities of the most mild and beneficial nature. They are composed of articles the most anti-putrescent, combined with ingredients known as the only certain natidate for fevers of every description. When the disease is preduced either from cold, obstruction, bad air, swampy and damp situations, or putrid miasmi, whether malgnant or epidensic, or by other causes, these medicines are certain is their operation or effects. They are possessed of peculiar qualities which not only expel all disease, has at the same time restore and invigorate the system. When first taken into the stomach, they immediately diffuse themselves like vapour, through every porce, producing effects at once delightful, salutary and permanent. When the spark of life begins to grow dim, the circulation languid, and the faculties parilyted, these medicines are found to give a rone to the nerves, exhilerate the animal spirits, invigorate the lady, and reanimate the whole man.

The Life Medicines have also been used with the most happy success in Nervous and Dyspeptic disease, Consumption, Asthma, Liver Complaint, Rheumatin, (chronic and inflammatory) Dropsies, &c. &c.
