THE NEW YORKER.

THE NEW YORKER.

THE Publishers of the New-Yorker respectfully announce the commencement of a New Yolame of their journal on the 21st of Sept. next, being the Eighth of the double Quarto Edition, and completing the Sixth year of its pu lication in the Folio or common newspaper from.

The New-Yorker is now so widely known as to render superfluous any detailed delineation of its character and objects. Suffice it there that the work is intended to just an the reputation of a Weekly Literary Sournal not inferior in ability and standing to any on either side of the Atlantic. About two-thirds of its columns are devated to the best Original and Selected Literature, comprising Reviews, Essays (Scientific and Literary,) Tiles, Poems, choice Extracts from New Works, Bingraphical and Historical Sketches, &c. &c. In this department, Critical Notices of nearly all new publications of interest will be given. The remaining columns will be devoted to a condensed abstract of the Political and General Intelligence of the day, Domertic and Forign. Under this head, the returns of all important Elections, throughout the United States will be carefully complied and compared with those of former Elections, so as to give a clear exhibit of the relative strength of each political party in the several States. All political movements of interest will likewise be briefly and instructive, then agreealle and entertaining. The steady support through the last three years of an average of more than 8,000 subscribers warrants the belief that the conduct of the work has not disappointed the hopos of its friends, while it has secured the decided approval of an Intelligent public. Such as it has been it will continue to be, with the exception of the additional aid already secured in its Editorial department to which it is hoped that still further strength will be added by arrangements now in progress. If unwarred exertion and a fixed resolve to spare no labor or expense which may tend, to elevate the character of their work can avail any thing, th

THE AUTHOR has been told by his friends and other M.S.S in his possession, if properly condensed and arranged, would make, even in these fastidious times, a readable book. He has undertaken the task, yet with fear and trembling;—eoupled, as it must be, with the obtrusion of himself on the notice of the public. But, emboldened by the faveur shewn already, to some of his little communications, political and piscatory, in the provincial newspapers, and the New York Albion, he does not despair of success.

Having resided a long time in these Provinces, and purposing to pass the rest of his life here, the Author prefers printing his trifling work by subscription in Canada, to publication elsewhere.—Should a sufficient number of Subscribers be found to secure him from risk of pecuniary less,—and gain is not his object,—the sheets shall be sent to press without delay.

New and Valuable Medicine.

THE REV. I. COVERT'S BALM OF LIFE,
To those who are afflicted with acute—and
chronic diseases of the Lungs and Windpipe.
This medi ine is suited to all climates and to
persons of all ages and sexes, will keep for any
length of time, and may be used with perfect
safety by persons in the most feeble state of health,
as it contains no ingredients that can impair the
constitution under any circumstances. It will be
found greatly serviceable in all diseases of THE
LUNGS AND BRONCHIA, SUCH AS PITHHISIC, ASTH
MA, WHOOFING COUCH, CROUP, ACUTE AND CHROSINC INFLANATION OF THE LUNGS AND WINDFIPE;
BY THE DYSPEPTIC IT HAS BEEN USED WITH DECOLDED ADVANTOALS, and is serviceable to persons
labouring under debility of any kind, if used according to the directions. To the consumptive to
has invariably afforded almost immediate relief,
and in several instances has wrought a permanent
cure. It is not, however, expected to effect a cure
upon such as are in the last stages of the disease;
but even to such, it will be found to give much
relief, and greatly prolong that remmant of life
which has become so nearly ex inguished by the
area destroyer.

The subscriber having witnessed with pain the
great destruction of the health and life of so many
of his fellow beings by the above enumerated and
their kirdred diseases, bas with much study, care
and consultation, prepared his valuable medicine,
which he is willing to submit to the most scrutirising test of the medical faculty, and to rest its
reputation upon their decis on. He is already assured upon their decis on. He is already assur

UNEXAMPLED MAMMOTH SCHEME!!

THE following details of a SCHEME of A LOTTERY, to be drawn in DECEMBER next, warrants us in declaring it to be UNPARALLELED in the history of Lotteries. Prizes to the amount HAVE NEVER BEFORE BERN OFFERED to the public. It is true, that there are many blanks, but on the other hand, the extremely low charge of \$20 per Ticket—the VALUE and NUMBER of the CAPITALS, and the revival of the good old custom of warranting that every Prize shall be Drawn and Sold, will, we are sure, give universal satisfaction, and especially to the Six Hundred Prize Holders.

TICKETS ONLY TWENTY DOLLARS. Holders.

To those disposed to adventure, we recommend early application being made to us for tickets—when the Prizes are all sold, blanks only remain—the first buyers have the best chance. We, therefore, emphatically say—DELAY NOT! but at once remit and transmit to us your orders, which shall always receive our immediate attention. THE author of this article is very derirous that his views and assert one should not be mishis views and assert one should have the real ments and effects of so important a remedy. He will state a few fact on which the reader may most implicitly rely. They are true. It is asserted most solemity and aeriously, and the person who will investigate will find them invariable. On this assertion the suthor pledges his reputation and character not only as a man and physician, but as a moral and correct good citizen. We repeat, this medicine is all it professes to be.

Gentlemen have told the proprietors often, that whether prudent or not they feel perfectly safe from any lever while they have the atticle. They can always throw off the worst kind of fevers in a few hours, it taken at the commencement. They rise from its use without the least debility, and feel perfectly free, well and bright.

Will not the public give it a trial?

An uncommon fact is, that this remedy is a syrop palatable and pleasant to the taste, and children take it always with the greatest readiness.

The proprieter is now making rapid arrangements to have this article in the hends of every druggist and apothecary in this country. It may be known to be genuine by the signature of the gentleman and physician who is the author of it.

E. SPOHN, M. D.

It is with great pleasure that the agents are enabled thus to bring forward an article so truly menitorious as this syrup, and from such a source, and they trust the community who have occasion to the this to bring forward an article so truly menitorious as this syrup, and from such a source, and they trust the community who have occasion to the such control of the such propers.

OBSERVATION.

Symptoms like the following are sure to yield to use: sickness at the stomach, headache, dizziness, palpitation of the heart, impaired appetite, sometimes acid and putrescent eructations, coldness and weakness of the extremities, emaciation and general debility, disturbed rest, a sense of of pressure and weight at the stomach after eating, night mare, great mental Jespondency, severe flying pains in the chest, back and sides, costiveness, a dislike for society, or conversation, involuntary sighing and weeping, langour and lassitude upon the least exercise. To be had at No. 2 Fletcher-street, New York, and of all respectable Druggists. ble Druggists.
DR. SPOHN'S

ELIXIR OF HEALTH. The leading points to theory upon which the great use of this Syrup is predicated, is that the stomach is the seat of all diseases of a feverish nature, and any disorder incident to the stomach is cured by this article. There is therefore no fever or cold, asthma, inflammation or debility, or sickness at stomach, (except with females, encente,) or dysentery, or jaundice, or dyspepsia, but what it will cure. The only thing is that people should be patient and depend upon it. For asthma it has no equal.

Sold at No. 2, Fletchet-street, near Maiden Lane, and by all respectable Druggists.

DR. SPOHN'S

ELIXIR OF HEALTH. It has become a general practice with many to use this article in all cases of colds; pains in the bones, or heavy disagreeable feelings, tending to headache or chilliness. For hoarseness, if taken through the day, it completely restores the voice without producing sickness. Whooping cough, and all coughs of children, are cured by it. The stomach is kept in perfect order by it, and it is quite impossible that any disease should conmence while a person is using this Syrup.

If taken daily it produces a ruddy, healthy, and young appearance, by driving off all the humors of the system. Sold genuine at 2 Fletcherstreet, one door below Pearl st. New-York, by Comstock & Co., N. Palmer, Chemist & Druggists, Kingston, Upper Canada, and by all respectable Druggists.

OPINIONS OF THE PRESS.

OPINIONS OF THE PRESS.

"The various diseases to which persons are subject who proceed from this country to foreign climes, too often prove fatal, in consequence of unskifful treatment. We would recommend, in these cases, an excellent medicine, now well known as Spohn's Elixir of Health. In the West Indies Dr. Spohn performed some well attested cures, after all other remedies had failed."

"Captains, merchants, and others proceeding on a long voyage, cannot provide themselves with a more valuable companion than a medicine of exceeding worth and utility, known amongst all classes, high and low, rich and poor, as Dr. Spohn's Elixir of Health. Doctor Spohn has received the highest testimonials of its extraordinary efficacy from the most eminent Naval and Military Surgeous, who prescribed this medicine during a voyage with the most successful results."

geons, who prescribed this flectuation of age with the most successful results."

We cannot do less than call the attention of our readers to Dr. Spohn's Elixir of Health, which, we are assured, is of extraordinary efficacy, and an excellent remedy for bile, indigestion, loss of appetite, nervous affections of the head, &c. Testimonials as to its efficacy, by several of the most distinguished members of the faculty, have been so often before the public, that we do not hesitate in recommending it to the notice of such of our readers as may be afflicted with either of the above maladies."

"The most popular and highly appreciated me-

maladies."

"The most popular and highly appreciated medicine in the navy and military circles, is an invention of Dr. Spohn's, known as the Elixir of Health. This medicine is deservedly spoken of as an excellent corrective, after the indulgences of the table threaten and produce those unpleasant east morning's reminiscences, which never fait to annoy, worry and perplex the bon vivant."

to annoy, worry and perplex the bon vivant.?

"Medical men of the highest professional reputation, have strongly recommended, in all cases of bilious affections, constipation of the bowels, and nervous and sick headache, arising from the overloading of the digestive organs, the use of this medicine as the best extant for relieving those who are laboring under the effects of these complaints. It is a most safe and efficacious remedy, and certain in its effects."

"Dr. Spohn's Elixir of Health is a medicine which its own intense worth will always secure for it a large and ready sale. It has deservedly a high reputation; and as a family and anti-bilious remedy it would be difficult to equal it among all the patent medicines of the present day. It removes all morbid humors and purifies the blood. Our belief is, 'keep your bowels and blood pure,' and every kind of disease will be prevented or cared. The Elixir of Health is eminently calculated to do this, and thereby much lessen the sum of human misery."

"One of our men some time since, gave notice that he was not able to attend to the duties of his situation, in consequence of violent pains in his back and side. We recommended him not to despair, but to use Dr. Spohn's Elixir of Health. He did so, and it cared him perfectly. This is no puff. It is an actual fact. We know the medicine is good, We speak from experience."

"Br. Spohn's Elixir of Health is a medicine well worthy the confidence of the public. The principle on which it cares disease is the same as that of Leroy, of Paris and Swedenaux of Germany. That all the variety of diseases proceed from, or are nearly allied to the disorders of the stomach and bowels, and thet by using those remedies which restore to health those organs, the disease will vanish."

\*\*We were for a long time among the sceptical as to the efficacy of Dr. Spohn's Elixir of Health, so justly celebrated. A recent trial of it upon a friend of ours who was atlacked with a most violent billious cholic, has remived all doubts in our minds as to its being the very best cathartic that can be administered; and, believing so, we think we do the public a benefit in saying what we have of it."

"PRESERVATION OF HEALTH."

"It has been remarked, and most truly, that the three ordinary secrets of health are early rising, exergise, and personal cleanliness. Personal cleanliness all have it in their power to observe; but to many early rising is inconvenient, and exercise impossible, in consequence of the nature of their worldly avocations. To these the use of Dr. Spohn's Elixir of Health would prove of great value in the preservation of that invaluable blessing—health."

"SEASONABLE ADVICE."

"'Take time by the forelock,' says the adage. Take medicine at the proper time, say we. It is a matter of less difficulty to ascertain the proper time to seek relief from medicine, than it is to discover the proper medicine which is to administer comfort to the afflicted patient. Dr. Spohn's Elixir of Health, which has obtained a celebrity in the 'annals of physic,' unequalled in ancient or modern times, has performed such astonishing cures, that numbers of the faculty, in justice to Dr. Spohn, have publicly recorded their opinions of its wonderful and extraordinary health-restoring qualities." estering qualities."

RIII.E 1st. RULE 1st.

Fill a common tumbler near one fourth full of this Syrup, and fill it up with cold water. Add then as mu-h sugar as you please to make it pleasant, or add none if you prefer it without. Mix it well. The tumbler-full to be taken at three of tour drafts, at intervals of 20 or 30 minutes. Take a little clear cold water after it, which will remove all unpleasant taste instantly. If you choose mix one tablespoon-full with a quarter of a tumbler of water, and take it all at once, and repeat it every 20 minutes.

If your system is feverish, or bowels costive, take If your system is feverish, or bowels costive, take an active cathartic. As soon as that operates upon the bowels, or if the fever is high, commence at once the use of this medicine. Free perspiration will invariably be propuced if it is taken after physic or bleeding, provided the person keeps in a warm room, or covered up in a warm ted. It is certain that such perspiration and fever cannot exist at the same time.

Perspiration will nearly always follow without physic or blood-letting, if the person does as above.

RULE 3d.

RULE 3d.

For Dyspepsia, Costiveness, Hardness of Food after eating, or Flatulency, take it after meals, as above directed. Hardness of Food and Heartburn will be instantly cured.

After too n uch dinner, too much supper, or after eating any fruit, ripe or unripe, freely take it, and all unpleasant consequences are prevented. Let us not be understood as holding out inducements to indulgences, when we assert most positively that unripe fruit, and almost every thing else, may be eaten with impunity, if this is freely taken immediately after. Persons indulging too much at evening parties by taking it an going to bed, will rest well, and feel no bad effects the next day from their indulgences.

RULE 5th. Let nothing interfere with its thorough use. No bad effects can ensue from it. If the person has taken calomel, or any other medicine, no injury can be done by the immediate use of this, even when under the influence of any medicine. H. & S. JONES,
